Mission Statement

The Tutoring Center provides academic support to all CSU Stanislaus students. Our goal is to create an open atmosphere of learning for students. We offer free

one-on-one and group tutoring to all CSU Stanislaus students, in most disciplines, at all levels of proficiency. This is done with the purpose of encouraging dialogue among students in order to share techniques for academic success. The Tutoring Center accomplishes its goals by training and providing undergraduate and graduate peer tutors who are experienced with the academic coursework in the subjects they are tutoring. These peer tutors are caring individuals who want to see others succeed by providing a supportive, judgement-free atmosphere where collaborative learning can take place.

Services Available

Tutoring is free for all students.

By appointment: Individual and group tutoring is offered for most disciplines. Please stop by the Tutoring Center to complete an application, and you will be scheduled for weekly tutoring sessions for the entirety of the semester.

Walk In: Tutors for math and writing are available during scheduled walk-in hours. No appointment is necessary. Hours vary each semester. Call or stop by for more information.
