

Declaration or Change of Educational Objectives

An undergraduate student who selects or changes the degree objective at CSU Stanislaus after enrollment must file a Declaration or Change of Degree Objective form with the Enrollment Services Office. To change and/or declare a degree objective officially, the student is required to receive advising from an advisor in the receiving major/concentration/program, and all appropriate signatures must be obtained on the form. Students admitted to a credential program will have their academic status updated by the Credentials Processing Center.
12/AS/06/UEPC approved December 21, 2006.
