Spring	Gerontology Elective	3
Spring	Culminating Project (5960), Thesis (5990), Comprehensive Examination (5980)	2
<b>Total</b>		<b>5</b>

**The Master of Science in Nursing degree requires completion of 36 units distributed as follows:**

1. Fifteen units of core courses,
2. Eighteen units of graduate coursework in a concentration or specialization including 3 to 6 units of elective course work at the undergraduate 4000 level or graduate level,
3. Students in all concentrations may choose between Project, Comprehensive Examination or Thesis. This choice should be made early in the program. Students should consult with the graduate adviser for current policies. Students choosing the Project or Thesis will enroll in 3 units of culminating experience. Students electing to complete the comprehensive examination will not receive units for the examination so they must enroll in an additional 3 units of elective coursework.

**Progression**

The CSU, Stanislaus Masters of Science in Nursing can be taken only on a part-time basis. Students in the graduate nursing program must maintain a cumulative grade point average of 3.0 in courses taken to satisfy the requirements of the degree. Students who fail to maintain a 3.0 GPA will be placed on academic probation.
