

# **Oakdale Ranch**

## **Intern – Viticulture Position Description**

Oakdale Ranch is a 6 ½ acre diversified small farming operation in the Knights Ferry area of Stanislaus County. We are offering an internship opportunity for college students who are interested in learning about farm planning, farm management and establishing a production organic viticulture area. The internship is available during a school term, while student is enrolled in agricultural or related studies. The intern will report directly to the owners of the farm.

The Oakdale Ranch internship program is a hands-on, work experience focused on operating a small farm. The intern will have the opportunity to learn viticulture planning, management and irrigation management. The intern will be involved with farm area maintenance and general farm equipment maintenance and repair. There will also be opportunities for the Intern to help develop and implement farm record keeping and practices for viticulture operations. There will be an opportunity for intern to learn how to utilize a drone for farming optimization applications.

### **Intern Duties and Responsibilities**

- Utilize farm equipment
- Perform maintenance and refueling of farm equipment
- Perform farm maintenance tasks, such as fence repairs, tree trimming and weed abatement
- Responsible for irrigation tasks
