### **CAMPUS SPECIFIC NOTES:**

**COLUMBIA COLLEGE:** Columbia College does not offer an ADN Program. The college does offer courses that satisfy prerequisite and program requirements for programs at the other HECCC institutions.

**CSU STANISLAUS:** Students preparing for admission to the Pre-licensure Nursing Program at CSU Stanislaus should refer to the PRE-LICENSURE Program Grid.

#### Minimum Admissions Requirements to the Upper-Division Nursing Major (RN to BSN Track):

Students seeking to enter the program must have:

1. a current license as a Registered Nurse in California,
2. completed 60 semester units of baccalaureate-level transferable college credit,
3. completed a minimum of 30 semester units of nursing course work, earning a “C” or better in each course,
4. completed at least half of the University’s General Education breadth requirements, including oral and written communication, critical thinking (at least 9 semester units), and the requirement in mathematics/quantitative reasoning (statistics) (usually 3 semester units),
5. file an admission application to the University, *and*
6. file a Nursing application to the Department of Nursing.

**MERCED:** Complete information, selection process and enrollment forms are contained in the RN Application Handbook, available in the Merced College Bookstore, or through the web site:  
[www.mccd.edu/alliedhealth/regn/application.htm](http://www.mccd.edu/alliedhealth/regn/application.htm)

#### Selection Process

Applications to the RN program are accepted once a year during the Spring semester. Check website for specific dates applications will be accepted. Generally, the program accepts 27 students per semester.

The Merced College RN Program class selection process is determined using the multi-criteria screening process established by the California Community College Chancellor’s office in accordance with AB 1559. A Multi-criteria score is determined for each candidate based on previous degrees/certificates, work/volunteer experience in a healthcare setting, identified coursework GPA, life experience/special circumstances, foreign language proficiency and TEAS V assessment score. Ten percent of the available seats in the program will be offered to students with the highest points. The remaining seats will be chosen by random selection lottery from the pool of applicants meeting the minimum qualifications. These students will be sequentially numbered from one to the maximum allowed for the in-coming class, including a predetermined number of alternate students. Depending on the number of qualified applicants and constraints of the Chancellor’s Office multi-criteria screening model, the selection pool will vary in size from semester to semester.

#### Minimum Qualifications

The minimum qualification for application includes a 2.5 GPA in Anatomy, Physiology, Microbiology, English 01A and Math C (or higher). Minimum qualification also includes a first attempt composite score of at least 62 on the TEAS V test. Students not meeting these minimum qualifications are ineligible to apply.

**MODESTO:** Approximately **50** students are accepted each semester (40 students at MJC and 10 students in the Sonora cohort). Students must be a high school graduate or have the equivalent (GED or college

degree). Math competency must be met by the time of application. Math: Math placement eligibility for MATH 101 or higher or the completion of Math 89 (Intermediate Algebra) or higher with a grade of C or better. Anatomy 125, Physiology 101 and Microbiology 101 must be completed with a letter grade of C or better. ENGL 101 must also be completed with a letter grade of C or better. In addition to Sociology 101 or Anthropology 102, a student can complete Sociology 102 or 125 or 150 or 154 or 156 for MJC's nursing program. Note: Students planning to pursue a B.S. degree in Nursing at CSU Stanislaus should complete the **Sociology 101 option**.

#### Selection Process:

##### CHANGES IN THE SELECTION PROCESS

The ADN Program utilizes a multicriteria screening process for admission. Detailed information is posted on the ADN website: [www.mjc.edu/alliedhealth](http://www.mjc.edu/alliedhealth).

##### MULTICRITERIA SCREENING PROCESS

The ADN program selects students based on a Multicriteria Screening Process. This selection model is based on Assembly Bill 1559. Applicants will be evaluated on academic degree, relevant licenses or certificates, relevant work or volunteer experience, GPA in relevant coursework, life experiences and special circumstances, proficiency in a language other than English and the Test of Essential Academic Skills (TEAS.) The TEAS measures skills in the content area domains of Reading, Mathematics, Science and English and Language Usage. Preparation materials are available from Assessment Technologies Institute (ATI) at [www.atitesting.com](http://www.atitesting.com).

Prospective nursing students are required to have a passing score (62%) or higher) on version V of the Test of Essential Academic Skills (TEAS) within the first three attempts to apply to the MJC Associate Degree Nursing (ADN) program. For information on scheduling a TEAS, go to [atitesting.com](http://atitesting.com). The TEAS is offered at the MJC testing center.

For additional program information contact Allied Health, 575-6362 or visit the MJC website @ [http://www.mjc.edu/allied\\_health](http://www.mjc.edu/allied_health). For academic advising, contact the Counseling Office, 575-6080.

**SAN JOAQUIN DELTA:** San Joaquin Delta College offers a state and nationally accredited associate degree in nursing (ADN) program. The ADN program prepares graduates eligible to take the National Council Licensing Examination for Registered Nurses (NCLEX-RN). Following licensure, graduates are qualified to provide patient care in a variety of health care settings within the Registered Nurse scope of practice. The program is approved by the California Board of Registered Nursing and accredited by the National League of Nursing Accrediting Commission (NLNAC), 61 Broadway, New York, NY 10006.
