2018 Community
Services &
Member Directory

Introduction

The Turlock Community Collaborative (TCC) is a group of local nonprofit organizations, government agencies, businesses, and citizens who have joined together to try and find solutions to the issues that impact our community.

Since it was founded in 2002, the Collaborative has found ways to help the Turlock community and provide information and support to the wonderful non-profit agencies that are included in this directory. We thank the civic minded individuals who had the vision to begin the Collaborative, and we work to continue their dedication to making our community the best it can be. Since its inception, the TCC has broadened its scope to focus on the following issues: health and safety; economic development; education; and family, youth, and seniors. Within these three main foci, the TCC has tackled issues which have a significant impact on the community and has completed amazing projects that help some of Turlock's most vulnerable residents. Through several initiatives, such as the creation of a homeless shelter, Turlock Alternative Gangs Committee (TAG), a Family Resource Center being developed in Turlock, and other projects, the Collaborative has become the information center for local non-profits, government agencies, and local citizens.

This directory is intended to catalog the member organizations that serve the Turlock community. Those needing references for our citizens in need can easily obtain accurate information. Those interested in volunteering or supporting local Turlock non-profits may also find this directory helpful. This is the first edition of this directory and we hope that it grows and becomes a resource for the Turlock community.

This directory was created, written and compiled by Dr. Nancy Hudspeth and her dedicated students at California State University, Stanislaus with assistance from the Office of Service Learning.

The Turlock Community Collaborative dedicates this edition to these amazing students and faculty. By their efforts, we are confident that this next generation will chart the course to ensure that Turlock remains the heart of Stanislaus County.
