FBI Volunteer Internship Program Overview

Each summer, a special group of outstanding Undergraduate and Graduate students are selected to participate in the FBI Volunteer Internship Program. As an intern you will experience an exciting ‘insider’s view’ of FBI operations and have the opportunity to gain professional experience that is unique, valuable, and marketable.

Internship Qualifications

Those students who are selected to the Volunteer Internship Program must be:

- A U.S. citizen
- Attending an accredited college or university
- Classified as a Junior or Senior (a participant cannot be graduating before the program begins) attending a college or university; or a Graduate student enrolled in a college or university at least part-time
- Minimum cumulative grade point average (GPA) of 3.0 or above on a 4.0 scale, and in good standing with their academic institution
- Able to meet all FBI employment requirements as well as be able to pass an FBI Background Investigation and receive a Top Secret Security Clearance

Internship Experience

- Work side-by-side with Special Agents and Professional Staff personnel on important cases and management issues
- In this volunteer non-paid position, you may earn academic credit
- Obtain a Top Secret Security Clearance
- Summer internships are approximately 10 weeks, usually beginning early in June and ending in mid-August
- At the end of the summer students may be offered the opportunity to continue the internship throughout the school year at an office nearest their school
- 10-Week Unpaid Internship in local Field Offices in the Northeast, Southeast, North Central, South Central, Northwest, Southwest and the Washington, DC Metropolitan area

2013 Cyber Initiative: Due to the current critical needs of the Bureau, the Volunteer Internship Program is seeking, but not limited to, individuals who have Cyber related educational backgrounds. These individuals should be majoring in or possess degrees in: Computer Forensics, Computer Science, Information Security, Digital Investigation Management, Network & Communications Management, Computer Engineering, Software Engineering, Information Systems, and Information Technology.
