As you plan for the Spring 2023 semester, please remember to work into your schedule the courses you need to maintain "good standing" in the Honors Program. The information below will help you identify the classes you'll want to take based on your year (i.e. freshman, sophomore, junior, senior) and indicate which of those classes are available to you next semester.

As always, we do not require you to take Honors classes to meet a GE requirement you've already fulfilled through AP credit, as a prerequisite, or as a course in your major. If there are scheduling conflicts between classes you need for your major and your Honors classes, we recommend you take the class for your major now and pick up the Honors class in a future semester. The only exceptions are the Honors Capstone Project research classes (HONS 3990, HONS 3500, HONS 4960) which must be taken in order starting the spring of your junior year. Please contact us in advance so we are all on the same page, and let us know if you'd like our help in resolving specific conflicts.

Many students have asked about on-line options in light of the continuing COVID-19 pandemic. Many of our Honors classes have on-line options, but several do not. Please remember that you are able pick up most Honors classes in a later semester if you're not able to take them in the recommended semester. Please contact Dr. Bell (eebell@csustan.edu) with specific questions or concerns.

As members of the Honors program, you will be able to add your Honors courses without permission numbers except in a few limited cases.

For those classes that do require a permission number, **please email Dr. Bell** (eebell@csustan.edu) with the course number. Once Dr. Bell has answered your email confirming that you have a seat in the class, you will be able to add the course using the permission number included in the email message.

We recommend that you add your Honors classes during your second-pass registration appointment.

If you would like to make an **Honors advising appointment**, you can make one through Warrior Connect (<a href="https://csustan.campus.eab.com/pal/hYtwzYNyu9">https://csustan.campus.eab.com/pal/hYtwzYNyu9</a> is Dr. Bell's personal link) or by emailing Dr. Bell (<a href="mailto:eebell@csustan.edu">eebell@csustan.edu</a>). Honors advising is not mandatory, but it can help keep you on track, so please make an appointment if you can or attend one of our Honors advising meetings.

We are always happy to answer any questions you have about your Honors classes, the program in general, plans for careers or graduate school, etc.—just ask!

Ellen B <u>eebell@csustan.edu</u> and Jim T <u>jtuedio@csustan.edu</u>
