

## Remote Research Projects

Research may either be a collaborative project with a faculty member, or an independent project developed in consultation with the faculty mentor.

In consultation with a faculty mentor

- Use of existing data
  - Archives
  - Data sets
  - Online databases
- Shifting topics and methodologies
  - COVID studies
  - Online surveys (Mturk, Qualtrics, etc.)
  - Virtual interviews

Rethink the final product

- Extended literature review
  - Go further in depth on the subject

Virtual symposia and conferences

- Research posters
- Pre-recorded and synchronous opportunities
