MAKE A DIFFERENCE

The majority of teachers enter the education profession because they want to make a difference in the lives of students. The consistent positive influence of teachers benefit students, their families, and the communities they live in.

DESIRABLE WORK SCHEDULE

One of the biggest perks of being a teacher is the excellent work schedule. Teachers have evenings and weekends off, as well as paid summer, winter, and spring breaks. California teachers typically only work 180 instructional days per year.

REWARDS

Students bring many rewards to a teacher with the strides and accomplishments they make, the funny things they say and do, the questions they ask, and the stories they tell. Being around young people will keep you youthful in mind and spirit.

SALARY & BENEFITS

According to the Bureau of Labor Statistics, the annual salary for a teacher in California is $74,270, making it the 5th highest paying state for teachers. Add in medical, dental, and vision coverage, retirement contributions, and paid vacations; and you will find that teaching has a benefits package that just can’t be beat.

UPLIFTING ENVIRONMENT

The energizing environment of a classroom is very engaging. Teachers use their individuality, creativity, and sense of humor to inspire and motivate students. Creative learning experiences bring positivity to the classroom, which benefits both the teacher and students.

WHY TEACH?

The majority of teachers enter the education profession because they want to make a difference in the lives of students. The consistent positive influence of teachers benefit students, their families, and the communities they live in.
