Clery Act Compliance

University Police Services prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The full text of this report can be located on our web site at [www.csustan.edu/UPD/Pages/Campus Crime Statistics](http://www.csustan.edu/UPD/Pages/Campus_Crime_Statistics). You will also be able to connect to our site via the CSU Stanislaus Home page at www.csustan.edu. This report is prepared in cooperation with the Police agencies surrounding our main campus and our alternate sites, Housing and Residential Services, the Judicial Affairs Officer and the Division of Student Affairs. Each entity provides updated information on their educational efforts and programs.

University Police Services collects crime statistics from local police agencies. The University does not recognize any off campus fraternity or sorority houses. During the Fall term of every year, information is e-mailed to all enrolled students, faculty and staff that provides the web site to access this report. Copies of the report may also be obtained at the Campus Services Building (north end of campus), e-mail request to Public_Safety@csustan.edu or by calling (209) 667-3114. All CSU employees received a notice concerning this information on their August 31, 2013 paycheck.

University Police Services

Enforcement and Arrest Authority

The California State University, Police Department employs eleven (12) highly trained, full-time, sworn police officers, two (2) Community Service Officers, and an active support staff for the 24 hour protection of the Turlock campus community. The peace officers of this department have state-wide police authority per Penal Code 830.2 and Education Code 89560, and are vested with law enforcement powers and responsibilities, identical to the local police or sheriff departments in your home community. The Department is made up of the following sections:

1. Police Services
2. Safety & Risk Management
3. Support Services

Working Relationships with State & Local Police

University Police maintain close working relationships with all local, county, state and federal public safety agencies through mutual aid agreements. Information involving all incidents of suspected criminal activity known to involve off-campus organizations representing the university community is routinely directed to University Police by allied agencies. Additionally, the University Police and Turlock Police Services share dispatching and mutual officer assistance through a memorandum of agreement (MOA).

Criminal Activity Off-Campus

When a CSU Stanislaus student is involved in an off-campus offense, police officers may assist with the investigation in cooperation with local, state, or federal law enforcement. The City of Turlock Police routinely work and communicate with campus officers on any serious incidents occurring on-campus or in the immediate neighborhood and business areas surrounding campus. CSU Stanislaus operates no off-campus housing or off-campus student organization facilities. However, many students live in the neighborhoods surrounding CSU Stanislaus. While the City of Turlock Police have primary jurisdiction in all areas off campus, CSU Stanislaus officers can and do respond to student-related incidents that occur in close proximity to campus. University officers have direct radio communications with the city police, fire department, and ambulance services to facilitate rapid response in any emergency situation.

Timely Warnings

To minimize the number of criminal incidents, University Police Officers, Residential Life staff, students, and members of the wider campus community participate in a number of shared responsibilities to ensure that all students and their possessions are protected as much as possible. On occasion, you will see timely warnings notices describing recent crime trends or dangerous incidents that present an immediate threat to others. University Police will determine if a situation poses an immediate threat and will determine the content of the message and notification unless issuing a notification will, in the judgment of the first responders, compromise the efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. It is our policy to distribute these notices around campus to provide our community with information about the incidents and crime prevention recommendations. Once all relevant information is received and verified, these notices will be distributed through various methods; posting, text, e-mail, voicemail, and / or mailings.

Security of and Access to Campus Facilities

All campus facilities are key accessed, and most are open daily for scheduled campus community use. The Housing and Residential Life Complex is gated with key access only. Campus key control and distribution is a function of Facilities and Support Services.

To provide for the security of campus facilities, the University Police enforces Educational Code 89031 & Housing Policies. Campus facility access may be revoked per Penal Code 626.

Security Considerations Used in Maintenance of Campus Facilities

The University Police are responsible for security of all campus facilities. Personnel perform daily building lock-up and monitor all maintenance issues in campus lighting, door locks and general environmental safety in conjunction with Facilities and Support Services. Regular inspections and surveys of campus indoor/outdoor lighting, shrubbery and walkways are conducted. The University participates in Crime Prevention through Environmental Design concepts for planning and improvements on campus.

Federal Safety Compliance

Disclosure and Distribution

Copies of our policy and statistics disclosure notice statement stating availability for the CSU Stanislaus, Campus Security Report is e-mailed directly to all current students and employees by October 1st of each year. Prospective students and employees receive the disclosure notice statements via multiple outlets such as, but not limited to: Enrollment Services and Human Resources recruitment packets and/or application packets, near posting and information distribution centers on campus, from deans and department heads, web site links, the student handbook, new faculty handbook, class schedule, and extended education catalogs.

Public Access to Campus Police Crime Log

Items older than 60 days can be obtained by request within two business days. In accordance with the Student Assistance General Provisions (Section 34 CFR 668.46 (f)), we maintain all supporting records and daily logs for seven years following the publication of the last annual campus security report to which they apply.

Student Discipline

Students may be expelled, suspended or placed on probation for committing violent or criminal acts on campus or at campus-related events. In compliance with federal and state laws and regulations, victims of violent crimes, including sexual assault, are to be informed whenever information regarding disciplinary action taken by the university is included in a student's file. Within three days victims are to be notified of the results of the disciplinary action and any appeal. The victim is required to keep the results of the disciplinary action and appeal confidential. For further information, contact the Office of Student Affairs by calling 209-667-3177.

Security and Crime Prevention Programs

Crime Prevention Programs on personal safety and theft prevention are sponsored by various campus organizations throughout the year. University Police personnel facilitate programs for student, parent, faculty, and new employee orientations, student organizations, community organizations, in addition to programs for Residential Life Housing Resident Advisors and residents providing a variety of educational strategies and tips on how to protect themselves from sexual assault, theft and other crimes.

A common theme of all awareness and crime prevention programs is to encourage students and employees to be aware of their responsibility for their own security and the security of others.

Incidents of sexual assault should be reported as soon as possible to law enforcement (University police) and/or the Title IX Coordinator whose contact information is available at www.csustan.edu/titleix or (209) 667-3351. A victim or bystander can contact the University's Police Department at any time by calling 911 or during normal business hours by calling (209) 667-3114. Time is a critical factor for evidence collection and preservation. Filing a report:

- ensures that a victim receives necessary medical treatment and/or tests at no cost;
- provides the opportunity for collection of evidence helpful in prosecution, which cannot be obtained later (ideally a victim of sexual assault should not wash, douche, use the toilet, or change clothing prior to a medial/legal exam); and

Sexual Assault Policy and Procedures

- ensures the victim gets prompt access to free confidential counseling from trained counselors.

Individuals in the campus community are strongly encouraged to report any incident of sex offenses to any Campus Security Authority such as, but not limited to: University Police, the Title IX Coordinator, student housing staff, campus judicial officer, Dean of Students, coach, faculty advisor, or student health physician. If reporting to a psychological counselor, the student may choose to keep the report confidential, in which case information will not leave Psychological Counseling Services (PCS). The student also has the option to forward a report from PCS to the Title IX Coordinator or the University Police. The student deciding to forward information from PCS may keep the report anonymous or may decide to provide identifying information. The University encourages persons reporting to seek the support and assistance of friends or significant others when presenting their concerns.

Complaints Made by Students

Students, including applicants for admission, may file a complaint of sexual discrimination or harassment (including sexual assault) against the University, a University employee, other students or third party pursuant to Executive Order 1074, the Systemwide Policy Prohibiting Discrimination, Harassment, and Retaliation Against Students and Systemwide Procedure for Handling Discrimination, Harassment and Retaliation Complaints by Students.

Investigation of Harassment/Discrimination or Sexual Violence Complaints

Even if a victim elects not to make a formal complaint, if the campus knows or has reason to know about possible harassment, discrimination or violence, it must review the circumstances to determine if an investigation is warranted. The University may determine that circumstances warrant initiating an investigation even if a complaint has not been filed and independent of the wishes of a student. In cases alleging Sexual Violence, the Title IX Coordinator shall inform the student-victim of their right to file a criminal complaint. The filing of a criminal complaint will not significantly delay the University's investigation. The Title IX Coordinator will advise the student-victim of available resources.

The Title IX Coordinator, or an appropriate designee, shall promptly investigate a complaint. Investigations are completed no later than 60 Working Days after the intake interview, unless the timeline has been extended pursuant to Executive Order 1074. The investigator prepares an investigative report. The report includes a summary of the allegations, the investigative process, the

Preponderance of the Evidence standard, the evidence considered, findings of fact, and a determination of whether the accused violated Executive Order 1074.

The Title IX Coordinator notifies the complainant of the investigation outcome.

Disciplinary Action in Cases of an Alleged Sexual Offense by a Student

The Title IX Coordinator forwards to the student conduct administrator a copy of the investigation report and findings. Discipline cases involving allegations of Discrimination, Harassment, Sexual Violence or Retaliation are resolved pursuant to Executive Order 1073 (or any successive executive order) entitled "Student Conduct Procedures." In cases of alleged sexual assault, it is not appropriate for the complainant to "work out the problem" with the accused. In no event would any meeting between the complainant and the accused occur without appropriate involvement by the University.

In cases of an alleged sexual offense, the Student Conduct Administrator shall promptly notify the Title IX Coordinator of the outcome of the initial conference with the accused. If the case does not proceed to a hearing, the Title IX Coordinator shall promptly: (a) Notify the complainant of the outcome of the conference, including any sanction that relates directly to the complainant. Victims of crimes of violence, including forcible sexual offenses, shall also receive notice of the results in writing. This information is only given to the accused and the complainant. The notification of complaint resolution shall include the name of the accused, any violation found to have been committed, and any sanction(s) imposed on the accused. The University may also notify any other alleged victim(s) of the final result of an Executive Order 1073 proceeding whether or not the charges were sustained. In cases involving Discrimination Harassment or Retaliation without crimes of violence, a similar notice will be issued, but the information given to the complainant concerning sanctions shall be limited to any violation found have been committed and any sanctions that relate directly to the complainant.

Formal Hearing Procedures

If an Executive Order 1073 disciplinary case does not resolve by agreement, a notice of hearing will be issued by the Student Conduct Administrator. In cases involving allegations of a sexual offense, the notice shall be provided to the complainant. In cases of Discrimination, Harassment, or Sexual Violence, if the accused brings an attorney, the complainant will be notified of the right to bring an attorney.

Questions may not be posed to an alleged victim, including any complainant, about his or her past sexual behaviors with any person other than the accused. The hearing officer shall ask all questions of the alleged victims on behalf of the accused (who shall give the hearing officer a written list of questions), unless the alleged victim expressly waives this requirement and consents to questioning directly by the accused. The hearing officer shall ask any questions of the accused and other witnesses on behalf of the complainant (who shall give the hearing officer a written list of any such questions) unless the complainant expressly waives this requirement.

Possible Disciplinary Sanctions for Students or Organizations

The appropriate sanction(s) will be determined by the nature of the individual act. More than one sanction may be imposed for a single violation. Possible sanctions include: expulsion from the University, suspension for a specific time, probation for specific time, psychological counseling or assessment, performance of community service, revocation of residence license, denial of access to campus or persons, or other sanctions as determined by the University.

The following sanctions may be imposed on recognized organizations found to condone, promote, or be involved in incidents of sexual misconduct (Section 41301 (b)(7), California Code of Regulations): withdrawal of University recognition; informing the organization's national or regional offices of the misconduct; prohibition on participating in campus activities; requiring community service and/or participation in sexual assault awareness programs by all group members; loss of University privileges; or other sanctions as determined by the University.

Notification of Final Decision

Pursuant to Executive Order 1073, the University president shall review the hearing officer's report and issue a final decision. In cases involving crimes of violence,

including forcible sex offenses, both the complainant/victim and the accused shall be informed of the final result of the hearing in writing. This information is only given to the accused and complainant/victim and includes the name of the accused, any violation found have been committed, and any sanctions imposed on the accused. The University may also notify any other alleged victim(s) of final results regardless of whether or not the charges are sustained. In the case of an accused faculty member or other employee of the University, any discipline is undertaken in accordance with established California State University procedures and any applicable bargaining unit agreements.

Possible Disciplinary Sanctions for a University Employee

Sanctions up to and including dismissal from employment may be imposed on University faculty or staff members found to have engaged in misconduct including a sexual offense, in accordance with established California State University procedures, and guidelines set forth in appropriate collective-bargaining agreements. The complainant and the accused are entitled to the same opportunity to have others present during a campus proceeding and shall be informed of any proceeding outcome. If the victim is deceased as a result of the crime or offense, the University will provide the results of the disciplinary hearing to the victim's next of kin, if so requested.

Campus Fire Safety Report

The Campus Fire Safety Right-To-Know Act

The Campus Fire Safety Right-To-Know Act is aimed at increasing fire safety awareness on college campuses. It amends the Higher Education Opportunity Act of 1965 requiring colleges and universities to report specific fire safety information and statistics. This bill was signed into law August 2008 and the following is a public disclosure report that details all information required by this law as it relates to CSU Stanislaus.

Fire Safety Education and Training

All on campus residents receive fire safety training at the beginning of each semester. Comprehensive training on fire and life safety is also provided to all Residential Life Advisors, and Building Marshal's and Monitors. Emergency evacuation drills are conducted quarterly for residence halls and annually for campus wide buildings in coordination with Safety and Risk Management. University employees receive fire evacuation and awareness training during their New Employee Orientation and participate in regularly scheduled emergency evacuation drills.

Public Access Fire Incident Log

Housing and Residential Life maintains a fire incident log for the most recent 60-day period. It is open to public inspection during normal business hours. Items older than 60 days can be obtained by request within two business days. In accordance with HEOPA, section 668.49 Annual Fire Safety Report, we maintain all supporting records and daily logs for the three years following the publication of the last annual campus security and fire report to which they apply.

Plans for Future Improvements in Fire Safety

Residential Advisors and staff will be provided with more comprehensive training in fire awareness and safety measures and university employees will be required to attend training in emergency evacuation procedures.

In partnership with the City of Turlock Fire Department, an educational program will be presented on the hazards of fire, and will provide the necessary skills and information to enhance the safety of those residing on campus.

To Report a Fire

All students and employees at CSU Stanislaus should call 9-1-1 to report all fires or fire related emergencies.

- If you see a fire or smell smoke, immediately call 9-1-1 and/or activate the nearest fire alarm. You may also use the emergency blue light call boxes to contact the Police (Turlock Campus).
- If the fire is small and you are trained, you may choose to use a fire extinguisher or a building fire hose to put it out provided ALL of the following conditions are met:
 1. The fire alarm has been activated
 2. All occupants have been evacuated
 3. If the fire is small (waste basket size) and has not spread
 4. You have the correct type of extinguisher
 5. Your exit is clear and you can extinguish the fire with your back to the exit door
- When you hear an alarm, walk to the nearest exit notifying others of the fire on your way out.
- Go to an evacuation gathering area away from the building then wait for further instructions.
- Immediately notify University Police or Firefighters on the scene if you suspect someone may be trapped inside the building.

Emergency Response

Emergency Operations Plan

The CSU Stanislaus Emergency Operations Plan (EOP) provides basic structure and procedures to guide the University's management of and response to extraordinary emergency situations associated with natural and man-made disasters.

The EOP conforms to California State and Federal law governing emergency operations. The CSU Stanislaus plan:

- Promotes the utilization of the Incident Command System
- Conforms to the Standardized Emergency Management System
- Conforms to the National Incident Management System

The Emergency Operations Plan is available online at: <http://www.csustan.edu/emergency/Documents/EOP.pdf>

Emergency Procedures

The Emergency Procedures guide provides basic instructions for the University Community in response to crisis situations on campus.

The Emergency Procedures Guide is available online at: <http://www.csustan.edu/emergency/Documents/EmergencyProcedures.pdf>

Business Continuity Plan

The Business Continuity Plan provides administrative guidance for the timely return to the business of education.

The Business Continuity Plan is available online at: <http://www.csustan.edu/emergency/Documents/BusinessContinuityPlan.pdf>

Testing

CSU Stanislaus will conduct periodic testing of emergency response and evacuation procedures at regular intervals across campus according to the California Fire Code, California Code of Regulations, Title 24, Part 9. The testing of such procedures will be documented and will include a brief description of the exercise, the date, time, and whether or not the exercise was announced or unannounced.

Emergency Notification Procedures

Unless the notification at that time will compromise efforts to contain the emergency, CSU Stanislaus will immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or staff occurring on campus. University Police will coordinate and communicate response efforts once a threat to the campus has been determined. Depending on the nature of the situation confirmation may be made in collaboration with university personnel, allied agencies, or the campus community. Methods used for immediate notification may include but are not limited to; fire alarm systems, emergency radios, phone trees, and the Emergency Notification System.

CSU Stanislaus utilizes an emergency communication system that is capable of rapidly sending voice, e-mail and text messages to all faculty, staff and students. This system is known as the campus Emergency Notification System (ENS).

During critical situations, CSU Stanislaus officials will use this system to provide emergency details and information on the appropriate response to all employees and students.

Emergency messages will be sent to all registered e-mail and phone numbers, including work, home, cell and text. To register in the ENS, log on to the University emergency website at: <https://www.csustan.edu/Emergency/ENS/> to provide or update your emergency contact number(s). You will need to login using your existing University e-mail ID and password.

If you experience problems with this process, please contact the OIT Help Desk at: (209)667-3687.

Emergency Evacuation

Evacuation Responsibilities

University Police

The University Police Department is responsible for the overall campus evacuation procedure and serves as the focal point in any emergency for assistance and coordinating outside services as delineated in the Emergency Operations Plan.

The University Police Department serves as the recipient of the evacuation status of each individual building as reported by individual Building Marshals. They will direct assistance in search and rescue of outside services as required.

Facilities Services

Facilities Services associates are trained to respond during emergency situations and assist the University Police Department with security and communication at University perimeter entry/exit points. Associates may assist with the dissemination of printed information relating to an emergency, assist with facility maintenance needs, and provide ongoing support for recovery efforts.

Building Marshals

These individuals are responsible for obtaining the evacuation status of their buildings in terms of assistance needed, building status, or any other critical informational needs. Building Marshals station themselves in pre-assigned locations to obtain information from their Evacuation Monitors. As soon as the status of their evacuation is known they forward this information to the University Police Department. Their primary responsibility is the evacuation of people from their buildings and the reporting of this information to Public Safety. They are not responsible for active search and rescue or any form of building remediation.

Evacuation Monitors

These individuals are responsible for the timely and orderly evacuation of their buildings occupants. They direct occupants to the proper exit and redirect occupants to secondary exits as necessary. They are responsible for making quick checks of rooms and reporting any assistance needs to the Building Marshal upon exiting. These individuals are not responsible for search and rescue or other related tasks, but serve to provide needed information to their Building Marshals.

Emergency Evacuation

Evacuation Procedures

The evacuation of campus buildings or the entire campus may be required due to emergency situations occurring on or near the campus. Campus emergency planning facilitates evacuations are conducted in a systematic, controlled, and planned manner.

The building evacuation plan for California State University, Stanislaus consists of a partnership between the University Police, Facilities Services and individual volunteer building “Building Marshals” and “Evacuation Monitors”.

Specific Instructions to Building Occupants:

- Safely walk to the nearest exit and go to an evacuation gathering area away from the building then wait for further instructions.
- Stay out of the way of emergency personnel and vehicles and follow instructions.
- Immediately notify University Police or other emergency response personnel if you know of a disabled or injured person needing assistance.

Campus-Wide Evacuation

When it is necessary to completely evacuate the campus due to emergency conditions, a systematic and controlled approach will be used. When campus buildings are deemed safe for occupancy, personnel will be held at their current locations pending evacuation. Where campus buildings are deemed unsafe the Gathering area system will be used (see map on page 22).

Following the decision to order the evacuation of the CSU Stanislaus campus, the University President or his/her representative shall notify:

- The Chief of University Police or his/her representative of the need to evacuate.
- The University Communications Public Information Officer or their representative of the need for information broadcasts asking all persons to stay away from campus.

The University Police, with the assistance of the Building Marshals, Monitors and Facilities Associates, shall be responsible for coordinating the evacuation process. Where the campus has been ordered closed and no campus facility is under eminent danger the evacuation of the campus will take place with an appropriate amount of time between each area.

Localized Evacuation

In some situations, it may become necessary to evacuate one or more building on campus due to a localized emergency situation. When this occurs the University Police will coordinate the evacuation with the Building Marshals and Monitors. The decision to evacuate will be based on the totality of the circumstances and, whenever possible, following consultation with the President and ranking Dean or Facility Manager. When evacuations are due to an overriding concern for public safety it may not be possible to make such consultations. In those instances the appropriate Dean or Facility Manager will be notified of the evacuation as soon as is practical.

Special Needs

Wheelchair users or other disabled persons should prepare for emergencies, in advance, by instructing a University official or employee.

Move toward the nearest emergency exit.

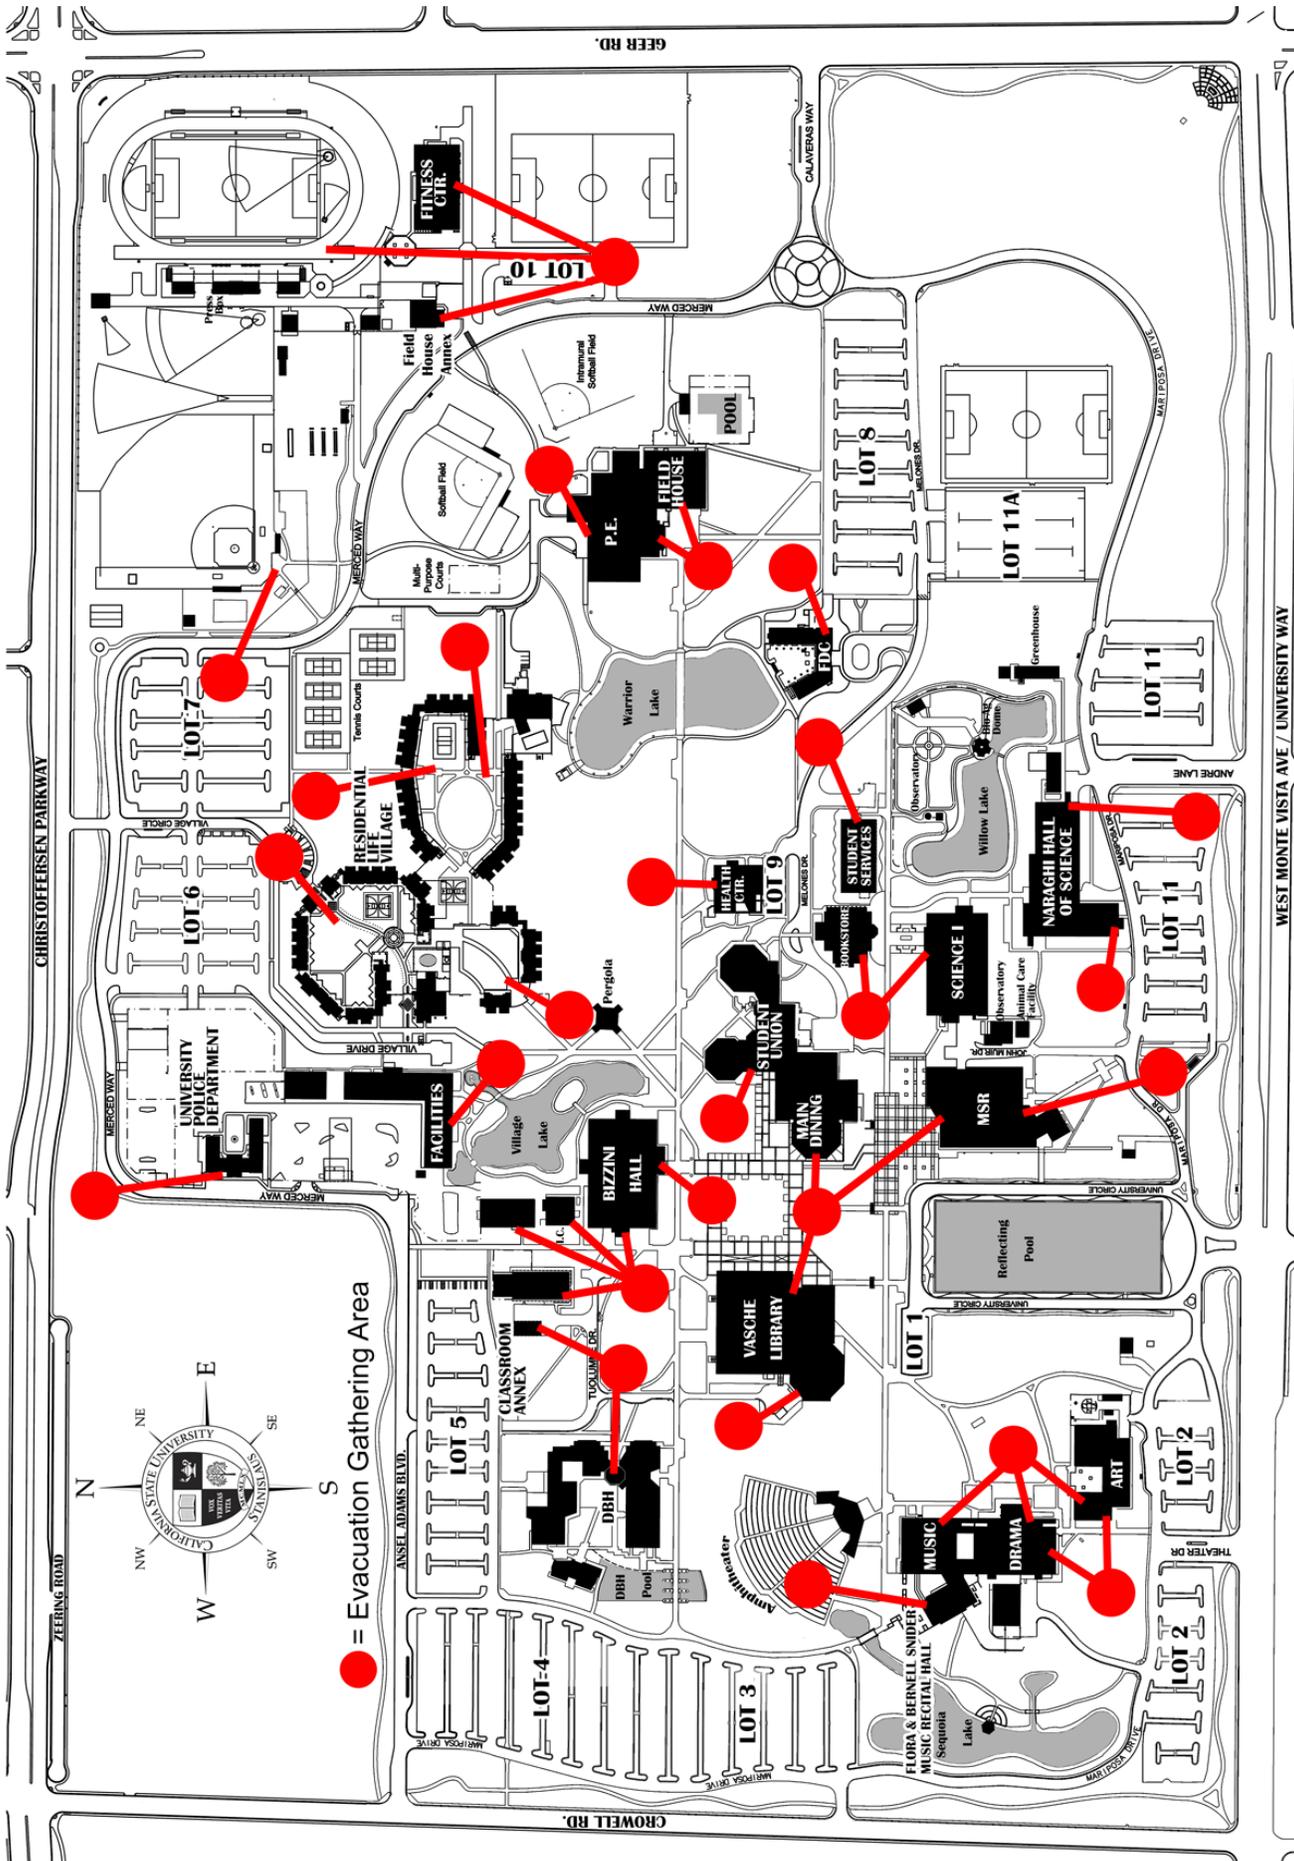

When a wheelchair user and/or other disabled person reaches an obstruction, such as a staircase, they should request assistance from others in the area.

If assistance is not immediately available, the wheelchair users and/or other disabled person should stay visible in an exit corridor or on an outdoor landing. They should continue to call for help until rescued. Persons who cannot speak loudly should carry a whistle (provided free by the UPD) or have other means of attracting the attention of others.

Special evacuation chairs (Evacu-Trac) are available in multi-story buildings to evacuate a disabled person DOWN stairs. The chairs are typically located near main stairways with instructions inside the cabinet. Contact the University Police for training.

Housing Evacuations

In the event of an emergency evacuation at residential housing facilities, students are to vacate their room and proceed to the nearest evacuation gathering area. Resident Advisors will respond and act as building Marshal’s and Monitors guiding residents to the nearest exits away from danger. Resident Advisors will use a methodical approach to evacuating each floor of each building involved. Once the building or area is clear a Resident Advisor will ensure that residents have evacuated to the gathering areas and are not blocking the path of emergency vehicles.

EVACUATION GATHERING AREAS

Housing Policies

Policies on Portable Electrical Appliances, Smoking, and Open Flames in Housing

CSU Stanislaus has policies and regulations that give clear direction to those students who reside in the university residential housing. A portion of the policies pay particular attention to fire and life safety issues. Excerpts from the policies are outlined below with a full discloser on the web at

http://www.csustan.edu/Housing/Forms_Publications.html, Administrative Policies and Regulations:

Cooking

In apartments cooking is limited to the general kitchen or kitchenette areas. Hot plates, electric frying pans, electric grills, portable stoves, toaster ovens or other similar appliances are not allowed in the suites.....For the safety of all in the community, residents must pay attention and use caution when cooking.....Under no circumstances are microwaves, stoves, and other similar appliances to be left unattended. Any damage done or inconvenience caused to the community (smoke alarms, fires, etc.) is the financial and judicial responsibility of the resident.

Decorating and Renovating Room Structure, Furnishings, or Grounds

Personal items or furniture brought into Housing and Residential Life living quarters must meet a documentable fire safety standard rating of 4 or 5. Furniture must either have a manufacturers tag physically on the furniture or the resident must have some other form of documentation by the maker of the furniture...

Individuals will be asked to remove extra furniture or furniture which does not have proof of evidence for fire safety rating...

When decorating a bedroom/suite/apartment be aware of the following:

- Tapestries, flags and burlap cannot be hung from a wall or ceiling as they burn rapidly and can feed a fire. These decorations may be affixed to the wall if they have been treated with a fire retardant and are so labeled.
- Due to state fire codes, tack message boards and nameplates are not permitted on the exterior of the bedroom, suite or apartment doors.
- All holiday décor must be flame resistant. Such decorations must be removed within ten days after the holiday. Holiday decorations such as artificial trees are permitted in the living room of suites or apartments and cannot be placed in bedrooms. Artificial trees must be approved by the Residential Life staff. Residents may not possess live holiday trees.

- Lights should be used only when a resident is present. All lights/cords must be in good condition and be UL certified...

Electrical Equipment

University Housing facilities have limits on their electrical systems. Overloading the circuits can result in tripped circuit breakers and present a fire hazard. The following guidelines apply to the use of electrical apparatus:

- Items with exposed heating elements are prohibited. This includes, but is not limited to, space heaters, sun lamps, immersion heaters and hot plates.
- Refrigerators for private bedrooms are permitted, provided they do not exceed: 3 cubic feet.
- Appliances such as stereos, radios, desk lamps, computers, TV's, VCR's, sealed -component coffee makers, hair dryers, other electrical hair implements, answering machines and electric blankets are permitted. In apartment, cooking appliances such as crop pots, toasters, toaster ovens, rice steamers, electric grills, and electric frying pans are permitted. These appliances must be directly attached to grounded outlets, and should remain unplugged when not in use.
- Privately owned air conditioners are not permitted. Window fans are discouraged and should never be used unless the resident is present.
- Surge suppressor-equipped, UL approved power cords are highly recommended for computer systems and other valuable electrical equipment. Extension cords or string surge protectors together in a series are prohibited.
- International appliances must use electrical converters.
- Irons must be used with ironing boards only and irons should never be left unattended.
- Cooking is limited to the kitchen and is not permitted in bedrooms.
- Multiple outlet plugs that insert into an outlet are not permitted.
- The placement of any material in or around the provided lighting is prohibited. The removal of lights, alteration of the fixtures and the replacement of institutional light bulbs with colored light bulbs are also against University Housing policy.
- Stereo equipment and speaker are expected to be of a size and power that are appropriate for high-density community living.

...Violations of these guidelines may result in immediate license revocation.

Housing Policies Continued

Fire Safety

Combustible Material Storage: The storage of combustible materials (gasoline, paint thinner, etc.) within the residential facility, including resident bedrooms, suites and apartments, is not permitted.

Fire Alarm/Drill: Residents and guests must evacuate a residential facility immediately when the fire alarm sounds. Those who do not evacuate are in violation of University policy and State fire code and will be referred to the Housing and/or University judicial processes.

Fire Safety Equipment: Residents are responsible for familiarizing themselves with the evacuation instructions located on the inside of their suite or apartment door. If the instructions are missing or illegible, please contact the Housing Office immediately to have a new one installed.

The following misuses of fire safety equipment are considered violation of policy: pulling fire alarms or fire alarm covers when no fire exists, blocking or propping fire doors, blocking fire stairs, tampering with smoke detectors, tampering with alarm horns or bells, misuse or tempering with sprinkler system heads (including, but not limited to, hanging items from sprinkler heads), tampering with fire exit signs and improper use of fire extinguisher or fire hoses.

Note that each suite or apartment common area, as well as each bedroom contains a smoke detector for resident safety. Contact the Housing Office immediately if the smoke detector begins beeping. Under no circumstances should a resident attempt to adjust or repair a smoke detector. This includes changing the batteries. Tampering with smoke detectors will result in a minimum \$60 repair or replacement fee and disciplinary action.

Open Flame: No open flames are permitted in suites or apartments. This includes, but is not limited to candles, incense, smoking and the burning of any materials or other flame-emitting items. Prior written approval must be obtained from the Residential Life Coordinator if this policy is incongruent with religious, cultural or spiritual beliefs.

Smoldering Embers: Apparatus such as hookahs, which results in smoldering embers, ash, etc. are not permitted within the housing facilities and grounds.

Portable Heaters: The utilization of portable heaters is not permitted.

Halogen Lamps: Halogen/torchiere/desk lamps are not permitted.

Doors: All unit doors are to be kept closed at all times due to the integrity of the rated corridors. At no time are the doors to be propped open or left ajar.

Smoking

In accordance with Executive Order W-42-93 issued by the Governor of California in February 1993 and the campus Smoking Regulations enacted September 2003, all smoking inside state-owned buildings and leased space, including residence facilities, student apartments, student rooms, patios and stairwells is prohibited. Individuals who do smoke must do so outside....Individuals who are smoking must properly and safely discard any trash, such as cigarette butts, ashes or materials, which result from their smoking.

On Campus Housing Fire Safety Systems

All phases of the on-campus Residential Life Facilities are equipped with smoke and heat alarms and are protected by automatic sprinkler systems. Residential Life Facilities were built in accordance with California Building Codes and meet the standards/regulations for fire safety according to the California Fire Code.
