CALIFORNIA STATE UNIVERSITY, STANISLAUS CONCERT EVENTS POLICY

I. Purpose
The purpose of this policy is to establish criteria, standards, and guidelines to be used in scheduling California State University, Stanislaus facilities and grounds for non-university concerts (e.g., live performances, including but not limited to entertainers, bands, D.J’s, comedians, etc.) and all other amplified-sound events (herein called concert events). This policy does not supersede the CSU Stanislaus Policy on Scheduling University Facilities for Purposes Other Than Scheduled University Credit Instruction (Facility Scheduling Policy); it adds additional guidelines and restrictions for concert events. For student event guidelines refer to Student Affairs Special Events Standards.

II. Scope
For purposes of this policy, "university facility" shall include all grounds, parking lots, buildings, and spaces under the jurisdiction of the university, including buildings owned and/or operated by auxiliaries and self-support units. This policy does not affect academic events in the Snider Music Recital Hall.

III. Use of the University Name
The right to use university facilities does not confer the right to use the University name, logo, or branding, or to imply university sponsorship or endorsement of an event. All agreements for use of university facilities shall include terms to ensure that the university name is protected. University Communications has the right to approve all use of the University name, logo, or branding in brochures and publications or similar printed materials. Any merchandise bearing the University name/logo must be licensed and pre-approved by the University.

IV. Scheduling Authority
A. The University President has designated the University Reservations Office to have responsibility for coordinating all facility scheduling other than for scheduled University credit instruction. However, the University President retains ultimate approving authority.

B. The University Reservations Office, Public Safety/University Police, Risk Management, and Facilities Services all have the right of review and recommendation of proposed events (both university and non-university) prior to the reservation confirmation. The Student Activities Office must also approve all student organization activities.

V. Concert Event Scheduling Criteria
A. Concert Event Season: Concert events will only be scheduled for the period of April 15 through October 31, with only weekends available when the Spring/Fall semesters are in session.

Number of Concert Events During Concert Event Season: The maximum number of concert events that may be scheduled during the concert event season will be ten (10), excluding any student sponsored concert event. The number of events and time frame between scheduled concert events will be determined by the University Reservation Office based upon other scheduled events and the staff and service requirements for the concert event planning. Timing of the event must be approved and confirmed in the written event contract.

C. Concert Event Standards: Each concert event will be approved based upon a set of criteria, including but not limited to, the following:

The bid preparation fee is non-refundable.

B. All concert events will be charged a facility use fee that includes a reimbursement for standard services. The Vice President, Business & Finance, will approve Facility Use Fees each year.

C. All concert events will be charged for University event monitors (number to be based on event size) to be in attendance during concert event setup, performance, and tear-down, as well as total reimbursement of additional service charges (e.g., University Police, custodial service, grounds maintenance, and outside service providers).

The senior Officer on scene shall take into account the totality of the circumstances and whenever possible notify the Chief or Lieutenant prior to taking action. However, notification is not necessary when an imminent threat exists and further delay would jeopardize health and/or safety.
IX. Insurance
The University has the authority to refuse use of university facilities for events that would pose an unacceptable level of risk to people or property. The use of university facilities requires public liability and property damage insurance in the appropriate amount for the event as determined by the University Risk Manager against any liability to the public, incidental to the use of or resulting from, any accident occurring in or about said premises.
