

## Exam 2 Review, Math 1070

Exam 1 is on Friday, November 20. The exam will cover §2.5 - §2.7, §3.1-§3.7, and §5.1 - §5.2. I highly recommend studying your quizzes, worksheets, and homework. Also, here are some good review questions from the chapter review problems. The actual exam might be of a different format, but these will help you understand the concepts covered on the exam. Try to do as many of these as you can without looking in your notes or book for guidance.
