
The Unique Role of Vertebrate Microfossil Assemblages in

Paleoecology and Paleobiology

Editors, Julia Sankey and Sven Baszio

Table of Contents

Preface - Author: Sven Baszio, University of Bonn

Part I. Importance of microvertebrate sites, sampling, statistical methods, and taphonomy

Chapter 1. Information from microvertebrate localities - potentials and limits.

Author: Sven Baszio, University of Bonn

Chapter 2. Vertebrate microsite sampling: How much is enough?

Authors: Heather A. Jamniczky, University of Calgary, Donald B. Brinkman, Royal Tyrrell Museum of Paleontology, and Anthony P. Russell, University of Calgary

Chapter 3. Taphonomic issues relating to concentrations of pedogenic nodules and vertebrates in the Paleocene and Miocene Gulf Coastal Plain: Examples from Texas and Louisiana

Authors: Judith A. Schiebout and Paul D. White, Louisiana State University

**Part II. Guild Analysis, Ecological and Faunal Analyses, Biodiversity, and
Paleobiogeography**

Chapter 4. The structure of Late Cretaceous (late Campanian) non-marine aquatic communities: A guild analysis of two vertebrate microfossil localities in Dinosaur Provincial Park, Alberta

Author: Donald Brinkman, Royal Tyrrell Museum of Paleontology

Chapter 5. Vertebrate paleoecology from microsites, upper Aguja Formation (Late Cretaceous), Big Bend National Park, Texas.

Author: Julia T. Sankey, California State University, Stanislaus

Chapter 6. Terrestrial and aquatic vertebrate paleocommunities of the Mesaverde Formation (upper Cretaceous, Campanian) of the Wind River and Bighorn Basins, Wyoming

Authors: David DeMar and Brent Breithaupt, University of Wyoming, Laramie

Chapter 7. Microwear patterns on teeth of sauropods and their paleobiological interpretation

Author: Tony Fiorillo, Dallas Museum of Natural History

Chapter 8. Diversity of Latest Cretaceous (Late Maastrichtian) Small Theropods and

Birds: Teeth from the Lance and Hell Creek Formations

Author: Julia T. Sankey, California State University, Stanislaus

Chapter 9. Small theropod teeth from the Lance Formation of Wyoming

Author: Nick Longrich, University of Calgary, Alberta

Chapter 10. The first serrated bird tooth

Authors: Philip J. Currie, University of Alberta and Clive Coy, Aquila Books

Chapter 11. First dinosaur eggshells from Texas: Aguja Formation (late Campanian), Big Bend National Park

Authors: Ed Welsh, Museum of Geology, South Dakota School of Mines and Technology and Julia Sankey, California State University, Stanislaus

Chapter 12. Review of the Albanerpetontidae (Lissamphibia), with comments on the paleoecological preferences of European Tertiary albanerpetontids

Authors: Jim Gardner, Royal Tyrrell Museum of Paleontology and Madelaine Bohme, University of Munich

Chapter 13. Frogs of the Hell Creek Formation

Authors: Jim Gardner, Royal Tyrrell Museum of Paleontology
