III. Information

   A. Reaccreditation Process Update (Peters) – Attachment #0708-1. In Spring 2008, the University will complete the second phase of the reaccreditation process and prepare for a site visit October 1-3, 2008. The campus will then begin the third and final phase, the Educational Effectiveness Review, of the reaccreditation process. The Inquiry Circles have examined four themes: Engaging a Diverse Student Population in Learning, Infrastructure Support for Learning, Teaching and Learning, and Research, Scholarship, and Creative Activity. The first Capacity and Preparatory Review self-study working draft has been created. The committee is anxious to receive feedback from the campus community. There are areas where additional data and examples are needed. Those interested in providing feedback should contact the Inquiry Circle Chair or Steve Stryker. A second draft will be distributed to the campus in January 2008. After feedback is received, a third draft will be completed by mid-March for final print and submission to WASC.

   C. Thesis Review Form (Bengston) – Attachment #0708-10. The Final Thesis/Project Clearance Process and Thesis Review Information form were reviewed. The Final Clearance Process has been modified to reflect the following changes:
1. Reformat to make more room for instructions
2. Removed requirement to submit a signed Certification of Approval page with review copy
3. Added requirement to complete Thesis Review Information form and obtain department/program approval prior to submitting review copy
4. Added requirement to return marked-up review copy to Library with bindery-ready copy

The suggested changes will help implement current practice regarding approval page signatures; require department or program review prior to submission; and allow the library to track whether reader suggestions have been made.

The Council discussed whether it was necessary to continue signing the Certification of Approval pages in black ink. It was decided that either black or blue ink would be acceptable.

A motion to approve the Thesis Review form in place of the Certification of Approval page, was made by Chet Jensen, and seconded by Kurt Baker. The motion carried.

A motion to approve the return of both the reader review copy to Library along with bindery-ready copies was made by Kurt Baker, and seconded by Bret Carroll. One member opposed. The motion passed.

B. 7005 Continuing Thesis/Project Waiver (Graham) –Attachment #0708-6. For the 7005 Continuous Enrollment Policy implementation, it was suggested that a leave of absence policy be established for those students whose faculty committee is unavailable and the student is not using university resources, or collecting data during specific times of the year. The Council discussed the period of time in which this waiver would be effective. It was agreed that a length of time would not be specified. However, the document will be revised to include language regarding the use of University services, and the seven-year limitation for program completion. A motion to approve the 7005 Continuing Thesis/Project Waiver with language modification was made by Chet Jensen, and seconded by Bret Carroll. The motion carried.
