

Distance Education

Stuart Wooley

Katie Olivant

Mary Jo Stanley

What are distance education programs

- Can be online or hybrid delivery of the degree program
- Can be televised to sites away from the Turlock campus
- Can be stateside or UEE supported
- Programs in each college
- Taught by full-time and part-time faculty that teach both distance-ed and face-to-face courses
- Distance programs intentionally mirror the face-to-face versions of the programs

What are characteristics of distance education programs?

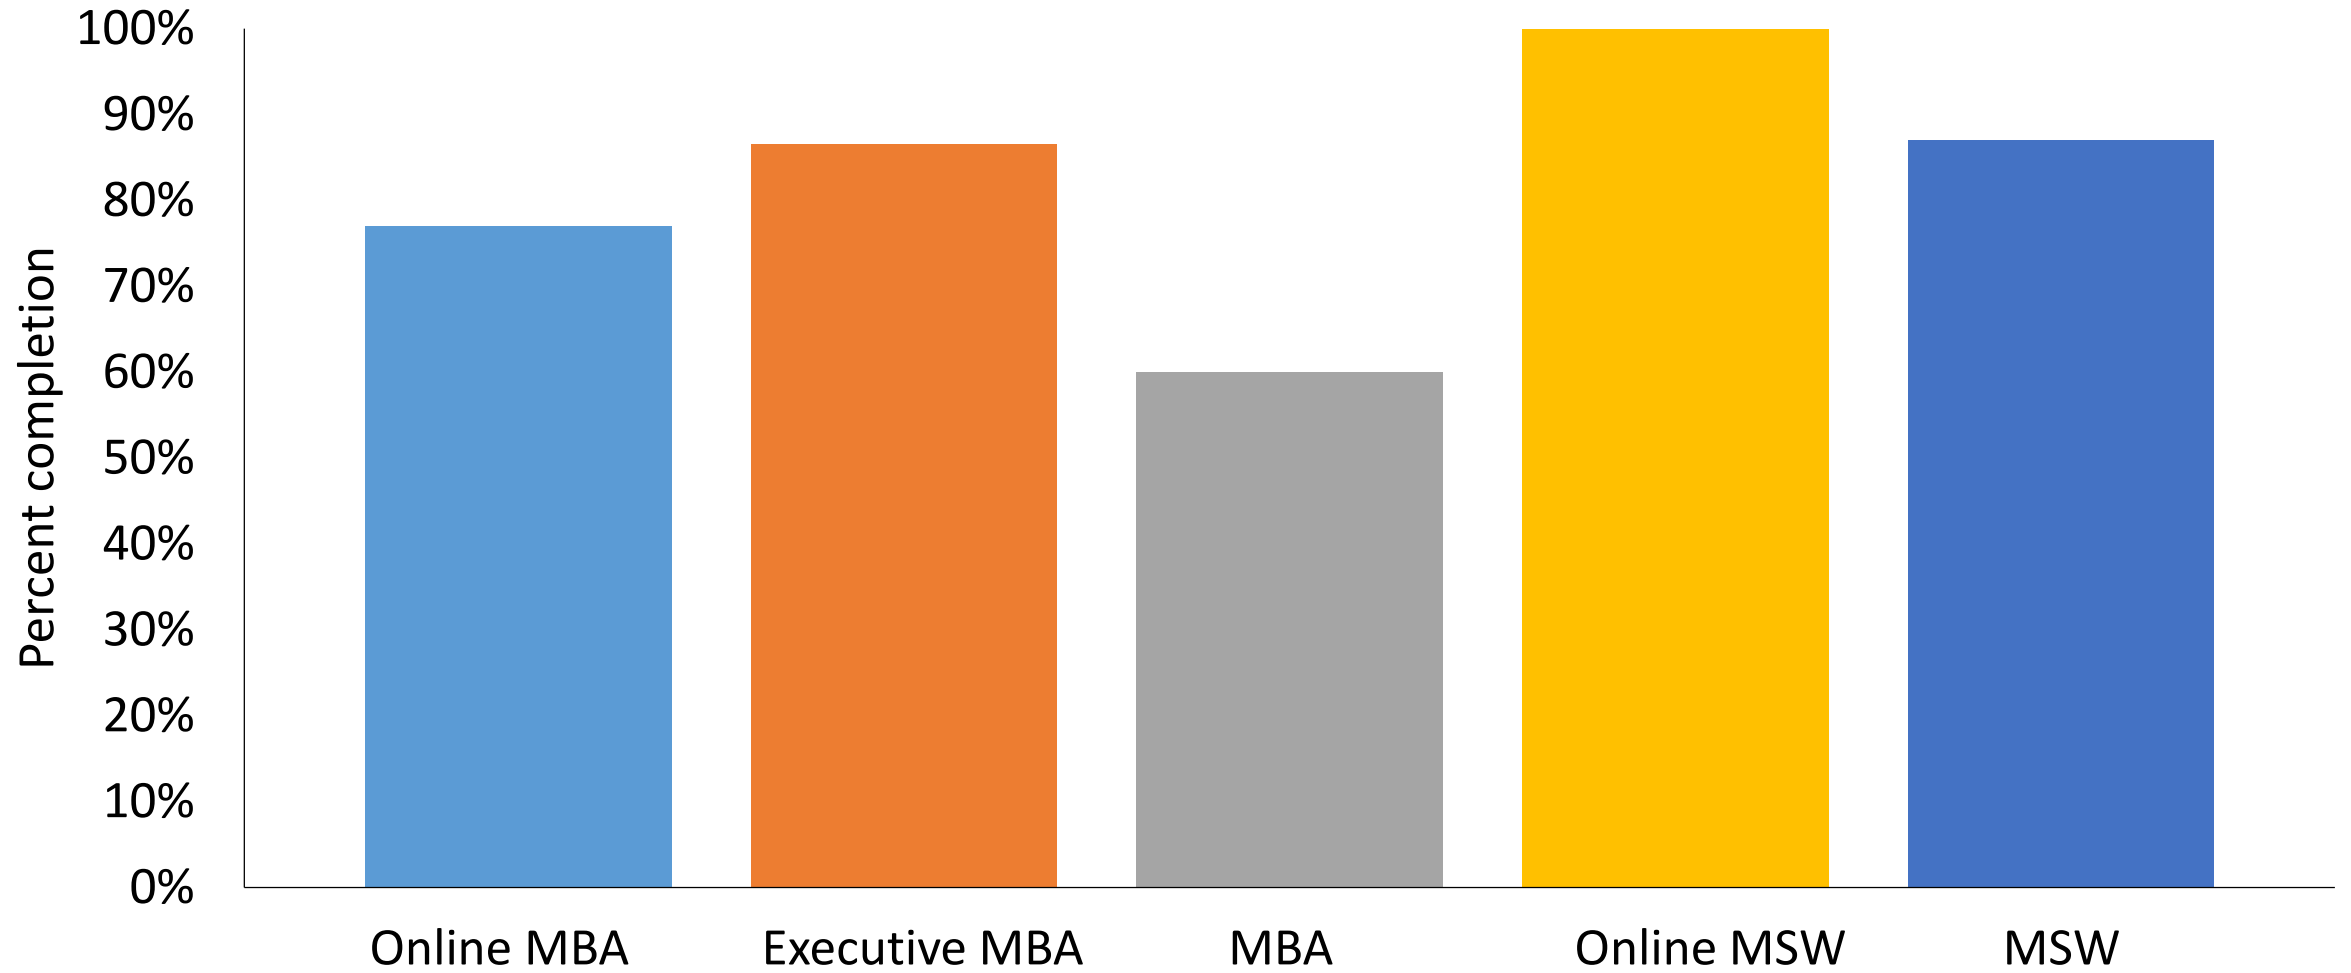

- Faculty in two fully-online programs are trained
 - Quality Matters; Online Learning Consortium certification training
- Programs are a designed by disciplinary faculty and approved similarly
- Some programs are accredited and area assessed similar to face-to-face
 - Evaluating student achievement of course objectives and learning outcomes
 - Results suggest that distance ed programs are becoming more “student-centered”

How well do students do in Distance Education?

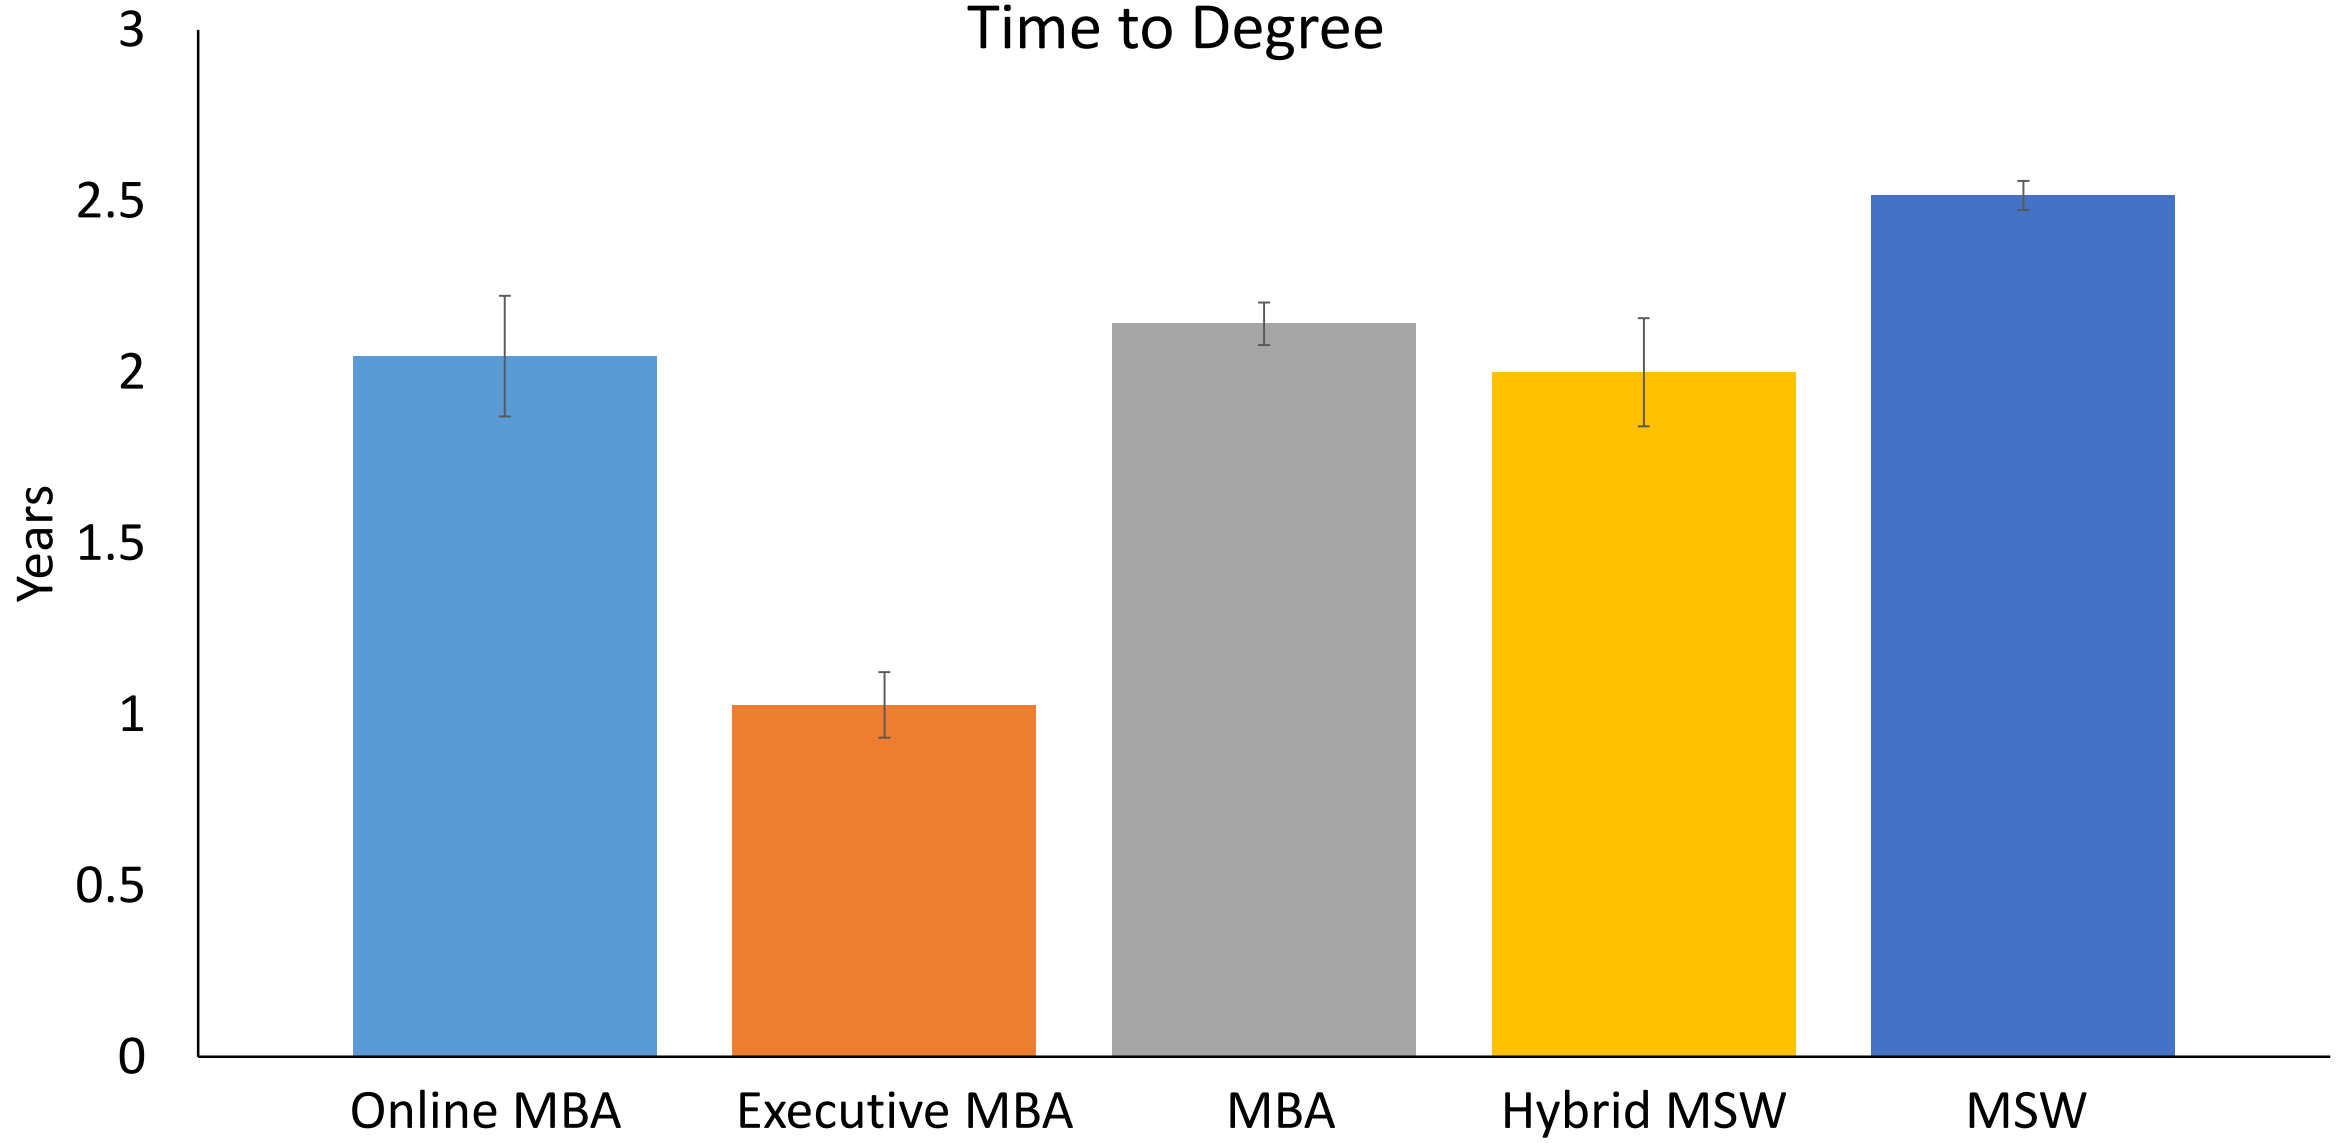

- Students do as well or better than students in face-to-face programs
 - Online programs are new and so only a few cohorts have reported
- Distance Education programs appear comparable to face-to-face programs
 - In terms of Retention, graduation rates, and final GPAs
- More than 80% of students that start distance education programs finish
