### **Audition Requirements MUSIC TECHNOLOGY**

1. All candidates for the Music Technology program are required to demonstrate the following procedure during a monitored 1-hour session:

- **Basic Digital Audio Workstation competency and functionality on the Windows 10 operating system** (we will provide the audio material).

Candidates should also submit a **portfolio** of works documenting music technology experience in the form of two-to-four-minute songs and/or live concert recordings. Submissions may be in the form of mp3 files or a hyperlink to a personal website or streaming service.

2. The Music Technology emphasis also has a performance component. Therefore, all candidates are required to **audition** in order to demonstrate their performance abilities in either a vocal or instrumental medium of their choice. Please see the appropriate voice, instrumental, piano or jazz audition requirements to prepare for this part of the audition.

**A MUSIC THEORY PLACEMENT TEST** will be administered immediately following the audition. Testing is solely for the purpose of determining student placement in the appropriate level of theory study once enrollment has been finalized.
