

# ACCESSIBLE TECHNOLOGY Initiative (ATI)

## UNDERSTANDING APPARENT & NON-APPARENT DISABILITIES

- Vision
- Hearing
- Speech
- Mobility
- Mental Health
- Chronic Conditions
- Learning Disabilities
- Traumatic Brain Injury
- Temporary Disabilities
- Attention Deficit Disorder
- Post Traumatic Stress Disorder

## VISION OF THE ATI

All CSU programs, services, and activities should be accessible to all students, staff, faculty, and the general public.

This encompasses all technology products used to deliver academic programs and services, student services, information technology services, and auxiliary programs and services.

## UNDERSTANDING YOUR ROLE IN ATI

Achieving the accessibility of information technology and resources is a shared responsibility for the entire campus community.

## TIPS FOR CREATING ACCESSIBLE DOCUMENTS

### TEXT STYLES

Use built-in Styles and Formatting to format headings and lists in documents

### ALT TEXT

Provide alternative text descriptions for images

### DESCRIPTIVE HYPERLINKS

Provide descriptive labels for hyperlinks, e.g. [CSU Stanislaus Home Page](#)

### SIMPLE TABLES

Keep tables simple & use header rows;  
Screen readers read tables from left to right

### FONT: Lexi Readable
