This workshop is designed to support faculty advisors working with students during the registration period for Winter and Spring 2020 courses. Advising topics we will address include:

- Effective advising practices when working with Stan State students
- Use of My Academic Progress tools, including STAN Planner
- Math placement advising for students in both STEM and non-STEM majors
- Approaches to special advising programs such as California Promise and On the Cusp
- Locating advising resources on the Faculty Fellows web page
