University Police Services

Timely Warnings
To minimize the number of criminal incidents, University Police Officers, Residential Life staff, students, and members of the wider campus community participate in a number of shared responsibilities to ensure that all students and their possessions are protected as much as possible. On occasion, you will see timely warnings noticing descriptive recent crime trends or dangerous incidents that present an immediate threat to others. University Police will determine if a situation poses an immediate threat and will determine the content of the message and notification unless issuing a notification will, in the judgment of the first responders, compromise the efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. It is our policy to distribute these notices around campus to provide our community with information about the incidents and crime prevention recommendations. Once all relevant information is received and verified, these notices will be distributed through various methods: posting, text, e-mail, voicemail, and/or mailings.

Security of and Access to Campus Facilities
All campus facilities are key accessed, and most are open daily for scheduled campus community use. The Housing and Residential Life Complex is gated with key access only. Campus key control and distribution is a function of University Police Services in coordination with Facilities and Support Services.

To provide for the security of campus facilities, the University Police enforces Educational Code 89031 & Housing Policies. Campus facility access may be revoked per Penal Code 626.

Security Considerations Used in Maintenance of Campus Facilities
The University Police are responsible for security of all campus facilities. Personnel perform daily building lock-up and monitor all maintenance issues in campus lighting, door locks and general environmental safety in conjunction with Facilities and Support Services. Regular inspections and surveys of campus indoor/outdoor lighting, shrubbery and walkways are conducted. The University participates in Crime Prevention through Environmental Design concepts for planning and improvements on campus.

Fire Safety
Combustible Material Storage: The storage of combustible materials (gasoline, paint thinner, etc.) within the residential facility, including resident bedrooms, suites and apartments, is not permitted.

Fire Alarm/Drill: Residents and guests must evacuate a residential facility immediately when the fire alarm sounds. Those who do not evacuate are in violation of University policy and State fire code and will be referred to the Housing and/or University judicial processes.

Fire Safety Equipment: Residents are responsible for familiarizing themselves with the evacuation instructions located on the inside of their suite or apartment door. If the instructions are missing or illegible, please contact the Housing Office immediately to have a new one installed.

The following misuse of fire safety equipment are considered violation of policy: pulling fire alarms or fire alarm covers when no fire exists, blocking or propping fire doors, blocking fire stairs, tampering with smoke detectors, tampering with alarm horns or bells, misuse or tampering with sprinkler system heads (including, but not limited to, hanging items from sprinkler heads), tampering with fire exit signs and improper use of fire extinguisher or fire hoses.

Note that each suite or apartment common area, as well as each bedroom contains a smoke detector for resident safety. Contact the Housing Office immediately if the smoke detector begins beeping. Under no circumstances should a resident attempt to adjust or repair a smoke detector. This includes changing the batteries. Tampering with smoke detectors will result in a minimum $60 repair or replacement fee and disciplinary action.

Open Flame: No open flames are permitted in suites or apartments. This includes, but is not limited to candles, incense, smoking and the burning of any materials or other flame-emitting items. Prior written approval must be obtained from the Residential Life Coordinator if this policy is incongruent with religious, cultural or spiritual beliefs.

Smoldering Embers: Apparatus such as hookahs, which results in smoldering embers, ash, etc. are not permitted within the housing facilities and grounds.

Portable Heaters: The utilization of portable heaters is not permitted.

Halogen Lamps: Halogen/torchieres/desk lamps are not permitted.

Doors: All unit doors are to be kept closed at all times due to the integrity of the rated corridors. At no time are the doors to be propped open or left ajar.

Prospective students and employees receive the disclosure notice statements via multiple outlets such as, but not limited to: Enrollment Services and Human Resources recruitment packets and/or application packets, near posting and information distribution centers on campus, from deans and department heads, web site links, the student handbook, new faculty handbook, class schedule, and extended education catalogs.

Public Access to Campus Police Crime Log

The department maintains a daily crime log for the most recent 60-day period. It is open to public inspection during normal business hours. Items older than 60 days can be obtained by request within two business days. In accordance with the Student Assistance General Provisions (Section 34 CFR 668.46 (f)), we maintain all supporting records and daily logs for seven years following the publication of the last annual campus security report to which they apply.

Student Discipline

Students may be expelled, suspended or placed on probation for committing violent or criminal acts on campus or at campus-related events. CSU Stanislaus will, upon written request, disclose to the alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the university against the student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, CSU Stanislaus will provide the results of the disciplinary hearing to the victim’s next of kin, if so requested.

Security and Crime Prevention Programs

Crime Prevention Programs on personal safety and theft prevention are sponsored by various campus organizations throughout the year. University Police personnel facilitate programs for student, parent, faculty, and new employee orientations, student organizations, community organizations, in addition to programs for Residential Life Housing Resident Advisors and residents providing a variety of educational strategies and tips on how to protect themselves from sexual assault, theft and other crimes.

A common theme of all awareness and crime prevention programs is to encourage students and employees to be aware of their responsibility for their own security and the security of others.

Whistle Defense

Free keychain whistles, for use as alert devices, are distributed by the University Police throughout the year. Call (209) 667-3114 for more information.

New Student Orientations

University Police personnel provide personal safety tips and emergency contact information to new students on a regular basis. Students are informed of policies, voluntary confidential crime reporting procedures, and safety programs.

New Employee Orientations

Throughout the year, University Police personnel present safety policies and procedures to new employees, in cooperation with the Human Resources department. Employees are informed of injury and illness prevention, workplace violence, safety programs, and voluntary confidential crime reporting procedures.

Policies on Portable Electrical Appliances, Smoking, and Open Flames in Housing

CSU Stanislaus has policies and regulations that give clear direction to those students who reside in the university residential housing. A portion of the policies pay particular attention to fire and life safety issues. Excerpts from the policies are outlined below with a full disclaimer on the web at http://www.csustan.edu/Housing/Forms_Publications.html, Administrative Policies and Regulations:

Cooking

In apartments cooking is limited to the general kitchen or kitchenette areas. Hot plates, electric frying pans, electric grills, portable stoves, toaster ovens or other similar appliances are not allowed in the suites....For the safety of all in the community, residents must pay attention and use caution when cooking…..Under no circumstances are microwaves, stoves, and other similar appliances to be left unattended. Any damage done or inconvenience caused to the community (smoke alarms, fires, etc.) is the financial and judicial responsibility of the resident.

Decorating and Renovating Room Structure, Furnishings, or Grounds

Personal items or furniture brought into Housing and Residential Life quarters must meet a documentable fire safety standard rating of 4 or 5. Furniture must either have a manufacturer's tag physically on the furniture or the resident must have another form of documentation by the maker of the furniture...Individuals will be asked to remove extra furniture or furniture which does not have proof of evidence for fire safety rating...

When decorating a bedroom/suite/apartment be aware of the following:

- Tapestries, flags and burlap cannot be hung from a wall or ceiling as they burn rapidly and can feed a fire. These decorations may be affixed to the wall if they have been treated with a fire retardant and are so labeled.
- Due to state fire codes, tack message boards and nameplates are not permitted on the exterior of the bedroom, suite or apartment doors.
- All holiday décor must be flame resistant. Such decorations must be removed within ten days after the holiday. Holiday decorations such as artificial trees are permitted in the living room of suites or apartments and cannot be placed in bedrooms. Artificial trees must be approved by the Residential Life staff. Residents may not possess life holiday trees.

Housing Policies

• Lights should be used only when a resident is present. All lights/cords must be in good condition and be UL certified...

Electrical Equipment

University Housing facilities have limits on their electrical systems. Overloading the circuits can result in tripped circuit breakers and present a fire hazard. The following guidelines apply to the use of electrical apparatus:

- Items with exposed heating elements are prohibited. This includes, but is not limited to, space heaters, sun lamps, immersion heaters and hot plates.
- Refrigerators for private bedrooms are permitted, provided they do not exceed: 3 cubic feet.
- Appliances such as stereos, radios, desk lamps, computers, TV’s, VCR’s, sealed –component coffee makers, hair dryers, other electrical hair implements, answering machines and electric blankets are permitted. In apartment, cooking appliances such as crop pots, toasters, toaster ovens, rice steamers, electric grills, and electric frying pans are permitted. These appliances must be directly attached to grounded outlets, and should remain unplugged when not in use.
- Privately owned air conditioners are not permitted. Window fans are discouraged and should never be used unless the resident is present.
- Surge suppressor-equipped, UL approved power cords are highly recommended for computer systems and other valuable electrical equipment. Extension cords or string surge protectors together in a series are prohibited.
- International appliances must use electrical converters.
- Irons must be used with ironing boards only and irons should never be left unattended.
- Cooking is limited to the kitchen and is not permitted in bedrooms.
- Multiple outlet plugs that insert into an outlet are not permitted.
- The placement of any material in or around the provided lighting is prohibited. The removal of lights, alteration of the fixtures and the replacement of institutional light bulbs with colored light bulbs are also against University Housing policy.
- Stereo equipment and speaker are expected to be of a size and power that are appropriate for high-density community living.

Violations of these guidelines may result in immediate license revocation.

If the alleged victim is deceased as a result of the crime or offense, CSU Stanislaus will provide the results of the disciplinary hearing to the victim’s next of kin, if so requested.
Crime Alerts and Notices

On occasion, you will see timely warning notices describing recent crime trends or dangerous incidents that represent an immediate threat to others. Notices are posted around campus to provide our community with information about the incidents and crime prevention recommendations. Notices are typically posted within 24 hours of certain verified trends or incidents.

Crime Reporting

Immediate emergency response and access to voluntary confidential reporting may be obtained 24 hours a day. Call the University Police from an Emergency Blue Light Call Station, or dial 9-1-1 from any phone on campus.

Workplace Violence Prevention

University Police personnel provide workshops regarding the awareness and prevention of violence in the workplace. Employees may contact University Police at (209) 667-3114 for a schedule of times and locations. (See page 9 for policy information)

Emergency Blue Light Call Stations

A 24-hour, button activated, telephone system will put you in contact with the University Police for any emergency need. There are 33 call stations located throughout the Turlock campus, including residential housing.

Safety Shuttles

The University Police Department provides shuttles to/from campus locations Monday-Thursday during semesters from 6:00pm to 11:00pm.

Look for the long, blue, 7-passenger carts around campus during these times and feel free to ask for a ride.

Currently our Safety Shuttles provide a point-to-point service based on where our riders need to go on campus (no set routes).

Personal Safety Escorts

The University Police Department can provide personal safety escorts to/from campus locations 24 hours a day, 7 days a week if you fear for your safety. Call 667-3911 or use a Emergency Blue Light Phone. See Emergency Blue Light Phones Map
Emergency Evacuation

Campus-Wide Evacuation

When it is necessary to completely evacuate the campus due to emergency conditions, a systematic and controlled approach will be used. When campus buildings are deemed safe for occupancy, personnel will be held at their current locations pending evacuation. Where campus buildings are deemed unsafe the Gathering area system will be used (see map on page 7).

Following the decision to order the evacuation of the CSU Stanislaus campus, the University President or his/her representative shall notify:

• The Chief of University Police or his/her representative of the need to evacuate.
• The University Communications Public Information Officer or their representative of the need for information broadcasts asking all persons to stay away from campus.

The University Police, with the assistance of the Building Marshals, Monitors and Facilities Associates, shall be responsible for coordinating the evacuation process. Where the campus has been ordered closed and no campus facility is under eminent danger the evacuation of the campus will take place with an appropriate amount of time between each area.

Special Needs

Wheelchair users or other disabled persons should prepare for emergencies, in advance, by instructing a University official or employee.

Move toward the nearest emergency exit. When a wheelchair user and/or other disabled person reaches an obstruction, such as a staircase, they should request assistance from others in the area.

If assistance is not immediately available, the wheelchair users and/or other disabled person should stay visible in an exit corridor or on an outdoor landing. They should continue to call for help until rescued. Persons who cannot speak loudly should carry a whistle (provided free by the UPD) or have other means of attracting the attention of others.

Special evacuation chairs (Evacu-Trac) are available in multi-story buildings to evacuate a disabled person DOWN stairs. The chairs are typically located near main stairways with instructions inside the cabinet. Contact the University Police for training.

Housing Evacuations

In the event of an emergency evacuation at residential housing facilities, students are to vacate their room and proceed to the nearest evacuation gathering area. Resident Advisors will respond and act as building Marshal’s and Monitors guiding residents to the nearest exits away from danger. Resident Advisors will use a methodical approach to evacuating each floor of each building involved. Once the building or area is clear a Resident Advisor will ensure that residents have evacuated to the gathering areas and are not blocking the path of emergency vehicles.

Map of Emergency Blue Light Telephone

Localized Evacuation

In some situations, it may become necessary to evacuate one or more building on campus due to a localized emergency situation. When this occurs the University Police will coordinate the evacuation with the Building Marshals and Monitors. The decision to evacuate will be based on the totality of the circumstances and, whenever possible, following consultation with the President and ranking Dean or Facility Manager. When evacuations are due to an overriding concern for public safety it may not be possible to make such consultations. In those instances the appropriate Dean or Facility Manager will be notified of the evacuation as soon as is practical.
Crime Reporting Policy and Procedures

The University Police are responsible for service, law enforcement and maintenance of order on the Turlock campus. The entire campus community is strongly encouraged to report any and all known or suspected incidents of criminal activity on campus to the University Police Department as soon as possible. Emergency Evacuation

Evacuation Responsibilities

University Police

The University Police Department is responsible for the overall campus evacuation procedure and serves as the focal point in any emergency for assistance and coordinating outside services as delineated in the Emergency Operations Plan.

The University Police Department serves as the recipient of the evacuation status of each individual building as reported by individual Building Marshals. They will direct assistance in search and rescue of outside services as required.

Facilities Services

Facilities Services associates are trained to respond during emergency situations and assist the University Police Department with security and communication at University perimeter entry/exit points. Associates may assist with the dissemination of printed information relating to an emergency, assist with facility maintenance needs, and provide ongoing support for recovery efforts.

Emergency Alert Hotline: 1-877-STAN-411 (7826)

Emergency Response

Emergency Operations Plan

The CSU Stanislaus Emergency Operations Plan (EOP) provides basic structure and procedures to guide the University’s management of and response to extraordinary emergency situations associated with natural and man-made disasters.

The EOP conforms to California State and Federal law governing emergency operations. The CSU Stanislaus plan:

- Promotes the utilization of the Incident Command System
- Conforms to the Standardized Emergency Management System
- Conforms to the National Incident Management System

The Emergency Operations Plan is available online at: http://www.csustan.edu/emergency/Documents/EOP.pdf

Emergency Procedures

The Emergency Procedures guide provides basic instructions for the University Community in response to crisis situations on campus.

Business Continuity Plan

The Business Continuity Plan provides administrative guidance for the timely return to the business of education.

The Business Continuity Plan is available online at: http://www.csustan.edu/emergency/Documents/BusinessContinuityPlan.pdf

Testing

CSU Stanislaus will conduct periodic testing of emergency response and evacuation procedures at regular intervals across campus according to the California Fire Code, California Code of Regulations, Title 24, Part 9. The testing of such procedures will be documented and will include a brief description of the exercise, the date, time, and whether or not the exercise was announced or unannounced.

Emergency Notification Procedures

Unless the notification at that time will compromise efforts to contain the emergency, CSU Stanislaus will immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or staff occurring on campus. University Police will coordinate and communicate response efforts once a threat to the campus has been determined. Depending on the nature of the situation confirmation may be made in collaboration with university personnel, allied agencies, or the campus community. Methods used for immediate notification may include but are not limited to: fire alarm systems, emergency radios, phone trees, and the Emergency Notification System.

CSU Stanislaus utilizes an emergency communication system that is capable of rapidly sending voice, e-mail and text messages to all faculty, staff and students. This system is known as the campus Emergency Notification System (ENS).

During critical situations, CSU Stanislaus officials will use this system to provide emergency details and information on the appropriate response to all employees and students.

Emergency messages will be sent to all registered e-mail and phone numbers, including work, home, cell and text. To register in the ENS, log on to the University emergency website at: https://www.csustan.edu/Emergency/ENS/ to provide or update your emergency contact number(s). You will need to login using your existing University e-mail ID and password.

If you experience problems with this process, please contact the OIT Help Desk at: (209)667-3687.

Campus Fire Safety Report

**The Campus Fire Safety Right-To-Know Act**

The Campus Fire Safety Right-To-Know Act is aimed at increasing fire safety awareness on college campuses. It amends the Higher Education Opportunity Act of 1965 requiring colleges and universities to report specific fire safety information and statistics. This bill was signed into law August 2008 and the following is a public disclosure report that details all information required by this law as it relates to CSU Stanislaus.

**Fire Safety Education and Training**

All on campus residents receive fire safety training at the beginning of each semester. Comprehensive training on fire and life safety is also provided to all Residential Life Advisors, and Building Marshall’s and Monitors. Emergency evacuation drills are conducted semi-annually for residence halls and campus wide buildings in coordination with Safety and Risk Management.

University employees receive fire evacuation and awareness training during their New Employee Orientation and participate in regularly scheduled emergency evacuation drills.

**Public Access Fire Incident Log**

Housing and Residential Life maintains a fire incident log for the most recent 60-day period. It is open to public inspection during normal business hours. Items older than 60 days can be obtained by request within two business days. In accordance with HEOPA, section 668.49 Annual Fire Safety Report, we maintain all supporting records and daily logs for the three years following the publication of the last annual campus security and fire report to which they apply.

To Report a Fire

All students and employees at CSU Stanislaus should call 9-1-1 to report all fires or fire related emergencies.

- If you see a fire or smell smoke, immediately call 9-1-1 and/or activate the nearest fire alarm. You may also use the emergency blue light call boxes to contact the Police (Turlock Campus).

- If the fire is small and you are trained, you may choose to use a fire extinguisher or a building fire hose to put it out provided ALL of the following conditions are met:
  1. The fire alarm has been activated
  2. All occupants have been evacuated
  3. If the fire is small (waste basket size) and has not spread
  4. You have the correct type of extinguisher
  5. Your exit is clear and you can extinguish the fire with your back to the exit door

- When you hear an alarm, walk to the nearest exit notifying other of the fire on your way out.

- Go to an evacuation gathering area away from the building then wait for further instructions.

- Immediately notify University Police or Firefighters on the scene if you suspect someone may be trapped inside the building.

Plans for Future Improvements in Fire Safety

CSU Stanislaus plans to conduct more frequent fire evacuation drills for the Residential Housing facility in accordance with the International Fire Code Section 405.2. Residential Advisors will be provided with a more comprehensive training in fire awareness and safety measures and university employees will be required to attend training in emergency evacuation procedures.

Fire Safety Education and Training

All on campus residents receive fire safety training at the beginning of each semester. Comprehensive training on fire and life safety is also provided to all Residential Life Advisors, and Building Marshals and Monitors. Emergency evacuation drills are conducted semi-annually for residence halls and campus wide buildings in coordination with Safety and Risk Management.

University employees receive fire evacuation and awareness training during their New Employee Orientation and participate in regularly scheduled emergency evacuation drills.

Public Access Fire Incident Log

Housing and Residential Life maintains a fire incident log for the most recent 60-day period. It is open to public inspection during normal business hours. Items older than 60 days can be obtained by request within two business days. In accordance with HEOPA, section 668.49 Annual Fire Safety Report, we maintain all supporting records and daily logs for the three years following the publication of the last annual campus security and fire report to which they apply.

To Report a Fire

All students and employees at CSU Stanislaus should call 9-1-1 to report all fires or fire related emergencies.

- If you see a fire or smell smoke, immediately call 9-1-1 and/or activate the nearest fire alarm. You may also use the emergency blue light call boxes to contact the Police (Turlock Campus).
- If the fire is small and you are trained, you may choose to use a fire extinguisher or a building fire hose to put out provided ALL of the following conditions are met:
  1. The fire alarm has been activated
  2. All occupants have been evacuated
  3. If the fire is small (waste basket size) and has not spread
  4. You have the correct type of extinguisher

Plans for Future Improvements in Fire Safety

CSU Stanislaus plans to conduct more frequent fire evacuation drills for the Residential Housing facility in accordance with the International Fire Code Section 405.2. Residential Advisors will be provided with a more comprehensive training in fire awareness and safety measures and university employees will be required to attend training in emergency evacuation procedures.
Emergency Response

Emergency Operations Plan

The CSU Stanislaus Emergency Operations Plan (EOP) provides basic structure and procedures to guide the University's management of and response to extraordinary emergency situations associated with natural and man-made disasters.

The EOP conforms to California State and Federal law governing emergency operations. The CSU Stanislaus plan:

- Promotes the utilization of the Incident Command System
- Conforms to the Standardized Emergency Management System
- Conforms to the National Incident Management System

The Emergency Operations Plan is available online at: [http://www.csustan.edu/emergency/Documents/EOP.pdf](http://www.csustan.edu/emergency/Documents/EOP.pdf)

Emergency Procedures

The Emergency Procedures guide provides basic instructions for the University Community in response to crisis situations on campus.

Business Continuity Plan

The Business Continuity Plan provides administrative guidance for the timely return to the business of education.

Testing

CSU Stanislaus will conduct periodic testing of emergency response and evacuation procedures at regular intervals across campus according to the California Fire Code, California Code of Regulations, Title 24, Part 9. The testing of such procedures will be documented and will include a brief description of the exercise, the date, time, and whether or not the exercise was announced or unannounced.

Emergency Notification Procedures

Unless the notification at that time will compromise efforts to contain the emergency, CSU Stanislaus will immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or staff occurring on campus. University Police will coordinate and communicate response efforts once a threat to the campus has been determined. Depending on the nature of the situation confirmation may be made in collaboration with university personnel, allied agencies, or the campus community. Methods used for immediate notification may include but are not limited to: fire alarm systems, emergency radios, phone trees, and the Emergency Notification System.

CSU Stanislaus utilizes an emergency communication system that is capable of rapidly sending voice, email, text messages, and voice communication to the University’s management of and response to extraordinary emergency situations as part of the University’s management of and response to extraordinary emergency situations. This system is known as the campus Emergency Notification System (ENS).

During critical situations, CSU Stanislaus officials will use this system to provide emergency details and information on the appropriate response to all employees and students.

Emergency messages will be sent to all registered email and phone numbers, including work, home, cell and text. To register in the ENS, log on to the University emergency website at: [https://www.csustan.edu/Emergency/ENS/](https://www.csustan.edu/Emergency/ENS/) to provide or update your emergency contact number(s). You will need to login using your existing University e-mail ID and password.

If you experience problems with this process, please contact the OIT Help Desk at: (209)667-3687.

Building Marshals

These individuals are responsible for obtaining the evacuation status of their buildings in terms of assistance needed, building status, or any other critical informational needs. Building Marshals station themselves in pre-assigned locations to obtain information from their Evacuation Monitors. As soon as the status of their evacuation is known, they forward this information to the University Police Department. Their primary responsibility is the evacuation of people from their buildings and the reporting of this information to Public Safety. They are not responsible for active search and rescue or any form of building remediation.

Evacuation Monitors

These individuals are responsible for the timely and orderly evacuation of their buildings occupants. They direct occupants to the proper exit and redirect occupants to secondary exits as necessary. They are responsible for making quick checks of rooms and reporting any assistance needs to the Building Marshal upon exiting. These individuals are not responsible for search and rescue or other related tasks, but serve to provide needed information to their Building Marshals.
Emergency Evacuation

Evacuation Procedures

The evacuation of campus buildings or the entire campus may be required due to emergency situations occurring on or near the campus. Campus emergency planning facilitates evacuations and is conducted in a systematic, controlled, and planned manner.

The building evacuation plan for California State University, Stanislaus consists of a partnership between the University Police, Facilities Services, and individual volunteer building “Building Marshals” and “Evacuation Monitors”.

Specific Instructions to Building Occupants:

- Safely walk to the nearest exit and go to an evacuation gathering area away from the building then wait for further instructions.
- Stay out of the way of emergency personnel and vehicles and follow instructions.
- Immediately notify University Police or other emergency response personnel if you know of a disabled or injured person needing assistance.

Campus-Wide Evacuation

When it is necessary to completely evacuate the campus due to emergency conditions, a systematic and controlled approach will be used. When campus buildings are deemed safe for occupancy, personnel will be held at their current locations pending evacuation.

Where campus buildings are deemed unsafe the Gathering area system will be used (see map on page 7).

Following the decision to order the evacuation of the CSU Stanislaus campus, the University President or his/her representative shall notify:

- The Chief of University Police or his/her representative of the need to evacuate.
- The University Communications Public Information Officer or their representative of the need for information broadcasts asking all persons to stay away from campus.

Special Needs

Wheelchair users or other disabled persons should prepare for emergencies in advance, by instructing a University official or employee.

Move toward the nearest emergency exit. When a wheelchair user and/or other disabled person reaches an obstruction, such as a staircase, they should request assistance from others in the area.

If assistance is not immediately available, the wheelchair users and/or other disabled person should stay visible in an exit corridor or on an outdoor landing. They should continue to call for help until rescued. Persons who cannot speak loudly should carry a whistle (provided free by the UPD) or have other means of attracting the attention of others.

Special evacuation chairs (Evacu-Trac) are available in multi-story buildings to evacuate a disabled person DOWN stairs. The chairs are typically located near main stairways with instructions inside the cabinet. Contact the University Police for training.

Localized Evacuation

In some situations, it may become necessary to evacuate one or more building on campus due to a localized emergency situation. When this occurs the University Police will coordinate the evacuation with the Building Marshals and Monitors. The decision to evacuate will be based on the totality of the circumstances and, whenever possible, following consultation with the President and ranking Dean or Facility Manager. When evacuations are due to an overriding concern for public safety it may not be possible to make such consultations. In those instances the appropriate Dean or Facility Manager will be notified of the evacuation as soon as is practical.

Housing Evacuations

In the event of an emergency evacuation at residential housing facilities, students are to vacate their room and proceed to the nearest evacuation gathering area. Resident Advisors will respond and act as building Marshal’s and Monitors guiding residents to the nearest exits away from danger. Resident Advisors will use a methodical approach to evacuating each floor of each building involved. Once the building or area is clear a Resident Advisor will ensure that residents have evacuated to the gathering areas and are not blocking the path of emergency vehicles.
Crime Alerts and Notices
On occasion, you will see timely warning notices describing recent crime trends or dangerous incidents that represent an immediate threat to others. Notices are posted around campus to provide our community with information about the incidents and crime prevention recommendations. Notices are typically posted within 24 hours of certain verified trends or incidents.

Crime Reporting
If you or someone you know is a victim of a crime, you are encouraged to report it to the University Police. This includes but is not limited to: theft, assault, harassment, or any other crime. Your safety and the safety of others is paramount.

Federal Safety Compliance  
Disclosure and Distribution

Prospective students and employees receive the disclosure notice statements via multiple outlets such as, but not limited to: Enrollment Services and Human Resources recruitment packets and/or application packets, near posting and information distribution centers on campus, from deans and department heads, web site links, the student handbook, new faculty handbook, class schedule, and extended education catalogs.

Public Access to Campus Police Crime Log  
The department maintains a daily crime log for the most recent 60-day period. It is open to public inspection during normal business hours. Items older than 60 days can be obtained by request within two business days. In accordance with the Student Assistance General Provisions (Section 34 CFR 668.46 (f)), we maintain all supporting records and daily logs for seven years following the publication of the last annual campus security report to which they apply.

Student Discipline  
Students may be expelled, suspended or placed on probation for committing violent or criminal acts on campus or at campus-related events. CSU Stanislaus will, upon written request, disclose to the alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the university against the student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, CSU Stanislaus will provide the results of the disciplinary hearing to the victim’s next of kin, if so requested.
University Police Services

Enforcement and Arrest Authority

The California State University, Police Department employs eleven (11) highly trained, full-time, sworn police officers, two (2) Community Service Officers, and an active support staff for the 24 hour protection of the Turlock campus community. The peace officers of this department have state-wide police authority per Penal Code 830.2 and Education Code 89560, and are vested with law enforcement powers and responsibilities, identical to the local police or sheriff departments in your home community. The Department is made up of the following sections:

1. Police Services
2. Safety & Risk Management
3. Support Services

Working Relationships with State & Local Police

University Police maintain close working relationships with all local, county, state and federal public safety agencies through mutual aid agreements. Information involving all incidents of suspected criminal activity known to involve off-campus organizations representing the university community is routinely directed to University Police by allied agencies. Additionally, the University Police and Turlock Police Services share dispatching and mutual officer assistance through a memorandum of agreement (MOA).

Criminal Activity Off-Campus

When a CSU Stanislaus student is involved in an off-campus offense, police officers may assist with the investigation in cooperation with local, state, or federal law enforcement. The City of Turlock Police routinely work and communicate with campus officers on any serious incidents occurring on-campus or in the immediate neighborhood and business areas surrounding campus. CSU Stanislaus operates no off-campus housing or off-campus student organization facilities. However, many students live in the neighborhoods surrounding CSU Stanislaus. While the City of Turlock Police have primary jurisdiction in all areas off-campus, CSU Stanislaus officers can and do respond to student-related incidents that occur in close proximity to campus. University officers have direct radio communications with the city police, fire department, and ambulance services to facilitate rapid response in any emergency situation.

Timely Warnings

To minimize the number of criminal incidents, University Police Officers, Residential Life staff, students, and members of the wider campus community participate in a number of shared responsibilities to ensure that all students and their possessions are protected as much as possible. On occasion, you will see timely warnings noticing recent crime trends or dangerous incidents that present an immediate threat to others. University Police will determine if a situation poses an immediate threat and will determine the content of the message and notification unless issuing a notification will, in the judgment of the first responders, compromise the efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. It is our policy to distribute these notices around campus to provide our community with information about the incidents and crime prevention recommendations. Once all relevant information is received and verified, these notices will be distributed through various methods: posting, text, e-mail, voice mail, and / or mailings.

Security of and Access to Campus Facilities

All campus facilities are key accessed, and most are open daily for scheduled campus community use. The Housing and Residential Life Complex is gated with key access only. Campus key control and distribution is a function of University Police Services in coordination with Facilities and Support Services.

To provide for the security of campus facilities, the University Police enforces Educational Code 89031 & Housing Policies. Campus facility access may be revoked per Penal Code 626.

Security Considerations Used in Maintenance of Campus Facilities

The University Police are responsible for security of all campus facilities. Personnel perform daily building lock-up and monitor all maintenance issues in campus lighting, door locks and general environmental safety in conjunction with Facilities and Support Services. Regular inspections and surveys of campus indoor/outdoor lighting, shrubbery and walkways are conducted. The University participates in Crime Prevention through Environmental Design concepts for planning and improvements on campus.
