

**California State University, Stanislaus
Health Insurance Promissory Contract**

The United States Office of Immigration and Customs Enforcement (ICE) and the California State University System require that international students provide proof of health insurance prior to enrollment. International students are required to maintain health insurance throughout their time in the United States, including winter and summer breaks.

Each semester, health insurance “holds” on registration are placed on the records of international students until CSU Stanislaus verifies that each student’s health insurance is current. Students will not be able to register unless insurance is current.

California State University, Stanislaus requires all international students to participate in health insurance through Wells Fargo of California Insurance Services, Incorporated. The cost of insurance for coverage from September 2, 2007 to September 2, 2008 is \$875.00. You may view the entire plan by going to the following website www.csuhealthlink.com/ssi/default.aspx and selecting CSU Stanislaus.

You may purchase your health insurance at CSU Stanislaus on the first day of International Student Orientation, or you may purchase it online prior to your arrival at: www.csuhealthlink.com (select CSU Stanislaus, then follow the written instructions).

Health Insurance Promissory Contract

Please complete the section below and return it to the Office of Global Affairs:

I understand that while I am a student at CSU Stanislaus I am required to have health insurance coverage. I agree that I will purchase the insurance policy available through CSU Stanislaus on or before the first day of International Student Orientation. I understand that non-compliance with this health insurance requirement will cause the cancellation of my course registration and cause a hold to be placed on my records, preventing me from registering for classes in the future.
