2017-18 SERSCA Mini-Grants Awarded as of March 8, 2018					
Name		Academic Program	Degree Objective	Faculty Mentor	Proposal Title
Paul	Acevedo	Art	BA	Martin Azevedo	Dream Psyche.
Sandra	Alcantar	Social Work	MSW	Jane Rousseau	First Generation: Student Experiences Surrounding an Imposed Label
Patricia	Ayson	Chemistry	BS	Michael Drake	Increasing STEM Engagement through Chemistry-Related Art
Mandip	Bassi	Biology	BS	My Lo Thao	The Effects of Cigarette Smoke Exposure on Angiogenic Gene Expression in Chick Embryo
Anna	Billy	Social Work	MSW	Shradha Tibrewal	End of Life Option Act: Impications for Social Workers and the community we serve
Michaela	Cohoon	Interdisciplinary Studies	MA	Grace Paradis	The Relationship Between Sports Involvement and Self-Regulation, Empathy, and Problem Solving Skills
Holly Grace	Currie	Social Work	MSW	Jane Rousseau	HARRT Curriculum Development
Monica	Datta	Genetic Counseling	MS	Janey Youngblom	Perspectives and Experiences of Parents: Fertility Preservation for Males with Klinefelter Syndrome
Susana	Diaz	Social Work	MSW	Alfred Perez	Understanding Latina's perspectives and experience with cancer and genetic testing for the BRCA 1 and BRCA 2 genes.
Celeste	Diaz	Biology	BS	My Lo Thao	The Effects of Cigarette Smoke on Angiogenic Gene Expression in CAMs.
Joseph	Garfield	Chemistry	BS	Elivin Aleman	Identification of flavor compounds in biomolecular reactions
Ashleigh	Glover	Ecology & Sustainability	MS	Jennifer Cooper	Estimating sex-bias in dispersal in three Central Valley populations of California ground squirrels (Otospermophilus beecheyi)
Mara	Hernandez	Genetic Counseling	MS	Kara Weisiger	Genetic Counselors' Experiences with Non-paternity in the Clinic
Erik	Jimenez	Chemistry	BS	Michael Drake	Increasing STEM Engagement through Chemistry-Related Art
Rajnee	Johal	Biology	BS	Jennifer Cooper	Variables Influencing Fluctuating Asymmetry In The California Ground Squirrel
Britney	Johnston	Biology	BS	Michael Drake	Increasing STEM Engagement through Chemistry-Related Art
Soua	Lee	Educational Leadership	EdD	Virginia Montero Hernandez	Career advancement experiences of Asian American women in California community colleges
Wenhui	Liu	Business Administration	MBA	Xuehu Song	Exploring Revenue Sharing Benefits and Mechanism in Various Industries
Alithza	Lopez	Behavior Analysis	MA	Katie Wiskow	Teaching Children with Autism to Initiate Social Interactions Using Textual Prompts Delivered via Apple Watches®
Margaret	Lunt	Art	BA	Susan Stephenson	Oddities on the Side of the Road
Johnee	Machado	Biology	BS	Jennifer Cooper	Factors influencing endoparasite (Eimeria sp.) infection of the California Ground Squirrel (Otospermophilus beecheyi) in the Central Valley
Alexis	Mahloch	Biology	BS	My Lo Thao	The Effects of Cigarette Smoke Exposure on Angiogenic Gene Expression in CAMs
Nieko	McDaniel	Art	BA	Daniel Edwards	Bamboo Totem Pole
Daniella	Menashe	Genetic Counseling	MS	Janey Youngblom	Assessing Health Anxiety in Genetic Counseling Students
Katherine	Merkling	Psychology	BA	Victor Luevano	How Heart Rate Variability Under Stress Can Predict Memory and Attention
Abigail	Merry	Chemistry	BS	Nhu-Y Stessman	Proposed Synthesis of Suberedamine A
Alyssa	Moon	Art	BA	David Olivant	Unconscious Painting Senior Exhibition
Ophelia	Nguyen	Social Work	MSW	John Garcia	New Beginnings Sober Living Program Social Media Foundation
Megan	Ordonez	Psychology	MA	Katie Wiskow	The use of a Dependent Group Contingency to Increase Physical Activity during Recess
Jose	Oropeza	Social Work	MSW	Alfred Perez	DACA'mented
Madison	Pimentel	Social Work	MSW	Robin Ringstad	Sex Trafficking Training
Nisreen	Rashid	Interdisciplinary Studies	MA	Rita Asher	Supporting the Early Adjustment of Parents of Children Newly Diagnosed with Autism
Christopher	Reed	Chemistry	BS	Elivin Aleman	H3TPCor Characterization through Spectroelectrochemistry
Madeline	Runyan	Business	BA	Jarrett Kotrozo	Anger Management
Krystle	Sanders	Kinesiology	BA	Jeffrey Bernard	The Freshman 15: Is increased fat mass or decreased muscle mass to blame for the increase in cardiovascular and metabolic risk factors in first year college students?
Leonor	Sierra	Social Work	MSW	Alfred Perez	Physician-assisted end of life option and Californian social workers: Are they ready?
Hayley	Simon	Art	BA	Martin Azevedo	Feminist Art
Lauren	Slevin	Genetic Counseling	MS	Janey Youngblom	Perceived Utility of Molecular Autopsy in Sudden Cardiac Death Cases: A Comparative Study of Client and Genetic Counselor Perspectives
Tyrone	Thompson	Social Work	MSW	Robin Ringstad	A Phenomenology of Emerging Adults Transition-aged Youth Navigating Supportive Mentor Relationships
Kirsten	Thornhill	Kinesiology	BA	Jeffrey Bernard	The effects of upper body exercise on lateral standing posture.
Patricia	Valencia	Social Work	MSW	Valerie Leyva	Homelessness Approach Project
Joel	Vilanova	Curriculum & Instruction	MA	Dawn Poole	Technology Acceptance and Use survey
Meghan	Williams	Microbiology, Chemistry	BS	Jennifer Cooper	Undergraduate Student Researcher
Ranae	Wooley	Public Administration	MA	Nancy Hudspeth	Developing Democratic Citizenship through Art
Luangchee	Xiong	Educational Leadership	EdD	Virginia Montero Hernandez	Negotiating Two Cultural Worlds: The Development of Career Aspirations
Sarah	Zimmerman	Chemistry	BA	Jennifer Cooper	Burrow Density and Distribution in the California Ground Squirrel: Implications for Socioecology
