Timely Warnings
To minimize the number of criminal incidents, University Police Officers, Securitas Security, students, and members of the wider campus community participate in a number of shared responsibilities to ensure that all students and their possessions are protected as much as possible. On occasion, you will see timely warning notices describing recent crime trends or dangerous incidents that present an immediate threat to others. It is our policy to post these notices around campus to provide our community with information about the incidents and crime prevention recommendations. Once all relevant information is received and verified, these notices will typically be posted.

Security of and Access to Campus Facilities
All campus facilities are key accessed, and most are open daily for scheduled campus community use. Campus key control and distribution is a function of Grupe Commercial Services.

To provide for the security of campus facilities, the University Police enforces Educational Code 89031 & Housing Policies. Campus facility access may be revoked per Penal Code 626.

Security Considerations Used in Maintenance of Campus Facilities
Securitas Security and Grupe Commercial Services are responsible for security of all campus facilities. Personnel perform daily building lock-up and monitor all maintenance issues in campus lighting, door locks and general environmental safety. Regular inspections and surveys of campus indoor/outdoor lighting, shrubbery and walkways are conducted. The University participates in Crime Prevention through Environmental Design concepts for planning and improvements on campus.

Emergency Evacuation

Localized Evacuation
In some situations, it may become necessary to evacuate one more buildings on campus due to a localized emergency situation. When this occurs the University Police will coordinate the evacuation with the Building Marshals and Monitors. The decision to evacuate will be based on the totality of the circumstances and, where possible, following consultation with the President and ranking Dean or Facility Manager. When evacuations are due to an overriding concern for public safety it may not be possible to make such consultations. In those instances the appropriate Dean or Facility Manager will be notified of the evacuation as soon as is practical.

Stockton Campus

The Campus Fire Safety Right-To-Know Act

The Campus Fire Safety Right-To-Know Act is aimed at increasing fire safety awareness on college campuses. It amends the Higher Education Opportunity Act of 1965 requiring colleges and universities to report specific fire safety information and statistics. This bill was signed into law August 2008 and the following is a public disclosure report that details all information required by this law as it relates to CSU Stanislaus.

Fire Safety Education and Training

All on campus residents receive fire safety training at the beginning of each semester. Comprehensive training on fire and life safety is also provided to all Residential Life Advisors, and Building Marshals and Monitors. Emergency evacuation drills are conducted quarterly for residence halls and annually for campus wide buildings in coordination with Safety and Risk Management.

University employees receive fire evacuation and awareness training during their New Employee Orientation and participate in regularly scheduled emergency evacuation drills.

Plans for Future Improvements in Fire Safety

Residential Advisors and staff will be provided with more comprehensive training in fire awareness and safety measures and university employees will be required to attend training in emergency evacuation procedures.

In partnership with the City of Turlock Fire Department, an educational program will be presented on the hazards of fire, and will provide the necessary skills and information to enhance the safety of those residing on campus.

To Report a Fire

All students and employees at CSU Stanislaus should call 9-1-1 to report all fires or fire related emergencies.

• If you see a fire or smell smoke, immediately call 9-1-1 and/or activate the nearest fire alarm. You may also use the emergency blue light call boxes to contact the Police (Turlock Campus).

• If the fire is small and you are trained, you may choose to use a fire extinguisher or a building fire hose to put it out provided ALL of the following conditions are met:
  1. The fire alarm has been activated
  2. All occupants have been evacuated
  3. If the fire is small (waste basket size) and has not spread
  4. You have the correct type of extinguisher
  5. Your exit is clear and you can extinguish the fire with your back to the exit door

• When you hear an alarm, walk to the nearest exit notifying others of the fire on your way out.

• Go to an evacuation gathering area away from the building then wait for further instructions.

• Immediately notify Police or Firefighters on the scene if you suspect someone may be trapped inside the building.
Sexual Assault Policy and Procedures

entitled to attend the hearing with an appropriate advisor and/or support person. In cases involving allegations of a sexual offense, the complainant may be present while evidence is presented or may choose not to hear evidence related to the complainant, unless the hearing officer grants a request of any student or other witness that the complainant be excluded during their testimony to protect such student’s or other witness’s privacy rights and/or pursuant to the Family Educational Rights and Privacy Act of 1974. Questions may not be posed to an alleged victim, including any complainant, about his or her past sexual behaviors with any person other than the accused. The hearing officer shall ask all questions of the alleged victims on behalf of the accused (who shall give the hearing officer a written list of any such questions) unless the complainant expressly waives this requirement.

Possible Disciplinary Sanctions for Students or Organizations

The following sanctions may be imposed on individual students found responsible for violating the Student Conduct Code related to a sexual offense (Section 41301(b)(7), California Code of Regulations). The appropriate sanction(s) will be determined by the nature of the individual act. More than one sanction may be imposed for a single violation. Possible sanctions include: expulsion from the University, suspension for a specific time, probation for a specific time, psychological counseling or assessment, performance of community service, revocation of residence license, denial of access to campus or persons, or other sanctions as determined by the University.

The following sanctions may be imposed on recognized organizations found to condone, promote, or be involved in incidents of sexual misconduct (Section 41301(b)(7), California Code of Regulations): withdrawal of University recognition; informing the organization’s national or regional offices of the misconduct; prohibition on participating in campus activities; requiring community service and/or participation in sexual assault awareness programs by all group members; loss of University service and/or participation in sexual assault awareness programs by all group members; loss of University recognition; and criminal prosecution as appropriate.

In the case of an accused faculty member or other employee of the University, any discipline is undertaken in accordance with established California State University procedures and any applicable bargaining unit agreements.

Possible Disciplinary Sanctions for a University Employee

Sanctions up to and including dismissal from employment may be imposed on University faculty or staff members found to have engaged in misconduct including a sexual offense, in accordance with established California State University procedures, and guidelines set forth in appropriate collective-bargaining agreements. The complaint and the accused are entitled to the same opportunity to have others present during a campus proceeding and shall be informed of any proceeding outcome. If the victim is deceased as a result of the crime or offense, the University will provide the results of the disciplinary hearing to the victim’s next of kin, if so requested.

The University takes disciplinary action against students who are found to have engaged in sexual violence pursuant to California Administrative Code Title 5, Education Part 5 Section 41301(b) (7) (Standards for Student Conduct) which specifically prohibits “Conduct that threatens or endangers the health or safety of any person within or related to the University community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.”

**2013 Campus Security Report**

**The Campus Fire Safety Right-To-Know Act**

The Campus Fire Safety Right-To-Know Act is aimed at increasing fire safety awareness on college campuses. It amends the Higher Education Opportunity Act of 1965 requiring colleges and universities to report specific fire safety information and statistics. This bill was signed into law August 2008 and the following is a public disclosure report that details all information required by this law as it relates to CSU Stanislaus.

**Fire Safety Education and Training**

All on campus residents receive fire safety training at the beginning of each semester. Comprehensive training on fire and life safety is also provided to all Residential Life Advisors, and Building Marshal’s and Monitors. Emergency evacuation drills are conducted quarterly for residence halls and annually for campus wide buildings in coordination with Safety and Risk Management. University employees receive fire evacuation and awareness training during their New Employee Orientation and participate in regularly scheduled emergency evacuation drills.

**Plans for Future Improvements in Fire Safety**

Residential Advisors and staff will be provided with more comprehensive training in fire awareness and safety measures and university employees will be required to attend training in emergency evacuation procedures.

In partnership with the City of Turlock Fire Department, an educational program will be presented on the hazards of fire, and will provide the necessary skills and information to enhance the safety of those residing on campus.

**To Report a Fire**

All students and employees at CSU Stanislaus should call 9-1-1 to report all fires or fire related emergencies.

- If you see a fire or smell smoke, immediately call 9-1-1 and/or activate the nearest fire alarm. You may also use the emergency blue light call boxes to contact the Police (Turlock Campus).
- If the fire is small and you are trained, you may choose to use a fire extinguisher or a building fire hose to put it out provided ALL of the following conditions are met:
  1. The fire alarm has been activated
  2. All occupants have been evacuated
  3. If the fire is small (waste basket size) and has not spread
  4. You have the correct type of extinguisher
  5. Your exit is clear and you can extinguish the fire with your back to the exit door
- When you hear an alarm, walk to the nearest exit notifying others of the fire on your way out.
- Go to an evacuation gathering area away from the building then wait for further instructions.
- Immediately notify Police or Firefighters on the scene if you suspect someone may be trapped inside the building.
Emergency Response

Evacuation Responsibilities

Securitas Security
Securitas Security associates are trained to respond during emergency situations and assist City of Stockton Emergency Personnel with facility maintenance needs, and provide ongoing support for recovery efforts.

Evacuation Monitors
These individuals are responsible for obtaining the evacuation status of their buildings in terms of assistance needed, building status, or any other critical informational needs. Evacuation Monitors station themselves in pre-assigned gathering areas to obtain information from their Evacuation Monitors. As soon as the status of their evacuation is known they forward information to The City of Stockton Emergency Personnel. As soon as the status of their evacuation is known they forward information to The City of Stockton Emergency Personnel.

Evacuation Monitors
do not have the authority to direct occupants to the proper exit and redirect occupants to secondary exits as necessary. They are responsible for making quick checks of rooms and reporting any assistance needs to the Building Marshal upon exiting. These individuals are not responsible for search and rescue or other related tasks, but serve to provide needed information to their Building Marshals.

Regular inspections and surveys of campus indoor/outdoor lighting, shrubbery and walkways are conducted. The University participates in Crime Prevention through Environmental Design concepts for planning and improvements on campus.

Emergency Evacuation

Localized Evacuation
In some situations, it may become necessary to evacuate one or more buildings on campus due to a localized emergency situation. When this occurs the University Police will coordinate the evacuation with the Building Marshals and Monitors. The decision to evacuate will be based on the totality of the circumstances and, whenever possible, following consultation with the President and ranking Dean or Facility Manager. When evacuations are due to an overriding concern for public safety it may not be possible to make such consultations. In those instances the appropriate Dean or Facility Manager will be notified of the evacuation as soon as is practical.

Special Needs
Wheelchair users or other disabled persons should prepare for emergencies, in advance, by instructing a University official or employee.

Move toward the nearest emergency exit.

When a wheelchair user and/or other disabled person reaches an obstruction, such as a staircase, they should request assistance from others in the area.

If assistance is not immediately available, the wheelchair users and/or other disabled person should stay visible in an exit corridor or on an outdoor landing. They should continue to call for help until rescued. Persons who cannot speak loudly should carry a whistle (provided free by the UPD) or have other means of attracting the attention of others.

Clery Act Compliance

University Police Services prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The full text of this report can be located on our web site at www.csustan.edu/UPD/Pages/CampusCrimeStatistics.
