

## **Class Rosters**

Once registration begins, student enrollment in course sections may be viewed and/or downloaded by faculty via their Faculty Center on My CSUStan. Class Rosters are complete and accurate as of 12:01am on the first day of the term. Instructors should ensure that all students in their course are registered in the class, and should provide a permission number to Students requesting to add the course. All non-registered and waitlisted students are not officially registered in the course, and should not be allowed to remain in the course.
