Job Description for Assistant Information Systems Analyst:

California Correctional Health Care Services was created to restore a constitutional level of health care for over 100,000 inmates in California's correctional facilities. It requires individuals with an exceptional dedication to their profession and their patients.

Requirements:

This is the entry and first journey level. Positions may be permanently allocated to this class when the major portion of tasks performed do not include the more responsible, varied, and difficult analytical assignments found in the full journey person level. Under supervision, incumbents perform work of average difficulty in analytical studies for the support, development, installation, implementation, or procurement of information technology systems, and teleprocessing networks and/or systems.

Experience applicable to one of the following patterns may be combined on a proportional basis with experience applicable to other patterns to meet the total experience requirement.

EITHER I

One year of experience in the California state service performing duties comparable to an Information Systems Technician (Range C), a Computer Operator (Range C), or a Programmer I (Range B).

OR II

One year of progressively responsible analytical experience in performing a variety of information technology systems analysis, design, development, installation, implementation, procurement, or technical support duties in connection with information technology systems, multifunction office automation systems, microcomputer systems, or teleprocessing networks, including independent analysis in one or more of these areas.

OR III

Completion of at least 60 semester or 90 quarter units at a recognized college or university, of which 12 semester or 18 quarter units are comprised of information technology-related coursework.

How to Apply:
