Remember to Vote on March 2

Proposition 55:
The Kindergarten-University Public Education Facilities Bond

Prop. 55 will provide much needed equipment for the outstanding new CSU Stanislaus Science Building II

• $7.75 million is earmarked for curriculum-based equipment and furnishings for what will be the Central Valley’s major science education resource when completed in 2007.

Benefits:
• Enhance science education curriculum for teachers-in-training
• Improve science students’ laboratory skills and techniques
• Offer students the opportunity to learn on state-of-the-art equipment

Impact:
• Better prepare teachers for the classroom
• Better prepare students for science-related and health services careers
• Alleviate classroom overcrowding
• Strengthen pre-professional programs for students going on to medical, dental, optometry, and veterinary graduate programs

Types of curriculum-based equipment required:
• Observatory telescope
• Scanning electron microscope
• Nuclear magnetic resonance spectrometer
• Geological analysis equipment

Prop. 55 is a general obligation bond payable over 30 years.
