

Organization of IDEA Data

The WPAF is to contain copies IDEA student evaluations or approved substitutes as stipulated below

Current CSUS policy mandates written student questionnaire evaluations in a minimum of two classes annually for each faculty member. The IDEA instrument is to be used for this purpose. The faculty member and his/her department chair will jointly determine the classes in which the student evaluations will be conducted. Mandated IDEA evaluations or approved substitutes must be included. The completed evaluations become part of the faculty member's PAF. Faculty members may elect to have additional courses evaluated, and the results of these additional evaluations may be included in the RPT process.
