

# California State University Stanislaus

Fact Book 2005-2006

### Welcome to California State University, Stanislaus

### Dear Colleagues:

I am pleased to see the publication of the California State University, Stanislaus 2005-2006 Fact Book. The information provided in these pages represents an important collaborative effort drawing upon the time and talents of a wide range of University faculty and personnel.

The data in the Fact Book is intended to provide a comprehensive overview of the progress and many strengths of CSU Stanislaus as it exists at this point in time. However, this snapshot in time only begins to tell the story of the transformation the University is undertaking. What this book cannot chart is the hard work and commitment of so many which has resulted in fundamental changes to our infrastructure and our ways of doing business.

The CSU Stanislaus community has accomplished what some thought insurmountable in the last year. We met the challenges in progressive and innovative ways and with an energy toward building our future. Our work was rewarded in part by being endorsed at the highest level by WASC.

We look forward to further transformations and improvements in the coming years including embracing e-learning opportunities, increasing our outreach efforts and building on our "town and gown" relationship with the community.

The University is in continuing evolution but we remain steadfastly committed to our core principles—providing outstanding educational, cultural and other services to our students and our community. We are about meeting the needs of our constituents and I am happy to report that over the past year we have done so in wonderful and innovative ways. I look forward with exhilaration to the next year of challenges.

Regards,

Hamid Shirvani President

### Mission

The faculty, staff, administrators, and students of California State University, Stanislaus are committed to creating a learning environment that encourages all members of the campus community to expand their intellectual, creative, and social horizons. We challenge one another to realize our potential, to appreciate and contribute to the enrichment of our diverse community, and to develop a passion for lifelong learning. To facilitate this mission, we promote academic excellence in the teaching and scholarly activities of our faculty, encourage personalized student learning, foster interactions and partnerships with our surrounding communities, and provide opportunities for the intellectual, cultural, and artistic enrichment of the region.

### Vision

CSU Stanislaus strives to become a major center of learning, intellectual pursuit, artistic excellence, and cultural engagement for California's greater Central Valley and beyond. We will serve our diverse student body, communities, and state by creating programs, partnerships, and leaders that respond effectively to an evolving and interconnected world.

### Core Values

### To achieve our mission and vision:

- We inspire all members of the campus community to demand more of self than we do of
  others, to attain new knowledge, and challenge assumptions. We challenge one another to be
  fully engaged, responsible citizens with the ethics, knowledge, skills, and desire to improve
  self and community.
- We value learning that encompasses lifelong exploration and discovery through intellectual integrity, personal responsibility, and global and self-awareness, grounded in individual student-faculty interactions.
- We are a student-centered community committed to a diverse, caring, learning-focused environment that fosters collegial, reflective, and an open exchange of ideas.
- We, as students, create the collegiate experience through initiative, participation, motivation, and continual growth to meet the demands of self and others.
- We, as faculty, elicit, nurture, and enhance the different voices of our selves, students, and communities through deliberate engagement, continual discovery, and ongoing transformation.
- We, as staff and administrators, contribute to the learning environment by demonstrating the knowledge, skills, and values that serve and support the University's mission.

### History

The State Legislature established what was then known as Stanislaus State College in 1957. The first classes opened in September of 1960 at the Stanislaus County Fairgrounds. The college moved to its permanent campus in 1965 and was awarded university status and renamed California State University, Stanislaus in 1985.

The University opened the Stockton Development Center in the State of California Building in 1974 and then relocated to the campus of San Joaquin Delta College in 1981. In fall of 1998, the Center, renamed the Stockton Center, moved to its permanent site on Magnolia Street in midtown Stockton, a location known as University Park.

### Accreditation

CSU Stanislaus received its first accreditation in 1964 and a regional 10-year accreditation in 1999 from the Western Association of Schools and Colleges (WASC). The following programs are accredited:

### College of the Arts

- Art National Association of Schools of Art and Design (NASAD)
- Music National Association of Schools of Music (NASM)
- Theatre National Association of Schools of Theatre (NAST)

### College of Business Administration

 AACSB International — The Association to Advance Collegiate Schools of Business (AACSB)

### **College of Education**

- California Commission on Teacher Credentialing (CCTC)
- National Council for Accreditation of Teacher Education (NCATE)

### College of Human and Health Services

- Nursing Commission on Collegiate Nursing Education (CCNE)
- Psychology Association for Behavior Analysis (ABA)
- Social Work Council on Social Work Education (CSWE)

### College of Humanities and Social Sciences

 Public Administration — National Association of Schools of Public Affairs and Administration (NASPAA)

### College of Natural Sciences

• Chemistry — American Chemical Society (ACS)

### Academic Programs

The University grants the Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, and Bachelor of Science degrees, and offers 40 undergraduate degree programs and 16 minor programs. A pre-professional law program is offered, as well as a pre-health professional program for students interested in medicine, dentistry, pharmacy, veterinary medicine, optometry, chiropractics, physical therapy, clinical laboratory science, or podiatry. The University offers 19 graduate degree programs and 7 credential programs.

### Faculty

Forty-seven percent of full-time faculty are tenured or tenure-track. Seventy-seven percent of tenured or tenure-track full-time faculty hold a doctorate or other terminal degree in their fields. There were 285 full-time faculty and 210 part-time faculty in fall 2005.

### Students

The student body of 8,137 includes approximately 80% undergraduate and 20% graduate students (fall 2005). The average class size in fall 2005 was 24.4 students. The student/faculty ratio is 18:1.

### Student Life

The University offers co-curricular programs that enhance critical thinking, provide for lifelong learning, support opportunities for interaction between the campus and community, and foster educational growth through personal development. An enhanced quality of campus life is realized through such programs as health education, student government, leadership development, academic floors in housing, programming boards, clubs and organizations, and recreation/wellness programs.

The Associated Students, Inc., (ASI) is the student government of the University. As the official voice of the students, its mission is to serve the students of CSU Stanislaus in all matters pertaining to the quality of their education. ASI sponsors numerous programs, including a popular Recreational Sports Program that offers intramural sports, and organized activities such as basketball, soccer, aerobics, swimming, volleyball, yoga, football, and softball. The University Student Union, a student-funded auxiliary, is the hub of campus life. The Union sponsors concerts, lectures, theatre trips, "Feed the Students Day," recreation tournaments, exhibits, outdoor and indoor adventure programs, comedy nights, and other special events throughout the year.

Student leadership is an important feature of CSU Stanislaus, and the University supports an active leadership development program. Through participation in clubs and organizations, fraternities, sororities, leadership seminars, and mentoring activities, students learn the skills to be leaders on campus and after they graduate.

### Service Learning

Service learning is a teaching method that promotes student learning through active participation in meaningful and planned service experiences in the community that are directly related to course content. Through reflective activities, students enhance their understanding of course content, general knowledge, sense of responsibility, self-awareness, and commitment to the community. CSU Stanislaus promotes service learning as a valued part of a student's education that deepens the academic experience and expands social awareness. Launched in 2000, the Office of Service Learning has made remarkable progress in supporting the faculty's development of service learning opportunities. As a result, more than 500 students have participated in service learning courses to date.

### **Athletics**

The University fields 14 intercollegiate men's and women's sports teams in the California Collegiate Athletic Association and is affiliated with the National Collegiate Athletics Association (NCAA) Division II.

### Academic Calendar

California State University, Stanislaus was the first public, four-year university in California to adopt a 4-1-4 academic calendar, consisting of two 13-week semesters and a month-long winter term required for graduation. A typical student load is four courses in the fall, one course during winter term, and four courses in the spring—hence "four-one-four." The structure of the 4-1-4 year provides greater opportunities for an innovative and challenging curriculum.

Now in its 30th year, winter term provides a unique opportunity for intensive pursuit of a single subject. This concentration of time, resources, and energy constitutes a new intellectual experience for most undergraduates. Furthermore, CSU Stanislaus winter term policy facilitates interdisciplinary teaching and learning, invites off-campus fieldwork and research, allows students to propose courses or projects, and provides foreign travel/study courses. The University also offers a state-supported summer term, consisting of a 6-week session and a 4-week session.

### Reputation

The University is among the Top 100 colleges for bachelor's degrees awarded to Hispanic students and is designated as a Hispanic-Serving Institution by the U.S. Department of Education. The American Association of State Colleges and Universities recognized CSU Stanislaus as one of 12 public universities nationwide that demonstrate exceptional performance in graduation rates. CSU Stanislaus was the only university in the west to be recognized.

### The Library

The University Library provides major educational, cultural, and information services to the University and the community. The Library's mission is to provide a welcoming learning environment that encourages and supports students, to facilitate excellence in teaching and scholarship, and to enrich the intellectual, cultural, and artistic development of a diverse campus and community. As the information center for the University, the Library provides an organized collection responsive to the University's curriculum and serves as the gateway to global information. The Library plays an essential role in teaching students the critical thinking skills necessary for life-long learning in a rapidly changing world. The collections of the University Library comprise over 360,000 volumes, 2,000 periodical subscriptions, 1.3 million microforms, 4,700 audiovisual materials, access to over 100 electronic databases and a growing number of electronic journals, video recordings, compact discs, and e-books. Since 1965 the Library has been a depository of federal, state, and local documents. Other special collections include the University Archives, Sayad Assyrian Book Collection, the Dias Photographic Collection, the Stanislaus County and Cities History Collection, and the Juvenile Collection, which has 6,000 volumes of award-winning and notable titles in children's literature.

### Colleges

### College of the Arts

The College of the Arts endeavors to provide high quality, comprehensive arts education for the students of the University community, and to supply a rich cultural offering to the wider regional community. Consisting of the departments of Art, Music, and Theatre, the College's programs are accredited by the National Association of Schools of Art and Design, the National Association of Schools of Theatre.

The College offers a broad range of bachelor's degrees in arts fields that train students for careers in performance, education, and in the production of fine art. Through its curriculum, the College seeks to create a learning environment characterized by outstanding instruction in a wide variety of time-honored arts fields while embracing the application of emerging technologies to prepare its graduates to creatively further art traditions in many contexts.

### **College of Business Administration**

The College of Business Administration's mission is to deliver a professional business education that offers students the knowledge and skills to succeed in careers and in society. It is fully accredited by AACSB International, The Association to Advance Collegiate Schools of Business. AACSB International accreditation represents the highest standard of achievement for business schools worldwide.

It is the vision of the College of Business Administration to be recognized by its stakeholders for preparing self-confident, competent graduates able to perform effectively in a changing environment. These graduates have the skills and abilities to understand and adapt to the forces of change that characterize an organization's external and internal environments and how they interrelate; to formulate, evaluate, and select from among alternative strategies, those courses of action that are responsive to these forces of change; and to initiate change and to marshal resources to convert opportunities into reality.

### College of Education

The College of Education has as its mission the professional preparation of teachers and school service professionals. Faculty are committed to meeting the public's rightful expectation of an education that produces effective and dedicated educators who exhibit competence, reflection, and a professional passion manifested in their advocacy for children and their communities. The College offers initial and advanced credential and certificate programs. At the graduate level, the Master of Arts in Education is designed for educators pursuing advanced study in curriculum and instruction, administration, counseling, special education, educational technology, or physical education. Students may pursue an advanced credential in conjunction with a master's degree.

The programs of the College of Education have achieved national distinction through accreditation by the National Council for Accreditation of Teacher Education (NCATE), at the regional level by the Western Association of Schools and Colleges (WASC), and at the state level by the California Commission on Teacher Credentialing (CCTC). A Doctorate in Education program is expected to be implemented in the 2008 academic year.

### College of Human and Health Sciences

The College of Human and Health Sciences (CHHS) teaches students the basic and applied scientific principles of their chosen disciplines, preparing them to provide health and/or human services to individuals, families, groups, and communities. The CHHS endeavors to produce graduates who demonstrate the highest ethical standards in both research and practice and who exhibit sensitivity, altruism, autonomy, integrity, social justice, and competence in their practice with economically and culturally diverse populations.

### College of Humanities and Social Sciences

The programs of the College of Humanities and Social Sciences (CHSS) contribute to a strong liberal arts education for all students. The College of Humanities and Social Sciences is comprised of 12 departments served by 101 full-time faculty members. CHSS offers 15 undergraduate degrees and 4 graduate degree programs.

### College of Natural Sciences

The College of Natural Sciences is comprised of the departments of Biological Sciences; Chemistry; Computer Science; Mathematics; and Physics, Physical Sciences, and Geology. The College of Natural Sciences establishes a scientific community dedicated to providing students the intellectual and technological capacity to contribute to and succeed in their academic and scientific pursuits. It seeks to educate students through quality instruction, experiential learning, research and internship opportunities, and strong academic advisement.

Graduates in the academic disciplines within the College of Natural Sciences possess the analytical, problem-solving, and technical skills that are critical to their success in finding, evaluating, and contributing to the body of knowledge in their field, teaching in many arenas, and contributing to the well-being of their communities.

### The Graduate School

Approximately 20% of the students at California State University, Stanislaus are enrolled in graduate or postbaccalaureate study. This is a significant portion of the student body—diverse in purpose, background, ethnicity, tradition, and age. This diversity provides a valuable context for quality research and learning. The University has become known for its responsiveness to individual students, its collaborative spirit, and the accessibility of its outstanding teacher-scholar faculty. Graduate students emerge with the knowledge, dispositions, and confidence to provide scholarly leadership.

### **Extended Education**

California State University, Stanislaus Extended Education has been an integral part of the University since its beginning. The department serves the Central Valley community through non-traditional programs and training. With a dedicated staff of program developers, coordinators, and a large group of expert instructors, Extended Education offers timely and critical programs. Programs are designed to meet community workforce and professional development needs. In the past year, 2,985 people took advantage of Extended Education courses.

California State University, Stanislaus Extended Education offers programs for alumni, community members, teachers, individuals changing careers, businesses, school districts, and professionals wanting certification or the latest training. Extended Education's Learning and Technology Training Center houses two modern training rooms. The state-of-the-art PC lab offers 21 comfortable workstations and current computers that are fully-loaded with the latest software. The lecture lab offers seating for 24 adults.

### Centers and Institutes

The Centers and Institutes of CSU Stanislaus exist to advance the goals of the University and to enhance its programs of instruction, scholarship, and service. They provide a means for interdisciplinary collaboration and a method by which extramural funds and fees can be employed to supplement other resources.

### College of Human and Health Services

### **Behavioral Intervention Services**

Behavioral Intervention Services is a joint venture between Valley Mountain Regional Center and the Department of Psychology at CSU Stanislaus. Graduate students with specialized behavioral skills provide consultation services to developmentally disabled clients. Interventionists help plan and implement programs to improve the interactions between the developmentally disabled and those in their school, work, and home communities.

### College of Humanities and Social Sciences

### **Center for Economic Education**

The Center for Economic Education at CSU Stanislaus is one of 21 such centers in the State of California. The Center's purpose is to assist public and private schools (K-12) in the University's six-county service area by incorporating economics into their curricula; by providing advice on curriculum development, training teachers, disseminating economics curriculum materials to teachers; and by maintaining a library of teaching resources which teachers can use free of

charge. In past years, the Center's activities focused on providing training workshops for high school teachers to facilitate implementation of the state-mandated (SB 1213) senior-level high school economics course.

### **Institute for Archaeological Research**

The Institute for Archaeological Research has the specific goal of publishing archaeological information. The major functions of the Institute are to facilitate archaeological research in the CSU Stanislaus six-county service area, to facilitate archaeological research in the western United States (primarily Nevada and Montana), to facilitate archaeological research in central Australia, and to serve as the principal means of publishing the results of archaeological research projects conducted in the United States and Australia.

### **Institute for Cultural Resources**

The Institute for Cultural Resources provides an interdisciplinary organizational framework for encouraging the study of the heritage of diverse cultural groups. The Institute organizes collections of cultural material representative of these groups and aids in their utilization for teaching and research purposes.

### **College of Business Administration**

### College of Business Administration Professional Development Center

The College of Business Administration Professional Development Center is administered through the College of Business Administration. The Center provides training, consulting services, and research to the business community and governmental agencies within the San Joaquin Valley. The principal activities at the Center are to create, promote, and conduct seminars, workshops, conferences, and special events of interest to the business community and the governmental agencies; to provide consulting and research services by utilizing faculty resources; and to conduct industry research projects and to disseminate the results which would benefit the major industries in the community.

### **University-Wide Centers**

### **Center for Direct Instruction**

The Center for Direct Instruction serves as a laboratory for training graduate and undergraduate students in psychology and special education in specialized techniques for remediating academic and behavioral deficits. The Center offers on-campus instruction in reading and mathematics content areas for school-age children from the service region.

### **Center for Portuguese Studies**

Founded in 1999, the Center for Portuguese Studies promotes the teaching of the Portuguese language and culture and the inclusion of Portuguese studies in various departmental programs. It organizes an Intensive Summer Institute in Portuguese Language and Culture and promotes scholarship on issues related to Portuguese-Americans. The Center has organized an exchange program with Portuguese universities for students and faculty and with the Fulbright Commission of Lisbon, Portugal. The Center also sponsors lecture series, cultural events, symposia, and works to develop communication between the University and the Portuguese community in the Central Valley, and between the University and organizations in Portugal.

### Center for Public Policy Studies at CSU Stanislaus

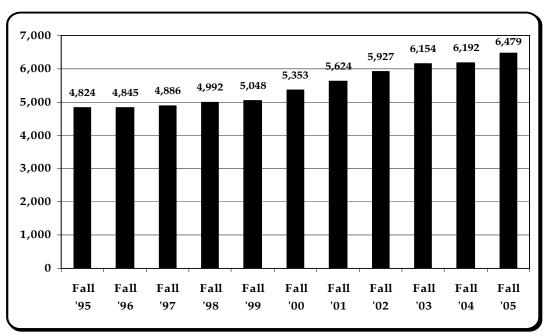

The Center for Public Policy Studies at CSU Stanislaus is a non-profit, non-partisan entity dedicated to research and public education about important policy issues and to providing a forum for discussing public policy issues with community representatives, academics, and policy makers in the Central Valley. The Center is committed to facilitating regional and community problem-solving through activities and research projects that bring together diverse constituencies and perspectives to clarify issues, consider options, and build consensus.

### **Child Development Center**

The CSU Stanislaus Child Development Center (CDC) is an instructional facility established to teach university students about child development including theory and applications, program design, and research. Through participation in successive laboratory courses, students acquire the skills necessary for observing children and recording their behaviors, implementing planned activities, planning and implementing their own activities, and for implementing original research projects.

# Trends and Growth

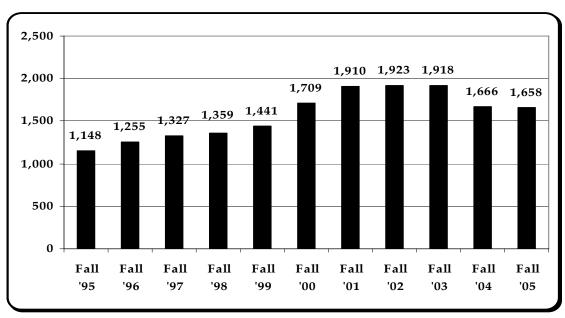

### Undergraduate Headcount Enrollment

Source: CSU ERSS Statistical Extract

Consistent with IPEDS definition, postbaccalaureate students seeking a second bachelor's degree are considered undergraduates. Prior to fall 2002 postbaccalaureate students seeking a second bachelor's degree were considered graduate students.

### Graduate Headcount Enrollment

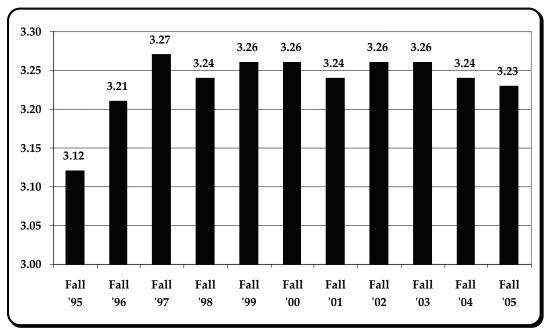

Source: CSU ERSS Statistical Extract

Graduate headcount include Credential, Postbaccalaureate, and Master's degree students.

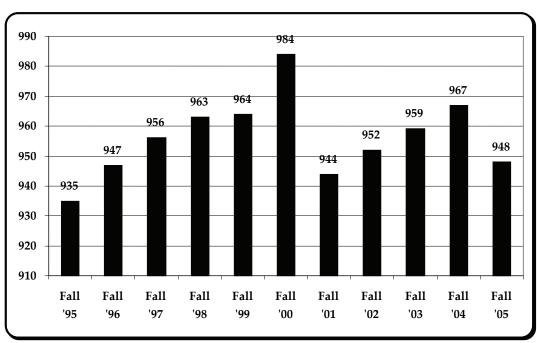

Prior to fall 2002 postbaccalaureate students seeking a second bachelor's degree were considered graduate students.
