Anne Weisenberg, Coordinator, Multiple Subject Program
Donna Andrews, Coordinator, Single Subject Program
Elmano Costa, Chair, Department of Teacher Education

Date: March 10, 2014

RE: Requirement for Cardiopulmonary Resuscitation (CPR) Certification

The California Commission on Teacher Credentials (CCTC) requires that all students applying for a Preliminary Credential demonstrate that they have **"infant, child, and adult CPR certification which meets the criteria of the American Heart Association or the American Red Cross."**

This requirement is effective immediately. Therefore, anyone applying for a credential must first provide proof that he/she has the CPR certification, including students who are currently student teaching and who will finish the program in Spring 2014.

Students who already have CPR certification need to provide a copy of the document, via email, fax or in person, to the **Credentials' Office in DBH 303**.

Students who do not currently have CPR certification will need to complete it prior to applying for their credential. CPR Training facilities and online courses are listed on the following page.

CPR Certification Information for Teacher Education Credential Programs

Listed below are five options for CPR Certification (requirement for teacher credentialing).
