INDEPENDENT AUDITORS' REPORT

To the Board of Directors of California State University, Stanislaus Auxiliary and Business Services

We have audited the accompanying financial statements of California State University, Stanislaus Auxiliary and Business Services (Organization), which comprise the statement of financial position as of June 30, 2020, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of California State University, Stanislaus Auxiliary Business Services as of June 30, 2020, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITORS' REPORT, CONTINUED

Emphasis of Matter

As described in Note 1, to the financial statements, on March 11, 2020 the World Health Organization declared the novel strain of coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. The ultimate financial impact and duration of these events cannot be reasonably estimated at this time. Our opinion is unmodified with respect to that matter.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information included on pages 18 - 26 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 - Organization and Summary of Significant Accounting Policies

Nature of Activities

California State University, Stanislaus Auxiliary and Business Services (Organization) was incorporated in the State of California on October 3, 1960, under the name of California State University, Stanislaus Foundation. Effective July 1, 1998, the Organization changed its name to California State University, Stanislaus Auxiliary and Business Services. The Organization also authorized the use of the name California State University, Stanislaus Foundation (Foundation) for a new non-profit corporation. The operations and assets of noncommercial activities were transferred to the Foundation effective that date.

The Organization was formed and operates as an auxiliary organization of California State University, Stanislaus (CSU Stanislaus or the University) which has campuses in Turlock and Stockton, California. The Organization arranges for services to students and faculty including dormitory, food service and campus bookstore. The bookstore and food services are provided by way of lease agreements with independent commercial vendors.

New Accounting Pronouncements

In June 2018, the Financial Accounting Standards Board (FASB) issued 2018-08, Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made (Topic 958). This standard update clarifies and improves the scope and the accounting guidance for contributions received and contributions made under US GAAP. During the year ended June 30, 2020, the Foundation adopted ASU 2018-08, Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made (Topic 958).

In March 2017, the FASB issued ASU 2017-07, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost* (Topic 715). This standard update was issued primarily to improve the presentation of net periodic pension cost and net periodic postretirement benefit cost. The amendments in this standard update require that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the statement of activities separately from the service cost component and outside a subtotal of change in net assets from operating activities, if one is presented.

Management has analyzed the provisions of the FASB's Topic 715, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, and has adjusted the presentation for the year ended June 30, 2020 to present service cost for certain plans as a portion of employee benefits expense and all other components as pension benefit (expense) in non-operating on the statement of activities. The Organization also participates in a cost-sharing, multiple employer plan, and the service cost per participating organization is not provided and therefore cannot be separately disclosed. For this plan, management included all contributions in employer benefits.

Financial Statement Presentation

The financial statements of the Organization have been prepared in accordance with U.S. generally accepted accounting principles ("US GAAP"), which require the Organization to report information regarding their financial position and activities according to the following net asset classifications:

- Net assets without donor restrictions Net assets that are not subject to donor-imposed restrictions and
 may be expended for any purpose in performing the primary objectives of the Organization. These net
 assets may be used at the discretion of the Organization's management and the board of directors.
- Net assets with donor restrictions Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other donor restrictions are perpetual in nature, where by the donor has stipulated the funds be maintained in perpetuity. The Organization did not have any with donor restriction net assets that were temporary or perpetual in nature for the year ended June 30, 2020.

Notes to Financial Statements

Year Ended June 30, 2020

Note 1 - Organization and Summary of Significant Accounting Policies, continued

Income Taxes

The Organization is a qualified nonprofit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and Section 23701(d) of the California Revenue and Taxation Code. However, the Organization remains subject to taxes on any net income which is derived from a trade or business, regularly carried on, and unrelated to its exempt purpose.

The Organization follows accounting standards generally accepted in the United States of America related to the recognition of uncertain tax positions. The Organization recognizes accrued interest and penalties associated with uncertain tax positions as part of the statements of activities, when applicable. Management has determined that the Organization has no uncertain tax positions at June 30, 2020 and therefore no amounts have been accrued.

Cash and Cash Equivalents

The Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

Accounts Receivable

The accounts receivable arise in the normal course of operations. It is the policy of management to review the outstanding accounts receivable at year end, as well as the bad debt write-offs experienced in the past, and establish an allowance for doubtful accounts for uncollectible amounts. A provision for doubtful accounts has not been established as management considers all accounts to be collectible based upon a favorable history over a substantial period of time. If amounts become uncollectible, they will be charged to operations when that determination is made.

Investments

The Organization carries investments in marketable securities with readily determinable fair values and all investments in debt securities at fair values in the statements of financial position. The fair value is determined using quoted market prices. The Organization's money market funds are reinvested into debt securities. Realized and unrealized gains and losses are included in the change in net assets in the statements of activities.

Property and Equipment

The Organization capitalizes all expenditures for property and equipment in excess of \$5,000. Equipment and improvements are recorded at cost or at estimated fair value at date of gift if donated. Expenditures for maintenance and repairs are charged against operations. Depreciation is provided on a straight-line basis over the estimated useful lives of the asset of 5 to 40 years.

Fair Value Measurements

The Organization defines fair value as the exchange price that would be received for an asset or paid for a liability in the principal or most advantageous market. The Organization applies fair value measurements to assets and liabilities that are required to be recorded at fair value under generally accepted accounting principles. Fair value measurement techniques maximize the use of observable inputs and minimize the use of unobservable inputs, and are categorized in a fair value hierarchy based on the transparency of inputs. The three levels are defined as follows:

- Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the same term of the financial instrument.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to Financial Statements

Year Ended June 30, 2020

Note 1 - Organization and Summary of Significant Accounting Policies, continued

Fair Value Measurements, continued

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

As a practical expedient, certain financial instruments may be valued using net asset value (NAV) per share. NAV is the amount of net assets attributable to each share of outstanding capital stock at the end of the period.

The carrying value of cash, receivables, and payables approximates fair value as of June 30, 2020, due to the relative short maturities of these instruments.

Warrior Cards

Warrior cards are prepaid spending accounts that students can use to make purchases on campus. Unused funds are recorded as a liability and expensed when used.

Functional Expense Allocations

The costs of providing program and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among services. Such allocations are determined by management on an equitable basis.

The expenses that are allocated include the following:

Expense	Method of allocation				
Depreciation	Allocated directly to program				
Insurance	Allocated based on percentage of overall expenditures				
Office supplies	Allocated based on usage				
OPEB	Allocated directly to Administration				
Other costs	Allocated based on usage				
Contractual and professional services	Allocated based on percentage of overall expenditures				
Printing	Allocated based on usage				
Repairs and maintenance	Allocated based on usage				
Travel	Allocated based on purpose of travel				
Telephone	Allocated based on usage				
Training	Allocated based on usage				

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes to Financial Statements

Year Ended June 30, 2020

Note 1 – Organization and Summary of Significant Accounting Policies, continued

Future Accounting Standards

The FASB has issued two substantial ASUs which will become effective in future years.

The amendments in ASU 2014-09 *Revenue from Contracts with Customers* and subsequent updates require that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Adoption of the new standard is to be applied on a full retrospective basis or modified retrospective basis. The new ASU was originally effective for fiscal years beginning after December 15, 2018 but the FASB has delayed the effective period to fiscal years beginning after December 15, 2020. The Organization is in the process of assessing how this ASU and subsequent updates will affect the Organization's reporting of revenues. This assessment includes determining the effect of the new standard on the Organization's financial statements, accounting systems, business processes, and internal controls. Based on its assessment to date, the Organization does not currently expect adoption to have a material effect on its revenues. Adoption of ASU 2014-09 will also require enhanced financial statement disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

In February 2016, the FASB issued ASU No. 2016-02 Leases. The primary change in US GAAP addressed by ASU 2016-02 is the requirement for a lessee to recognize on the statement of financial position a liability to make lease payments ("lease liability") and a right-of-use asset representing its right to use the underlying asset for the lease term. ASU 2016-02 also requires qualitative and quantitative disclosures to enable users of the financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases. ASU 2016-02 was originally effective for fiscal years beginning after December 15, 2019 but the FASB has delayed the effective period to fiscal years beginning after December 15, 2021. Lessees must apply a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The Organization is evaluating the effect that the provisions of ASU 2016-02 will have on its financial statements and related disclosures.

Subsequent Events

In December 2019, a novel strain of coronavirus (COVID-19) was reported in Wuhan, China. On March 11, 2020 the World Health Organization declared COVID-19 a global pandemic and recommended containment and mitigation measures worldwide. The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closing of businesses and shelter in place orders, including California, where the Organization operates. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of business closures, shelter-in-place orders, and the ultimate impact of the CARES Act and other governmental initiatives. It is at least reasonably possible that this matter will negatively impact the Organization. However, the financial impact and duration cannot be reasonably estimated at this time.

In August 2020, the Organization liquidated the entire balance of equities and fixed income investments and transferred the funds to the State Treasury's Local Agency Investment Fund (LAIF), consistent with a policy change implemented by the Board of Directors.

The Organization has evaluated subsequent events through September 18, 2020, which is the date the financial statements were available to be issued.

Note 2 - Concentrations

Major Customers

Substantially all accounts receivable at June 30, 2020 were derived from two customers. Approximately 78% of operating revenues were from two customers.

Notes to Financial Statements

Year Ended June 30, 2020

Note 3 - Liquidity and Availability

The Organization's financial assets available within one year of the financial position date for general expenditures are as follows:

Cash and cash equivalents Accounts receivable Accrued Interest receivable Due from related parties	\$	802,798 32,496 6,769 703,603
Total Financial Assets Available for General Operations		1,545,666
Less amounts not available to be used within one year: Restricted by the Board for facility maintenance and repairs	_	1,253,630
Financial assets available to meet cash needs for general expenditures within one year	\$_	292,036

As part of the Organization's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due. In addition, the organization invests cash in excess of daily requirement in short-term investments.

Note 4 - Cash and Cash Equivalents

The Organization maintains cash accounts at various financial institutions. The balances at times may exceed Federal Deposit Insurance Corporation (FDIC) limits. Accounts at each financial institution are insured by the FDIC up to \$250,000. In addition, the Organization has deposited cash in LAIF. Deposits in LAIF are guaranteed by the State of California.

Deposits with financial institutions Investments in LAIF	\$	645,617 157,181
Total cash and cash equivalents	\$ <u></u>	802,798

Investments in LAIF

As of June 30, 2020, there are investments in LAIF, which is a voluntary program created by statute as an alternative for California's local governments and special districts that allows them to participate in a major investment portfolio. It is under the administration of the California State Treasurer's Office. The investment is considered a cash equivalent as it is used to fund any operating deficit. Realized gains, losses and interest income are included in investment return in the statement of activities. The Organization's investments in LAIF are measured and reported at net asset value (NAV). The investments in LAIF have no unfunded commitments, no redemption frequency, and no redemption notice period as of June 30, 2020.

Notes to Financial Statements

Year Ended June 30, 2020

Note 5 - Investments

Investments consist of the following as of June 30, 2020:

<u>-</u>	Level 1		Level 2	 Level 3	 NAV	Total
Mutual funds Fixed income - domestic \$ Corporate bonds	643,309	\$	- 422,759	\$ - -	\$ - \$ 	643,309 422,759
\$ <u> </u>	643,309	\$	422,759	\$ -	\$ \$	1,066,068
Note 6 – Property and Equipm	ent					
Property and equipment consist	of the followin	ıg:				
Land Building Leasehold Improvements Equipment					\$	287,300 5,926,828 717,309 448,338

Note 7 – Capital Lease

Construction in Progress

Less accumulated depreciation

On October 1, 2007, the Organization entered into a 32-year lease agreement with the Board of Trustees of the California State University (the "Board") as lessee for financing the acquisition of the bookstore from the State of California. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, was previously recorded at the present value of its future minimum lease payments as of the inception date. The California State University System (the "CSU System") issued a System Revenue Bonds Series 2008A ("Series 2008A Bond") in relation to the capital lease.

In May 2020, the Organization sold the bookstore to the University Student Center of California State University, Stanislaus ("USC"), a related party, for a sales price approximating \$4,293,600. Under the sales agreement, the Organization received \$703,000 from the USC and it transferred to the USC the remaining payments of \$3,590,000 on the Series 2016A Bond payable to the California State University System (the "CSU System"). Therefore, at June 30, 2020, the Organization had no amounts outstanding in relation to the capital lease.

Note 8 – Long-Term Debt

On August 1, 2018, the Organization entered into a loan agreement with the Board of Trustees of the California State University. In conjunction with the issuance of the Systemwide Revenue Bonds Series 2018A, the Organization requested \$1,210,000 to refund and refinance previously issued bonds, which were used in the development and construction of the Residential Life Village II.

The loan bears interest at a rate of 5 percent per annum. Principal and unpaid interest will be due and payable on or before May 1 and November 1 in each year, through May 1, 2023. The bonds were issued at a premium in the amount of \$111,433, which is being amortized over the life of the bonds.

Year Ended June 30, 2020

Note 10 - Pension Plan

Plan Description

The Organization contributes to the California Public Employees' Retirement System (PERS), a cost-sharing multiple-employer public employee retirement system that acts as a common investment and administrative agent for participating entities within the State of California. The four auxiliary organizations at California State University, Stanislaus, contribute to PERS through the Organization. All direct full-time Organization employees are covered by the plan. Reimbursed employees are covered by CSU Stanislaus' plan.

Starting July 1, 2008, the Organization's full-time employees were paid by California State University, Stanislaus. The Organization has not participated in PERS since 2008.

The defined benefit plan uses the Entry Age Normal Actuarial Cost Method, which is a projected benefit cost method. According to this cost method, the normal cost for an employee is the level amount which would fund the projected benefit if it were paid annually from the date of employment until retirement. The auxiliaries fund the plan based upon a percentage of qualified payrolls. PERS also uses the level percentage of payroll method to amortize any unfunded actuarial liabilities.

Total contributions by the Organization during the year ended June 30, 2020 was \$156,345.

Funded Status:

Valuation date	June 30, 2018
Benefit obligation	\$ 5,325,200
Fair value of plan assets	\$ 3,670,989
Unfunded liability	\$ 1,654,211
Funded ratio	68.9%

Amounts recognized in the Statement of Financial Position:

Pension liability \$ 1,275,736

The significant actuarial assumptions used to calculate the above pension benefit obligation is as follows:

Investment Return (net of administrative expenses)	7.00%
Projected salary increases	0.40% - 8.5%
Inflation	2.50%
Overall payroll growth	2.75%

Actuarial information as of June 30, 2020 is currently not available.

PERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the PERS' annual financial report may be obtained from the CalPERS Headquarters Office, Lincoln Plaza North, 400 Q Street, Sacramento, California 95811. Information about benefits and contributions expected to be paid in each of the next five fiscal years and the five years thereafter have not been provided by PERS.

Notes to Financial Statements

Year Ended June 30, 2020

Note 11 - Post-Retirement Benefit Plan

The Organization provides lifetime postretirement medical coverage to employees (and their dependents) who retire at age 50 or older with at least five years of service with the Organization, the Associated Students Inc. of California State University, Stanislaus or the University Student Center of California State University, Stanislaus. The Organization pays a portion of the cost of the benefit, up to a predetermined maximum. Retirees are responsible for costs in excess of the maximum.

As of June 30, 2020, the Organization had two retired employees who were eligible to participate in the plan. The two retired employees covered under this plan were originally employees of the California State University, Stanislaus Foundation. During the year ended June 30, 2009, the Organization agreed to pay for the employees' post-retirement benefits because the Foundation had no discretionary funds to pay this obligation. The Organization made contributions to the plan of \$8,454 for the year ended June 30, 2020. The plan's obligations and funded status for the Organization are as follows:

Obligations and Funded Status at June 30, 2020		
Change in Benefit Obligation: Benefit obligation at beginning of year	\$	159,026
Interest cost	Φ	5,418
		•

Amonization of het dam		•
Amortization of net gain		(11,490)
Net periodic benefit cost	\$	•

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing costs between the employer and plan members to that point.

Notes to Financial Statements

Year Ended June 30, 2020

Note 11 - Post-Retirement Benefit Plan, continued

Actuarial Methods and Assumption

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the plan members to that point. The actuarial methods and assumption used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Assumptions

Weighted-average assumptions used to determine benefit obligations at June 30:

Discount rate	2.70%
Expected long-term return on plan assets	N/A
Rate of compensation increase	N/A
Health care cost trend rate assumed for next year	6.00%
Rate to which the cost trend rate is assumed to decline (the ultimate trend rate)	4.50%
Year that the rate reaches the ultimate trend rate	3 years

10 Deferred outflows/inflows of resources:

1. Deferred Outflows of Resources

Deferred outflows - unamortized loss on refunding(s)

Deferred outflows - net pension liability

Deferred outflows - net OPEB liability

Deferred outflows - others:

Sales/intra-entity transfers of future revenues

Gain/loss on sale leaseback

Loan origination fees and costs

Change in fair value of hedging derivative instrument

Irrevocable split-interest agreements

Total deferred outflows - others

Total deferred outflows of resources

2. Deferred Inflows of Resources

Deferred inflows - service concession arrangements

Deferred inflows - net pension liability

Deferred inflows - net OPEB liability

Deferred inflows - unamortized gain on debt refunding(s)

Deferred inflows - nonexchange transactions

Deferred inflows - others:

Sales/intra-entity transfers of future revenues

Gain/loss on sale leaseback

Loan origination fees and costs

Change in fair value of hedging derivative instrument

Irrevocable split-interest agreements

Total deferred inflows - others
