

Sample Four-Year Plan (for a 15-unit concentration)

In order to complete the requirements for a Bachelor of Science degree in Business Administration (120 units), a student must take an average of 15 units a semester to graduate in four years. Here is a sample plan for incoming

freshman, as well as a two-year program for transfer students entering as a junior (60 units and above), who have already completed their lower division general education, and most of the prerequisites to the major. Electives will vary depending on how many units an individual has to complete at the time he/she enters California State University, Stanislaus. Transfer students should refer to the Evaluation of Transfer Credits sheet received at New Student Orientation for their catalog rights.

Students are also responsible for fulfilling their GE requirements and any additional graduation requirements. Refer to the catalog and Schedule of Classes for information on course prerequisites, the English Placement Test (EPT), the Entry-Level Mathematics (ELM), the Writing Proficiency Screening Test (WPST), and the Writing Proficiency Class Requirement. The WP course is not counted in the GE unit requirements.

FRESHMEN YEAR

FALL

SPRING

15 Units	Courses	13 Units	Courses
3	GE/Written Comm. Requirement (A.2)	3	GE/Oral Comm. Requirement (A.1)
