

MBIO 3010 Bacteriology
Fall 2014 TR 12:30P – 1:45P N322

Instructor	My Lo Thao, Ph.D.
Office/ Telephone	N276 / (209) 667-3649
Office hours	MW 10:00A-11:30A or by appointment
E-mail	mthao@csustan.edu <ul style="list-style-type: none">• best method of contacting instructor• please include your name and the course number in the subject line.
Webpage	moodle.csustan.edu

Course Description: A study of microorganisms, particularly bacteria, including an introduction to bacterial structure/function, genetics, metabolism, physiology, and evolution, and their role in the world.

Course objectives:

1. For students to gain factual knowledge of the basic principles and theories of microbiology, particularly
 - a. Bacterial structures and their function
 - b. Bacterial genetics and evolution
 - c. Bacterial cellular metabolism and physiology
 - d. Host immunity
2. To understand the role of bacteria in everyday life including medicine (health and welfare and in infectious diseases), environment and industry.

COURSE REQUIREMENTS

Prerequisites: C- or better in BIOL 1150 and CHEM 1110 or equivalent.

Required Text: Microbiology: An Introduction by Tortora, Funke and Case, 11th Edition with Mastering.

ADD/DROP Policies: August 27th is the last day to add and September 18th is the last day to drop the course. The add/drop policies for this class are the same as the university add/drop policies.

Course Etiquette:

1. Arrive prepared and on time for class.
2. Turn off and put away all cell phones and pagers. No cell phone will be allowed out at any time. If they are taken out, they will be confiscated and/or you will be asked to leave.
3. Please do not carry on conversations with your neighbors once class has started. Such behavior is highly disrespectful and very distracting to me and to the other students around you.

Grading Policies:

1. **Academic Dishonesty and Misconduct:** There is zero tolerance for cheating. Cheating in any capacity in this class will result in penalties ranging from a minimum of a zero on the assignment or exam to a maximum of expulsion from California State University, Stanislaus as indicated by the official University Policy regarding dishonesty and misconduct. Exams, reports, and/or other assignments are indicators of individual performance. Copying off of another student's exam, plagiarized reports, or other assignments constitutes cheating. If your phone rings during the exam, ten (10) points will be deducted from your exam score. Taking out a cell phone during an exam is considered cheating, your exam will be confiscated, and you will receive zero points for that exam.

2. **Regular attendance is vital to your success in this course.** You are expected to attend class regularly, come to class on time, and complete assigned readings. Attendance requires not only your physical presence, but your attention and participation as well. Students who are physically present, but inattentive (including, but not limited to, sleeping, excessive conversation, texting, e-mailing, web-surfing, being disruptive, arriving late, leaving early, etc.) may be asked to leave. Missing more than 4 classes may result in being dropped from the course. You are responsible for any information or assignments you missed in your absence.
3. **Exams:**
 - a. Exams are written with the course objectives in mind. Because the information in this course cannot be divided into separate, discreet units, exams will, to some extent, be cumulative.
 - b. Unless otherwise stated, exams will begin at the beginning of the scheduled class time. If you are tardy, you will not be given extra time to finish the exam.
 - c. Once exam has started, you will not be allowed to leave the room until you have finished and turned in your exam.
 - d. Questions that may appear on exams include multiple choice, matching, short answer, discussion, problem-solving and case study interpretation. You will need Scantron form # 882-E for the exams. Note that:
 - i. Only answers on the scantron will be graded, so transfer answers carefully
 - ii. Take care to erase well those answers you do not want marked
 - iii. Illegible answers in written portion will not be graded.
 - iv. Correct spelling and grammar are necessary for effective communication. Therefore, spelling and/or grammatical errors will result in loss of points on exams.
 - e. After graded exams have been returned, you have one week to review exams or dispute errors; no grades will be changes after that time.
4. **Make-up exams only given under extenuating circumstances and only with documentation**
 - a. Make-up exams may be different and may consist only of short answers and essay questions. Exams must be made up within one week. Failure to appear at exam time without 24 hours prior notice to instructor with an appropriate excuse, or an appropriately documented emergency, will result in zero points for that exam.

5. **Total points for course = 675**

3 exams (125 pts each)	375 pts
One relevance reports	25 pts
Mastering Assignments	75 pts
Comprehensive final exam	200 pts

Additional assignments may be given throughout the semester. The instructor reserves the right to give unannounced quizzes if it becomes apparent that students are not keeping up with the material, there are an unacceptable number of absences among students and/or if students consistently show up late for class.

*No late assignments (including Mastering assignments) will be accepted, no exception.

6. **Grading** will be based on a percent scale:

93-100 = A, 90-92 = A-, 87-89 = B+, 83-86 = B, 80-82 = B-, 77-79 = C+, 73-76 = C, 70-72 = C-, 67-69 = D+, 60-66 = D, < 60 = F

NOTE:

- Take care of your grade. Remember you earn your grade; it is not given to you.
- The instructor reserves the right to reduce your grade due to excessive absences and/or tardiness.
- Grades/scores will not be sent to students via email or be given over the telephone.

- Instructor will not calculate student's scores or grade.

7. Course Page

Information for the course (**Lecture notes**, objectives, scores, syllabus, related materials, etc.) can be found on the course's Moodle page (moodle.csustan.edu). Lecture materials **are copyrighted** and are only for the personal use of students enrolled in the course. **Do not** give your username/password to anyone else. If you do so **no more** material will be provided.

How to enroll in Moodle:

1. Go to the Moodle site - moodle.csustan.edu.
2. Under Course Categories, locate and click on the course you need to enroll in - Microbiology, then MBIO 3010-001: Bacteriology
3. Create a Moodle account (this will be different than your CSU Stan login account). . Please remember your login and password. After your account is created and confirmed you will be able to view your Moodle course site
4. Enter the enrollment key (i.e., password) for the course. The enrollment key is: mbio3010fa14.
5. Once enrolled, go to your 'Profile Settings > Edit Profile'. Make sure that the information there is accurate (*e.g.*, your full name has been entered, your email address is correct). At the bottom of the page enter your student identification number.

8. Mastering

- a. Register for Mastering at <http://masteringmicrobiology.com/>
- b. Course ID = **MBIO3010THAOF14**

Note: Students who fail to correctly register for the Moodle and Mastering pages by August 29, 2014 will be dropped from the class.

***Note: No laptops, cameras, mp3s or cell phones are allowed in class.**

Tentative Lecture Schedule (open to revision)

Date		Related Reading	Subject
		Chapter	
Aug	21	1	Introduction, The Microbial World and You
	26		The Microbial World and You (cont'd)
	28	2	Chemical Principles
Sept	2	3	Observing Microorganisms
	4	4	Prokaryotic and Eukaryotic Cells
	9		Prokaryotic and Eukaryotic Cells (cont'd)
	11	5	Microbial Metabolism; Relevance report #1 due!
	16	6	Microbial growth
	18		Microbial growth (cont'd); Census date
	23	EXAM I Ch. 1-6 (125 points)	
	25	7	Control of Microbial Growth
	30	8	Microbial Genetics
	Oct	2	
7		9	Biotechnology and recombinant DNA
9		10	Classification of Microorganisms
14		11	Prokaryotes
16			Prokaryotes (cont'd)
21		12	Eukaryotes
23		13	Viruses, Viroids and Prions
28		EXAM II Ch.7-13 (125 points)	
30		27	Environmental and Applied Microbiology
Nov	4	14	Diseases and Epidemiology
	6		Diseases and Epidemiology (cont'd)
	11	No class (Veteran's Day)	
	13	15	Mechanisms of Pathogenicity
	18	16, 17	Nonspecific Host Defenses, Specific Host Defenses
	20	18	Practical Applications of Immunology
	25	19	Disorders of the Immune System
	27	Thanksgiving Holiday!	
Dec	2	EXAM III Ch. 27, 14-18 (125 points)	
	4	20	Antimicrobial Drugs
	9		Human diseases
	16	FINAL EXAM (200 points) 11:15A-1:15P	

Note: The lecture schedule in this course is tentative and subject to change in the event of extenuating circumstances.
