Course Description:
Liberal Studies is the pathway to elementary school teaching. All students in this class are regarded as future teachers who are learning their profession through integrated coursework and field experiences. The purpose of this course is to:

1. Introduce students to the profession of teaching by gaining an understanding of the Liberal Studies major and the Credential
2. Gain practical experience in tutoring and a preliminary understanding of elementary school teaching
3. Reflect on professional development toward the goal of becoming a credentialed teacher.
The course focuses on critical thinking and reflective analysis. The course requirements include a two or three hour a week lecture section, a one hour a week Deans’ Team/Discussion meeting beginning Monday, March 15, 2010 and 30 hours total (approximately 3-4 hours weekly) of Reading tutoring of ages K-3 in a public elementary school setting.

Course Objectives: As a result of completing the requirements of this course, future teachers will:

- Complete university-required clearances for participating in California public schools.
- Identify the Liberal Studies pathway to becoming a credentialed teacher
- Practice effective tutoring in supervised elementary public school environments.
- Understand and demonstrate the ethical and professional responsibilities of an educational tutor and observer
- Understand the impact of varying cultural perspectives on the learning environment.
- Express reflective observation in a constructive written format
- Apply course content and tutoring/observation experiences to the development of your Portfolio according to the California Teacher Performance Expectations (TPE)

Course Requirements: To earn a letter grade, students must perform or complete the following requirements:

1. **Professional conduct is required at all times, both in the university classroom and in the elementary school site placement.**
2. **Choose and secure a K-3 grade placement (only from tutoring sites offered) and provide proof of signatures for school tutoring due before the 4th week of classes or on March 8, 2010, or consider dropping the course.** (See Christy for ALL site placement copies. I must verify all clearances first!)
3. **Complete 30 hours of K-3 classroom tutoring in reading verified by signed tutoring log and observation evaluation appraisal form by on-site teacher or supervisor**
4. **Demonstrate Regular Attendance and Punctuality.** Participation and involvement in classroom discussion and activities are vital to the course. Absences (for any reason) will result in a loss of participation grade points. Attendance is mandatory on presentation days!
5. **Listening behavior** is important. Students are expected to be attentive. Studying, reading, cell phone use, phone text messaging or visiting during presentations and/or lectures is inappropriate and will be noted. Students, who need to study, read or visit should do so outside this classroom. TURN OFF ALL CELL PHONES, IPODS and LAP TOPS!!!!!!
6. **Complete all class and portfolio project assignments and other relevant assignments**
7. **Complete the Final Presentation**
8. **Develop and submit a Final Portfolio based on class assignments**
9. **Develop and submit a personalized Liberal Studies Individual Education Plan (IEP) including a concentration**
10. **NOT turn in late work** unless previous arrangements have been negotiated with the instructor, and this late request must be in writing. All late work will be penalized a minimum of 20%. Assignments submitted after 1 week late of original due date will not be accepted for any grading points.
11. **Recognize the responsibility** to maintain student and school confidentiality in discussions of observations and fieldwork (do not use a students real name in assignments)
12. **Failure** to complete any one of these requirements will result in failure of the course.
13. **Students are asked to print a copy or access the syllabus for personal reference immediately.**

Attendance and Participation

Active participation in all lecture classes and Deans’ Team sessions and field experiences is an essential part of the course. Students should arrive on time and be prepared to discuss the assigned material. The Deans’ Team will facilitate weekly discussion meetings. Students are to come to the Deans’ Team meetings prepared to discuss their tutoring/observations and text questions. Students missing class (class meetings and/or Dean’s Team Meetings combined) will result in a loss of participation grade points.

Course grading: (Verification of 30 hours of tutoring is required to pass this course.)

This course is graded A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F. Grades will be apportioned in the following way:

LEARNING CONTRACT

Instructions: Read carefully, sign and after completing this form, return it to your Instructor by February 22, 2010—or drop the course. Keep a copy retained in your portfolio for your future reference.

I understand that I will be taking an experiential approach to learning about Beginning Field Experience and to developing personal skills needed to function effectively in groups. I willingly commit myself to the following principles and guidelines:

1. I will use the structured experiences in class to learn from. I am willing to engage in specified behaviors, seeking feedback about the impact of my style of behaving on others, and analyze my interactions with other class members in order to make the most of my opportunity to learn.

2. I will prepare for class in advance unless it is impossible to do so, including readings, preparation of materials for discussion and other responsibilities assigned.

3. I may not submit the same exercise or tutoring hours in more than one course in any past, prior or current semester.

4. I understand that my tutoring experience MUST not occur in an elementary classroom where the master teacher is related to the CSUS student in any way. (Examples include but are not limited to: parent(s), spouse, CSUS student’s children’s classroom, in-laws, siblings or any other relatives).

5. I am taking responsibility for my own learning and will not wait for someone else (including my instructor or my Deans Team leader) to "make me grow."

6. When asked to do so (and possibly voluntarily at time) I will describe openly my reactions to what I have read and analyzed in the assigned readings in order that my peers will have information to which they may process.

7. I will experiment with new-to-me behaviors and ideas as a class member, both in and out of class, seek and are receptive to feedback from other class members about my behavior, and contribute verbally to formulating conclusions about experiences in class.

8. I will help others make the most of their learning by:
   - Providing feedback in constructive ways,
   - Helping to build the conditions (such as openness, trust, acceptance, and support) under which others can experiment and take risks with their behavior, and
   - Contributing to the formulation of conclusions about the experiences highlighted in the exercises and assignments.

9. I will use professional judgment in keeping what happens among class members, in the tutoring experiences and on-site observations appropriately confidential.

10. The instructor and the College of Education may keep submitted student work and use it as examples for accreditation purposes. Every effort will be made to ensure that student name and other identifiers are removed from documents and projects that will be used for this purpose. Students who decline to have their work kept on file for this purpose must notify the instructor in writing within the first two weeks of the course.

11. I understand that all information in this document is subject to change.

12. ALL assignments MUST be completed and submitted by the portfolio due date to earn credit and to successfully pass this LIBS 1000 course.

13. I am accepting responsibility for understanding that any form of Academic dishonesty will result in a course grade of F and or failure of the course.

LIVESCAN/FINGERPRINTING PROCEDURES
(Review Public Safety Handout)

Background Information
The Michelle Montoya School Safety Act requires that people having contact with children on a K-12 school site undergo a criminal background check in order to be "cleared" to be in contact with children. This background check is done through the submission of computerized (digitized) fingerprints via a process called "livescan." The clearance goes through the California Department of Justice (DOJ).

There are many courses in this university that require students to observe in classrooms or work with student in a K-12 school setting. According to the Montoya Act, university students in these courses must be fingerprinted via "livescan" and undergo a DOJ background check.

According to California Commission on Teacher Credentialing (CCTC) regulations, when students apply to a credential program at the university, they must submit an Application for Character and Identification Clearance and be fingerprinted again via "livescan" and undergo a background check and be "cleared" in order to take courses and student teach.

Procedures
Therefore, in order to implement these regulations, the Liberal Studies Department and the Department of Teacher Education have implemented the following procedures:

1. LIBS 1000, LIBS 1010, LIBS 2000, LIBS 2010, LIBS 2500, LIBS 3000, EDMS 4100 and EDMS 4150 Courses - Students enrolled in courses requiring work or observations with children K-12 school sites must submit fingerprints via "livescan" and be cleared by the University to work/observe in schools. This procedure needs to be done only once to cover the student for all these courses. (See note below for the process for submitting fingerprints to be cleared by the University.) When these students apply to the Credential Program, they will need to undergo the California Commission on Teacher Credentialing (CCTC) fingerprinting process. Therefore, these students will undergo the process twice.

2. Multiple Subjects, Single Subjects and Education Specialist Credential (Special Education) Program Courses - Students enrolled in credential program courses must submit fingerprints via "livescan" to the California Commission on Teacher Credentialing (CCTC). This is done as part of the application process to each credential program. The Credentials Processing Center Office located in the Dermergasso-Bava Hall, Room 303, will keep a record of students who have applied and been admitted to a Credential Program.

3. Students in any credential program course for Multiple Subjects, Single Subject and Special Education Programs who have not been fingerprinted and cleared through the California Commission on Teacher Credentialing (CCTC) through the application process for the credential program must submit fingerprints to be cleared by the University

University Fingerprint/Clearance Procedures
Students who need to submit fingerprints to be cleared by the University must follow these procedures:

- Go to the Department of Public Safety at the University located in the Campus Services Building.
- Pay Public Safety $57.00. Public Safety then forwards all paper work to the Department of Justice (DOJ).
- Hours available for livescanning at the Public Safety office between the hours of 8-11 and 1-4. No appointment is necessary.
- For further information feel free to contact the Department of Public Safety at the University at 667-3114 and speak to the fingerprint clerk.

Special note
Some students may have already submitted fingerprints and have been "cleared" through another school district. For example, some students may have submitted fingerprints because of employment as an instructional aide, maintenance, janitor, or other employment or because of volunteering, etc. Confidentiality laws do not allow those districts to inform the University whether you have been "cleared." Therefore, the district process will not exempt a student from undergoing the process again for "clearance" through the University. Students MUST have California State University, Stanislaus Livescan Clearance.

The signatures below verify that the following required elements exist at this placement:

- The university student works directly with elementary aged students (K-3) in a public or private classroom for a minimum of 30 hours during a semester. (*Please note: private school observation may only count for 10 of the 30 required hours).

- The classroom has 25% or more language diversity.

- There is a credentialed classroom teacher who works directly with the university student as a supervisor and will verify the hours on the tutoring observation log.

- There are opportunities for the university student to meet with the teacher or other staff members to gain more information at the site.

- The university student meets one-on-one, in small groups, or with the entire class. The university student works with or observes the same students on a regular basis to view their development progress over time.

ASSIGNMENT

PACKET FOR

LIBS-1000

PORTFOLIO

Spring 2010
Final Portfolio Organization:

WHY YOU NEED A PORTFOLIO, AND WHAT IT SHOULD LOOK LIKE

Educator and researcher Lee Shulman (1994) of Stanford University introduced the idea of portfolio development in the early 1990s. According to Shulman, "A teaching portfolio is the structured, documentary history of a set of coached or mentored acts of teaching substantiated by student work and fully realized through reflective writing, deliberation, and serious conversation." Therefore, each portfolio should include representation of the student's ability to integrate studies across disciplines as well as their competencies within those disciplines, demonstrate personal growth, individual skills, and significant experiences as they relate to elementary education. Each portfolio should be professional in appearance and content.

You will be required to purchase a portfolio binder that should be identified with your name, course, and semester on the front and spine of the binder and include in it the following Bolded Areas: Front inside Pocket – Two (2) typed and stapled COPIES of your IEP, with your name and concentration. One IEP copy will be removed and kept in the Liberal Studies Office.

PLEASE DO NOT PLACE YOUR ASSIGNMENTS IN PLASTIC SHEET PROTECTORS!

LIBS 1000 Portfolio projects are due in the Liberal Studies office on Monday May 24, 2010 before 3:30 pm. Students are strongly encouraged to begin work on additional areas of their portfolio. Be sure to save all of your course work that represents artifacts for subject matter competency. For the purpose of this course each student's portfolio will be graded largely on professional appearance, organization, and completion of all assigned material.
Portfolio Binder Cover, Title Page, Introduction and Summary

Binder Cover: The outside of the binder should include a name and any other identification that would be appropriate. (This is the clear pocket of the portfolio binder). Students should put their name on the spine of the binder too.

Title Page: The title page (first page when opening the binder) should include the title of the portfolio (student will pick or decide), the student's name and the school affiliation.

Introduction: Typically, an introduction should present the specific idea or concept of the portfolio and describe the strategy or organization of the portfolio. Because the introduction is clearly identified by its position in the portfolio, it is not labeled. Therefore, it is not necessary to write "introduction" as a title for the introduction page.

Before writing the portfolio introduction, consider:
1. Why is the portfolio important?
2. How does the structure of the portfolio relate to the teaching profession?
3. What do (you) the student want the reader to "get" from the portfolio, and how does your work in the portfolio relate to what you learned over your educational career?
4. What kinds of knowledge did (you) the student gain, and how do you know?
5. Understand that the introduction should change with each Liberal Studies class, (i.e. LIBS 1000, 1010, 2000, 2010, 2500, 3000, and 4960) as you add artifacts.

A good introduction answers these questions in a paragraph or two, previews the contents and the data of your portfolio and gives the reader a firm sense of what was done and why.

Summary: A summary is a brief, comprehensive discussion of the contents of the portfolio; it allows readers to review the contents or main points of a portfolio quickly and succinctly. A summary is not a list. Include in the summary only the four or five most important concepts, findings, or implications.
The Liberal Studies Program Portfolio (Course Assignments)

The Course Assignments listed below conform to the California Teacher Performance Expectations (TPE) as directed in Senate Bill 2042 and listed in the California Standards for Professional Teaching Profession. Additional Information on SB2042 can be found at the California Commission on Teacher Credentialing web site http://www.ctc.ca.gov

The six TPE areas are:
1. Engaging and Supporting All Students in Learning
2. Planning Instruction and Designing Learning Experiences for All Students
3. Assessing Student Learning
4. Creating and Maintaining Effective Environments for Student Learning
5. Understanding and Organizing Subject Matter for Student Learning
6. Developing as a Professional Educator

The assignments listed on the following pages are due according to the Course Schedule. ALL final drafts of each assignment are to be included in the final portfolio turned in at the end of the course.

Portfolio assignment that documents the TPE's:

- Engaging and Supporting All Students in Learning
- Planning Instruction and Designing Learning Experiences for All Students
- Assessing Student Learning

Assignment #1. Tutoring Logs and Observations—You are required to work in classrooms weekly for a minimum of 30 hours total.

By the fourth week of classes (March 8, 2010) every student must submit a completed and signed placement site form, copy of TB Clearance, and verification of fingerprint submission by the University (CSU, Stanislaus Public Safety). After TB and Livescan has been verified and cleared, then see Christy for a placement form. You are required by the university (whether the school district requires it or not) to submit fingerprints to be cleared for working with children through the Department of Justice. You must also submit a TB Clearance that was taken within the last four years. A current copy will be accepted for TB Clearance. TB tests are available for free through the CSUS Student Health Center.

- During the first few weeks of class, several programs are available for tutoring and representatives from the partner programs will present their programs and you will pick and sign up for tutoring during class. The partner programs may require additional training time outside of class. You are responsible for attending all mandatory training for the program of your choice. A signed Placement School Site Declaration Form (See Christy for a placement form) will be required in advance of starting your tutoring. Students CANNOT begin documenting your tutoring hours before ALL your paperwork has been completed, turned in and verified by the schools (with signatures), the CSUS Public Safety department along with a current (Negative) TP Form. (Signed and completed placement forms are due in class on or before October 16, 2009).

All written assignments should be consistent with APA format and must follow the Reflective Cycle model discussed in Reed and Bergemann. Hours spent in classrooms and observations are to be documented everyday and on the Tutoring/Observation Time Sheet and Logs (included in this syllabus and/or connected to this web site: www.csustan.edu/LiberalStudies. Please be aware of confidentiality and make up a name when discussing your student. These logs must be included in the Final Portfolio.

Portfolio assignment that documents the TPE:

- Creating and Maintaining Effective Environments for Student Learning

Assignment #2. Case Study - Final Reflection on Tutoring

Each student will create a personal case study after completion of the tutoring experience (30 hours of beginning field experience). Write a case study on a student you tutored at the school in which you are currently working. Using the Reflective Cycle, describe strategies that you implemented to assist the student’s learning. Your paper should include background on the student and analysis and discussion of the process and development in the tutoring experience both for the student and for yourself, as a tutor. What did you learn? What would you change if you had the opportunity to repeat the experience? All written assignments should be consistent with APA format, cover page, include a clear introduction with a thesis, main body and strong conclusion and must follow the Reflective Cycle model discussed in Reed and Bergemann. Case study assignment will be handed out by your Deans Team leader. Case Study is due on Monday, May 10, 2010 to your Deans’ Team Leader.
Portfolio assignments that document the TPE:

- Understanding and Organizing Subject Matter for Student Learning

**Assignment #3. California Standards Chart and Summaries**

The class will be divided into Deans' team groups and assigned a grade level (K through grade 8) and subject matter (English – Language and Visual and Performing Arts). Groups are responsible for developing a chart that illustrates the learning required of K-8 students at one grade level in both the English and the Visual and Performing Arts. In addition to the learning, LIBS 1000 students must include a list of university/college course work needed to gain or develop competency in the English – Language and Visual and Performing Arts subject matter. The California State Standards handbooks explain the details of subject matter requirements (such as grade 2 in Reading or Writing). Groups will discuss the Standards and the course work illustrated on their chart.

For the Portfolio, each student must include the chart (duplicate if necessary) and the two (completed) Content Standard Worksheets handouts.

**Assignment #4. Integration of Subject Matter**

On the topic of “water,” each Deans Team will develop a group cluster chart, which identifies 4 different university subject matter areas of the Visual and Performing Arts that relate to the topic. The subject matter areas of the Visual and Performing Arts include: Art, Music, Dance and Theater. In your Deans Team the group members will then describe and discuss which Visual and Performing Arts Content Standards are being addressed and how they relate.

After completing the group chart and after the group discussion, each student should then individually construct or develop a visual cluster chart or map and develop a summary stating how the cluster chart demonstrates the integration of the different subject matter areas. In your individual written summary, explain the integration and the different subject matter requirements. List some possibilities for additional K-8 curriculum (subject matter) integration and the standards being addressed. **Include both cluster chart and summary in your portfolio.**

**Portfolio assignments that document the TPE:**

- Developing as a Professional Educator

**Assignment #5. Dean’s Team Discussion**-- each week students will meet in a Dean’s Team group for one hour to complete the following:

- **Deans’ Team Discussion** -
  - Starting questions and activities to be discussed at the Dean’s Team are listed in the syllabus for each week focusing on the course text and tutoring.
  - Students should prepare in advance to discuss these questions during their Dean's Team meeting, as some of the questions are based on work that must be completed in the week prior to the Dean’s Team meeting. While students should prepare for all questions or activities, not everything will be covered during the Dean's Team session.
  - Bring your completed Tutoring/Observation Time Sheet and Log to each session and to have your Deans Team leader review for completion and/or suggestions for improvement, corrections or enhancements.
  - All Handouts and Assignments (total of 6) completed during Dean’s Team are to be included in your Final Portfolio. (Course assignment #5)

- **Teaching Presentation** -
  - Each Dean's Team Group is to develop a short class presentation within their group based on the readings in Why I Teach: Inspirational True Stories from Teachers Who Make a Difference.
  - This can address one story that all the Dean's Team members in your group found meaningful, or overall impressions of several meaningful stories, or extending the ideas of the book into the observations made this semester during tutoring.
  - The presentation should take 5-10 minutes and might include readings, skits, poster presentations, video, a web page the group developed, or other creative displays.
  - Presentations should capture the interest of the class and tell why teachers make a difference in the lives of their students.

- **Assignment #6. Individualized Education Plan**
  - Utilizing the information from the University Catalog, California State Standards, transfer evaluations, class transcripts and class discussion, you will develop an Individual Education Plan.
  - We will discuss this in class and you will work on this in Dean’s Team.
  - This plan will be used for future planning of coursework and to facilitate advising as you move toward your goal of teaching.
  - **Two typed copies of the IEP are to be included in your Final Portfolio.**
Assignment #7. Create a list of at least 5 websites for educators.

- Briefly describe and summarize what a teacher would find on each site.
