The purpose of the Preparation Guidelines is to assist you with the style and format of your thesis, project, or dissertation. It presents the guidelines established by the University and discusses the requirements you are expected to follow. These guidelines are intended to direct you through the preparation process, making it a simple and straightforward experience.

Each department has approved a style manual for the student’s guidance on technical requirements for references, bibliographic styles, tables, figures, etc. Please note, both departmental and University guidelines must be observed; however, in the case there is a conflict between the departmental style manual and the University’s guidelines, the University guidelines shall have precedence.

If you have questions not answered by these guidelines, please refer to your department’s style manual or contact your thesis/dissertation committee chairperson.

ORGANIZATION OF THESIS/PROJECT/DISSERTATION

A thesis/dissertation normally consists of three or four sections. These are the preliminary pages, body of the text, documentation, and appendices (if used).

The order in which these sections appear in the document is as follows:

Preliminary Pages
- Title page
- Certification of Approval
- Copyright (optional)
- Dedication (optional)
- Acknowledgements (optional)
- Table of Contents
- List of Tables (if used)
- List of Figures (if used)
- Abstract

Body of the Text
- Chapters or sections, tables (if used), and figures (if used)

Documentation
- References or bibliography (determined by department’s style manual)

Appendix or Appendices
- Elaborative material (if used)
PAGE LAYOUTS AND FORMAT REQUIREMENTS

Title Page

The correct wording, capitalization, and spacing for the title page are given on sample A on the right.

- Text on the title page should be centered between the left (1¾”) and right (1”) margins. Vertically each of the four entries should be evenly spaced from the others. In most cases (depending on the number of words in the title), this will result in approximately 1¾” for a top and bottom margin and between each entry.

- The title should be entered in all uppercase. The first line of the title must not be longer than 5 inches. If more than one line is required for the title, it should be double spaced and in inverted pyramid style.

- Other than the title, all text on this page should be single spaced and in uppercase and lowercase.

- Consult the list of graduate degrees at the end of this document for the appropriate listing of your degree on the title page.

- No concentration should be listed in the degree area.

- The title page has no page number, although it is counted as page one (i) of the preliminary pages.

- There is no comma between the month and year, and the month, not the semester, shall be listed under the name of the author.

Sample A

THE TITLE SHOULD BE ALL CAPS, DOUBLE SPACED, AND IN INVERTED PYRAMID STYLE

A Thesis Presented to the Faculty of California State University, Stanislaus

In Partial Fulfillment of the Requirements for the Degree of Master of (Degree)

By Name of Student Author
Month Year
Certification of Approval Page

The correct wording, capitalization, and spacing for the certification of approval page are given on sample B on the right.

- The certification of approval page has no page number, although it is counted as page two (ii) of the preliminary pages.

- The title should appear on the approval page exactly as it does on the title page.

- The correct rank (assistant professor, associate professor, or professor) and the discipline of each committee member should be typed under the appropriate signature line. If there are more than three committee members, add additional signature and date lines as needed, or remove a signature line and date line if there are fewer than three committee members.

- For security reasons, the certification of approval page shall include no signatures. The signed approval page is to be submitted separately and placed on file with the University Library.

- Sample B illustrates the format of the unsigned approval page with the explanation text box in the middle of the page with the wording as shown.
Copyright Page

The correct wording, capitalization, and spacing for the copyright page are given on sample C(1) on the right.

- The copyright page is optional.
- The copyright page has no page number, although, if used, it is counted as page three (iii) of the preliminary pages.

Dedication and Acknowledgements Pages

The correct wording, capitalization, and spacing for the dedication and acknowledgements pages are given on sample C(2) and sample C(3) on the right.

- The dedication and acknowledgements pages are optional. If used, the text is double-spaced and in indented paragraph form.
- The titles are typed in capital letters. The top margin for each page is 1 3/4” and the bottom margin of the text is 1 1/4”. The page numbers are centered in the footer and printed 1” from the bottom in lower case Roman numerals.
Table of Contents

Sample D and sample E on the next two pages illustrate possible formats for a table of contents. These samples correspond to the two formatting templates available on the Graduate School website. The choice of format for the table of contents may depend on your discipline, style manual, or committee recommendation. Consult your thesis (or dissertation) committee chair for recommendations regarding the organization of your thesis/dissertation. (Use of a template is optional.)

- Specific chapter headings or section titles will vary with each thesis or dissertation; however, chapter titles and headers in the table of contents must match the body of the text. (The chapter headings and subheadings in samples D and E are examples only.)

- The layout and spacing of the table of contents page are consistent for every thesis (or dissertation). The top margin is 1½”, the bottom margin is 1¼”, the left margin is 1¼”, and the right margin is 1”.

- Page number(s) are Roman numerals and centered 1” from the bottom of the page.

- Use leader dots, not periods, to line up chapter or section headings with the page numbers. In many word processing programs, leader dots are found under the paragraph, tabs format option.

List of Tables and List of Figures

The format and spacing for the list of tables and list of figures pages are shown in *samples F (1) and (2).*

- **Do not use these pages or list them in the Table of Contents unless there is more than one table or figure in the thesis or dissertation.**

- Tables and/or figures should be listed in the order that they appear in the body of the text. **List each title of the table and/or figure exactly as in the body of the text, including capitalization of words.** (Tables and/or figures in the body of the text should be placed after the discussion related to each.)

- Consult your style manual for the correct formatting of the tables and figures in the body of your text, including the formatting of the titles of the tables and figures.

- **On the lists of tables and/or figures, titles longer than one line are single-spaced with double spacing between entries.**

- The top margin for these pages is 1¾” and the bottom margin of the text is 1¼”. The pages are numbered with Roman numerals 1” from the bottom center.

Abstract

An abstract (see sample G) must be submitted as part of the thesis/dissertation. The abstract should contain your research topic, research questions, participants, methods, results, data analysis, and conclusions. Consult your program’s style manual for guidance.

- The abstract should be a **single paragraph on a single page, double-spaced, without indentation, and normally should not exceed 350 words.**

- The top margin for this page is 1¾” and the bottom margin of the text is 1¼”. The abstract page is numbered with a Roman numeral 1” from the bottom center of the page.
Body of the Thesis or Dissertation

The body of the thesis (or dissertation) consists of the text that is organized in a way that is consistent with the scholarly standards of the content area. Consult your program’s style manual.

Margins

The margins for all pages located in the body of the text are as follows:

- 1¾” – top margin on the first page of each chapter
- 1¼” – top margin on all pages with the exception of the first page of each chapter
- 1¾” – left margin on all pages
- 1” – right margin on all pages (text should not be right-justified)
- 1 1/4” – bottom margin of text
- 1” – bottom margin for the first page of each chapter’s centered page number
- 1” – top right margin for page numbers on all pages with the exception of the first page of each chapter
- 1” – right margin for page numbers in upper right corner

Chapters or Sections

In most cases, chapters are used to organize the body of the thesis/dissertation. Chapter numbers, if used, are labeled in Roman numerals. A possible scheme for chapter organization is as follows:

CHAPTER I  Introduction to the Study
CHAPTER II  Review of the Literature
CHAPTER III  Methodology
CHAPTER IV  Results
CHAPTER V  Discussion and Summary

If using template D, only the chapter title is used, not a chapter number.

Format for Headings in the Body of the Text

Format the headings and subheadings in the body of the text according to the formatting illustrated in the table on the next page. The chapter title (and chapter number, if using template E) is considered level 0. Below the chapter title are headings and subheadings, illustrated in the following table as levels 1 to 5. Regardless of the number of levels of subheading within a section, the heading structure for all sections follows the same top-down progression. Each chapter or section starts with the highest level of heading, even if one chapter or section may have fewer levels of subheading than another chapter or section.

</tbody>
</table>
Reference and Appendix/Appendices Pages

Both the references and appendices are preceded by a title page with the word REFERENCES (or APPENDIX or APPENDICES as appropriate), typed in all capital letters, centered on the page 5½" from the top. These title pages are counted but not numbered. Following the title page, continue the page numbering in the upper right corner.

- References are formatted according to your department's style manual.

- The first page of the references (following the title page) is titled REFERENCES typed 1¾” from the top of the page. Subsequent reference pages have a top margin of 1⅛”.

- Use only one title page for the appendix or appendices section. Label the title page APPENDIX if you have a single appendix. Label the title page APPENDICES if you have more than one appendix.

- If you have a single appendix, the appendix should be labeled APPENDIX typed 1¾” from the top of the page. The title of the appendix is listed in all upper case and double-spaced below the word APPENDIX.

- If you have more than one appendix, the first page of each appendix should be labeled (APPENDIX A, for example) 1¾” from the top of the page. Each appendix should also have a title in all upper case and double-spaced below the appendix label.

- Begin each appendix on a new page with a 1¾” top margin. Subsequent pages of each appendix have a top margin of 1⅛”. Minimum margins still apply even when materials in the appendices are photocopied from other sources or formatted differently from the rest of the thesis/dissertation.
TYPESETTING YOUR THESIS/PROJECT/DISSERTATION

- The entire thesis/dissertation is to be double-spaced. Single spacing is acceptable for longer block quotations (i.e., quotation comprising more than 40 words, displayed in a freestanding block of text without quotation marks). Judicious triple and quadruple spacing is acceptable where it improves readability (e.g., before or after tables and figures). Use the tabs feature or the ruler in your word processing program to indent paragraphs uniformly.

- The preferred font is Times New Roman or a similar serif font in 10 or 12 point. Typefaces larger than 12 point are not acceptable. The same font must be used throughout the document. Sans serif, cursive, or script fonts are not acceptable. Boldface is not acceptable except where specifically required by a style manual (e.g., boldface headings in APA style). Color is acceptable within tables and figures.

- Formatting templates, Microsoft Word documents pre-formatted according to these guidelines, are available at the Graduate School website.
