

# STOP ABUSE CAMPAIGN

The Stop Abuse Campaign is committed to the belief that all people have the right to live free of violence and the fear of violence. Because sexual assault, domestic/relationship violence, and stalking are not isolated incidents, we seek to address the common issues of power, control, and inequality to create a safe environment for students, faculty, staff, and community members.

Through interactive educational outreach programs and events, we seek to establish an environment that empowers survivors and challenges all forms of oppression. Through education, survivor support, proactive change at the institutional level, and furthering campus safety, we commit ourselves to keeping the issues surrounding violence visible and continuing to encourage a safe campus community.

The Stop Abuse Campaign is supported by the Title IX Coordinator in its commitment to promote campus safety, violence prevention education, and victim support.
