Interdisciplinary Programs

The programs described in this section are designed by California State University, Stanislaus to provide students with a unique course of study that incorporates traditional disciplines, as well as interdisciplinary and multidisciplinary perspectives. Whether through general education or a special baccalaureate major, these programs approach the pursuit of learning in creative and alternative ways. The interdisciplinary programs also are designed with a living-learning community element that fosters students' intellectual, personal, and professional growth.

First-Year Experience Program

Marjorie Jaasma, Ph.D., Director

Office: College of Humanities and Social Sciences
Vasché Library — L175
Phone: (209) 667-3531

The First-Year Experience (FYE) Program forms learning communities among interested students who take thematically related General Education classes and seminars together during their first semester. These learning communities, which have between 25 and 30 students in each, generate sustained interaction and foster bonds between students and faculty. Students are mentored by a peer leader — a successful CSU Stanislaus student who can help them adjust to campus. They also become better acquainted with campus resources and learn strategies to become successful students.

Research shows that students in the FYE program do better in class, make friends more easily, are more active on campus, and relate to faculty on a more personal level. In their assessment of the FYE program at CSU Stanislaus, students indicate that after the experience they want to return to this University for the next fall term; would recommend this University to a friend; view their college experience as a positive one; and are encouraged by the program to work together with other students.
The general education program is designed to ensure the following goals:

1. To provide students with a comprehensive overview of the disciplines' basic principles, methodologies, and perspectives.
2. To introduce students to the disciplines' subject matter.
3. To introduce students to cultural diversity as appropriate to the subject matter.
4. To demonstrate to students a discipline's interrelationships with other disciplines.
5. To require students to demonstrate clear communication and logical thinking skills.

Goals of the General Education Program

The purpose of general education is to provide a common educational experience for students, regardless of major field of study. The faculty are committed to ensuring that the general education program cultivates knowledge, skills, and values that are characteristic of a learned person.

The general education program is organized into five subject areas of communication skills, natural sciences and mathematics, humanities, social sciences, and individual resources for modern living. The general education program also includes required courses in history and government. The multicultural education requirement offers students course work which addresses multicultural, ethnic studies, gender, or nonwestern cultures issues.

The academic goals of the University specify that the University will guide students to attain mastery in the search for knowledge and to become critical thinkers who have attained effective levels of expressive and scientific literacy. Those who graduate will be versatile in their approach to problems and refined in their ability to frame and test intellectual arguments and hypotheses. They will have knowledge of the arts, history, and cultural identities of past and current societies. They will understand the value of being caring and humane citizens engaged by the challenges facing their evolving communities.

The University provides curricular and co-curricular activities to enhance global thinking and environmental awareness, and to cultivate respect for cultural diversity, both within and beyond the boundaries of its educational community.

The University collaborates with partners in its surrounding communities to provide "service learning" opportunities for enhancing the educational experiences and civic awareness of our students. (See Service Learning in the General Information section of this catalog.)

      GEOG 2410 World Regional Geography II: Africa, Australia, and Latin America, 3 units  
      NURS 1040 Human Development Over the Life Span, 3 units  
      PSYC 2010 Introduction to Psychology, 3 units  
   c. Individual Resources for Modern Living  
      (3 units minimum)  
      Note: Include one course from each group of courses:  
      1. BUS 1040 Seminar in First-Year Experience, 2 units  
         CIS 2000 Introduction to Computer Information Systems, 3 units  
         CS 2000 Effective Computing, 3 units  
      (Students may not use both CS 2000 and CS 4000 for GE requirements.)  
      2. PHED 1010–1999 Physical Education Activities, 1 unit  
      3. BUS 1040 Seminar in First-Year Experience, 2 units  
         CIS 2000 Introduction to Computer Information Systems, 3 units  
         CS 2000 Effective Computing, 3 units  
      (Students may not use both CS 2000 and CS 4000 for GE requirements.)  
      (Students age 25 years or older at time of entry into CSU Stanislaus will not be held to this requirement.)  

F. Upper-Division General Education Requirements  
   (9 units minimum)  
   Each student is to complete a minimum of 9 units of upper-division level GE coursework. These courses may be taken no earlier than the term in which upper-division status (completion of 60 semester units) is attained.  

Students will not be given upper-division General Education credit for coursework in the discipline(s) of their major or concentration. The distribution of the 9 units must include 3 units from each of the three following areas:  
1. Natural Science and Mathematics  
   a. Biology  
      BIOL 3000 Frontiers in Biology, 3 units  
      BIOL 3020 Introduction to Evolution, 3 units  
      BIOL 4050 Ecosystem Case Studies, 3 units

The Summit Program

Students have the option of joining the Summit Program as an alternative way to fulfill 6 of their 9 units of Upper-Division General Education requirements (area F in your catalog). Currently, students select one course from each of three areas: Math/Sciences, Humanities, and Social Sciences.

The Summit Program provides an exciting way to fulfill 6 of these 9 units by enrolling in a cluster of courses. To fulfill 6 of the 9 units, students select a cluster that includes two courses in one of the following combinations: one Math/Science course (F1) and one Humanities course (F2); or one Math/Science course (F1) and one Social Science course (F3); or one Humanities course (F2) and one Social Science course (F3). For the curricular area not covered by the 2-course cluster, students will select an Upper Division General Education course from the traditional menu (F1, F2, or F3).

These are the features of the Summit Program:

- Each cluster includes 2 courses that have been linked on an engaging topic. Faculty members will integrate the courses so that what students learn in one course will become the foundation to the learning in the next course.
- Students will take the courses in the cluster with the same classmates. This will give them the chance to get to know each other and interact easily with each other in class discussions and group projects.
- The faculty members in the cluster may be interacting with students over both of the courses. Students will be able to develop a personal relationship with them—they will know students by name.
- Enrolling in the Summit Program can begin in the term in which a student attains upper-division status (completion of 60 semester units).
- Any student may enroll in any cluster, regardless of his/her major, and have the cluster fulfill the Upper Division GE requirements.
- Students must successfully complete all courses in the cluster to have these courses fulfill 6 of the 9 units of Upper-Division GE requirements.
- By completing the Summit Program, students also fulfill their multicultural requirement (Area G in your catalog). One course in each cluster has been designated as a Multicultural course.

To enroll in the Summit Program, students select a cluster. If the first course in the cluster is offered in Fall semester, they should enroll in that course via Web Registration. They will be enrolled in the remaining course in the cluster by the program coordinator. If the first course in a cluster is offered during Winter term, students should enroll in that course via Web Registration and also enroll in the Spring term course via Web Registration. During the first class meeting of the cluster, students will complete a learning contract that summarizes information about the program.

Select from the following 4 clusters:

**Cluster 1  War & Peace (fulfills Areas F1 and F2)**

These classes will examine issues of global conflict in the post WWII era, focusing on the Cold War, the Vietnam War, and the Gulf War through film, literature, and technology.

Fall 2007: PHYS 3550, Physics for War, Physics for Peace, 3 units
Winter 2008: ENGL 3550, Years of War, Days of Peace: Post-1945 Literature and Film,* 3 units

**Cluster 2  Waking Up to Nature: Ethics, Ecology, and Restoration Practices (fulfills Areas F2 and F3)**

Can you live without frogs or spotted owls? Why care about the environment? Wondering what’s happening to your environment and what you can do about it? Wrestle with environmental issues from around the world and close to home. Make a real contribution to our understanding of this Central California environment.

Fall 2007: PHIL 4050, Environmental Ethics, 3 units
Spring 2008: GEOG 4050, Restorative Human Ecology,* 3 units

**Cluster 3  The Real World: A Theatrical Work in Progress (fulfills Areas F2 and F3)**

This theme will bring together 3 diverse topics in an entertaining and educational way. The focus will be on real world application of accounting and chemistry, leading up to the creation of an original theatrical script.

Fall 2007: ACCT 3170, Real World Accounting, 3 units
Spring 2008: THEA 3170, Real World Theatre: Comic Improvisation,* 3 units

**Cluster 4  Humans in the Information Age (fulfills Areas F2 and F3)**

Why do we seek the kinds of information we seek? What is the meaning of that information? In this cluster, we will examine questions like these about information and meaning, such as what information we value and how we act on our choices.
Co-curricular experiences and field trip excursions help to expand the scope of learning beyond the classroom.

Honors students participate in a well-focused academic learning community. We emphasize multi-disciplinary and interdisciplinary study of relevant social topics. Our goal is to promote intellectual curiosity and a personal engagement with learning. To this end, we focus on a broad spectrum of research and emphasize a rich variety of methods for investigating, analyzing, synthesizing, and communicating information.

There is considerable scholarship support for students in the program.

Honors Program Curriculum
(4-Year Curriculum: 40 units; Transfer Curriculum: 20 units)

First-Year Experience (13 units):

Fall I:
HONS 1010 Reading Seminar in the Humanities, 3 units (G.E. area C2)
ENGL 1005 Honors Composition, 3 units (G.E. area A2)

Winter I:
HONS 1020 Mathematical Connections, 1 unit

Spring I:
PHIL 2005 Honors Critical Thinking, 3 units (G.E. area A3)
COMM 2005 Honors Communication Seminar, 3 units (G.E. area A1)

Sophomore Experience (7 units):

Fall II:
HONS 2990 Sophomore Seminar: Human and Social Institutions, 3 units

Spring II:
HONS 2010 Reading Seminar in the Social Sciences, 3 units (G.E. area D2b)
HONS 2850 Honors Service Learning Project, 1 unit

Junior Experience: Interdisciplinary Research (12 units):

III:
HONS 3000 Intellectual Methods in Humanities, 3 units (G.E. area F2)
HONS 3050 Methods of Discovery, 3 units (G.E. area F3)
HONS 3100 Methods of Inquiry in Sciences, 3 units (G.E. F1)
HONS 3500 Information/Research/Analysis, 3 units (G.E. area E1)

Senior Capstone Research and Analysis (8 units):

Fall IV:
HONS 4200 Senior Colloquium, 1 unit, and
HONS 4990 Honors Thesis*, 1-3 units, or
HONS 4995 Capstone Project*, 1-3 units, or
Discipline-based Honors Senior Thesis*

Winter III:
HONS 4990 Honors Thesis*, 1-3 units, or
HONS 4995 Capstone Project*, 1-3 units, or
Discipline-based Honors Senior Thesis*

The Honors Program brings together a community of faculty and students to study and discuss issues and topics of current interest. Honors students work closely with one another and develop close ties with their faculty mentors. Our program offers an engaging learning environment for students desiring to engage academic studies with vitality, discipline, critical perspective, and intellectual curiosity.

The program is open to students from all majors. We admit cohorts of freshmen and juniors, and accept sophomore and mid-year applicants on a space-available basis. There are specific course requirements in each year of the program.

The Honors Program “First Year Experience” curriculum emphasizes humanistic inquiry and helps students develop and refine their skills for intellectual reading, writing, thinking, discussion, and research.

In the sophomore year, Honors students focus their studies on social issues and institutions. This stage of the program emphasizes team-based research, and integrates a well-focused service learning experience.

In the junior year, students explore diverse investigative methods, gain facility with a broad array of research tools (including information resources, research protocols, and methods for conducting research across disciplines) and contribute to a team-based analysis of complex problems. Juniors also identify a faculty mentor to sponsor and guide their Capstone research project.

In the senior year, students conduct research or creative work under the guidance of their faculty mentor. The faculty mentor helps develop a creative and compelling research proposal, helps guide the research project, and provides feedback on the emerging thesis or project. Students meet in seminars throughout the year to discuss the focus and results of their research and to develop and critique their presentations for the annual Honors Research Conference.

Students complete the Honors Thesis or Capstone Project by mid-spring and translate this into a journal publication and a public presentation for the Honors Conference in May.
Course Descriptions

HONS 1010 Reading Seminar in the Humanities (3 units)
(Formerly Directed Reading Seminar) Emphasizes careful reading and analysis of interdisciplinary writings. Discussion-oriented seminars focus on intellectual practices relevant to humanistic inquiry. Emphasis on developing abstract imagination, reflective analysis, and techniques of critical reading. Satisfies lower-division G.E. requirement in the Humanities (area C2).

HONS 1020 Mathematics Connections (1 unit)

HONS 1960 Honors Colloquium: Issues and Advocacy (1 unit)
A series of interactive discussions with faculty and guest speakers from different disciplines. Emphasis is on discussing significant social problems or issues from a broad range of intellectual perspectives.

HONS 2010 Reading Seminar in the Social Sciences (3 units)
Emphasizes careful reading and analysis of interdisciplinary readings in the human and social sciences. Discussion-oriented seminars focus on methods and practices relevant to social inquiry, including human behavior, social institutions, and cultural history and analysis. Satisfies G.E. area D2b.

HONS 2050 Honors Service Learning Project (1 unit)
(Formerly Service Learning Practicum) Community service internship or research project reflecting community interests or having application to social problems. Reflective analysis of the value of experiential learning for evaluating practical applications of theory and knowledge.

HONS 2850 Honors Service Learning Project (1 unit)
(Formerly Service Learning Practicum) Community service internship or research project reflecting community interests or having application to social problems. Reflective analysis of the value of experiential learning for evaluating practical applications of theory and knowledge.

HONS 2890 Sophomore Seminar: Human and Social Institutions (3 units)
Emphasizes careful reading and analysis of interdisciplinary writings. Discussion-oriented seminars focus on methods and practices relevant to the study of human and social institutions. Satisfies lower-division G.E. requirement in area D2a.

HONS 3000 Intellectual Methods in the Humanities (3 units)

HONS 3050 Methods of Discovery (3 units)
Students will explore and apply a variety of investigative methodologies. Emphasis on the application of advanced reading, thinking, and writing skills to a team-based study of complex problems. One of two paired courses in the G.E. Summit Program. Satisfies G.E. areas F3 and G.

HONS 3100 Methods of Inquiry in the Sciences (3 units)
Students will explore and apply a variety of investigative methodologies drawn from the natural sciences. Emphasis on making connections across disciplines and applying skills of scientific research to personal and team-based studies of complex problems. Satisfies G.E. area F1.

HONS 3500 Information/Research/Analysis (3 units)
(Formerly HONS 2500) Application-based introduction to information resources, with attention to issues of access and evaluation. Emphasis on learning how to conduct efficient and effective information searches and acquiring knowledge of basic research protocols. Includes independent research/discussions with research mentor leading to a provisional research proposal for Honors Thesis or Capstone Project. Satisfies G.E. area E1. (Spring of junior year.)

HONS 3850 Directed Research Practicum (1 unit)
Typically comprises research contributing to design and implementation of a senior thesis or capstone project, performed under close faculty mentorship. Requires consent of faculty research mentor. May be repeated once for credit with a different research proposal and consent of faculty research mentor.

HONS 3990 Capstone Research Proposal (1 unit)
Independent research and discussions with research mentor leading to an approved research proposal for thesis or capstone project. Emphasis on framing a creative approach to research topic using congruent methods from different disciplines. Requires concurrent enrollment in HONS 3050. (Spring of junior year)

HONS 4200 Senior Colloquium (1 unit)
Students meet to discuss one another’s capstone research proposals and to critique work in progress. Prerequisite: Approved Honors capstone research proposal for a Senior Thesis or Capstone Project. (Fall of senior year)

HONS 4960 Honors Presentation Seminar (1 unit)
(Formerly Presentation Seminar and Senior Conference) Students present and review Honors projects in a seminar and conference setting. Emphasis on developing the aptitude for making effective presentations, together with practice in providing constructive feedback, engaging in collaborative peer editing, and framing and responding to thoughtful questions from your audience. (Spring of Senior year)
HONS 4980 Individual Study (1-4 units)
For students capable of independent work and in need of advanced or specialized study. May be repeated for a total of six units. Prerequisite: Consent of instructor and Honors Program Director.

HONS 4990 Honors Thesis (1-3 units)
(Formerly Senior Thesis) Creative analysis of a significant theme or issue, incorporating primary sources of information, and applying interdisciplinary forms of experimental inquiry and intellectual analysis. Project must reflect a sound application of research methods, analytical frameworks or performance criteria from two or more disciplines. May be repeated for a total of 6 units. Prerequisite: Senior standing in University Honors Program.

HONS 4995 Honors Capstone Project (1-3 units)
(Formerly Senior Capstone Project and Honors Research) Creative project involving multidisciplinary research and analytical reflection on a significant theme or issue. Capstone project must incorporate original studies, experiments or creative endeavors, and must involve sound application of research methods, analytical frameworks or performance criteria from two or more disciplines. May be repeated for up to 6 units.

Multidisciplinary Studies
Office: Vasché Library — L165
Phone: (209) 667-3254

The University offers multidisciplinary courses outside the departmental and school structure. These courses are given the MDIS prefix.

Course Descriptions

Lower Division

MDIS 1000 First-Year Experience (3 units)
A student-centered course that introduces college-level modes of discussion, analysis, argument, and orderly presentation. The course content is based on contemporary issues and values, including the values and directions to be discovered in a university education. Students are offered the opportunity to translate their personal values into effective career and life choices. (Fall, Spring)

MDIS 1040 Seminar in First-Year Experience (2 units)
(Same as BUS 1040) Introductory seminar explores relationships between two linked academic courses; supports academic adjustment and skill enhancement; and connects students with faculty, peer advisors, and campus resources and services. Students will have the opportunity to reflect on course content individually and in groups, and define their learning goals. Satisfies G.E. area E1. Corequisites: Identified linked academic courses.

MDIS 2500 Leadership Development (3 units)
Explores leadership theories and their applications in organizations, especially within a university context. Emphasis on skill-building through interactive learning and a service learning project. (Fall, Spring)

MDIS 2950 Selected Topics in Multidisciplinary Studies (1-5 units)
(Topics to be specified in class schedule) Development of a selected topic in multidisciplinary study. Topics vary each term. Different topics may be taken for credit. Prerequisite: Consent of instructor.

Upper Division

MDIS 3010 Seminar in Community Learning (1 unit)
A discussion seminar for students doing community service projects. Requires students from various disciplines to exchange ideas with each other and participating faculty as they assess the effectiveness of their service learning efforts.

MDIS 3400 Latin-American Cultures (3 units)
A survey of Latin-American cultures, to include ethnic heritage, rural and urban lifestyles, major institutions, social classes, family life, views on reality, values, and contemporary issues. Taught in English. Satisfies G.E. area G.

MDIS 4910 Cooperative Education (2-4 units)
Provides an opportunity to acquire relevant, practical experience in supervised, paid employment in a particular multidisciplinary program. Students are placed in private or public sector positions under the supervision of the employer and the departmental Cooperative Education Coordinator. May be repeated for a total of 8 units, depending upon program policy. Prerequisites: Sophomore standing; consent of departmental Co-op coordinator. (Fall, Winter, Spring)

MDIS 4930 Peer Advising (2 units)
Explores principles for effectively communicating with individuals from diverse backgrounds in a group setting. Sociological analysis of transition and adaptation styles are included. Participant observation is employed as students impart information and become active listeners in the academic setting. Corequisite: MDIS 4933. Prerequisite: Consent of instructor. (Lecture, 1 hour; activity, 2 hours)

MDIS 4935 Peer Advising Internship (2 units)
Provides an opportunity to acquire supervised, practical experience as a peer adviser in the university setting. Attendance at regularly scheduled meetings and a written journal are required. May be repeated for credit. Prerequisite: Consent of instructor.

MDIS 4950 Selected Topics in Multidisciplinary Studies (1-5 units)
(Topics to be specified in Class Schedule) Development of a selected topic in multidisciplinary study. Topics vary each term. Different topics may be taken for credit. Prerequisite: Consent of instructor.
**MDIS 4980 Individual Study (1-4 units)**
For undergraduate students prepared for independent study designed to supplement regular course offerings. May be repeated for a total of 6 units. Prerequisite: Consent of instructor.

**Special Major**

Strongly motivated students may design a special BA/BS interdisciplinary academic program leading to a degree not offered through existing programs. Students interested in a Special Major should seek a volunteer faculty advisory committee consisting of three professors from at least two disciplines. A program designed jointly with this faculty committee is then submitted for approval on a Request for Special Major Program form.

A Special Major program must comply with the standard graduation requirements listed under Baccalaureate Degree Requirements. The program must consist of at least 30 upper-division semester units in the major, of which 18 upper-division semester units must be completed after approval of the BA/BS Special Major by the Special Major Coordinator. Each college dean is responsible for supporting the Special Major program as the Special Major Coordinator. The student will be assigned to the college that houses the department of the lead faculty member.
